

OUR NEWS BUDGET for OUR SATURDAY SUBSCRIBERS

MONDAY

Mrs. Philip V. Robin, 81, of Charlottetown died at the Charlottetown Hospital on Saturday.

Surviving in addition to her husband, who is a retired Canadian National Railways employee, are two sons, Rev. Eric Robin, parish priest at Rustico and Ernest Robin of the Dominion Department of Agriculture, St. John's, Nfld.

GLACE BAY, N. S. (CP)—Eddie Joss fired a goal at five minutes and 38 seconds of overtime here Thursday night to give Glace Bay Miners a 2-1 victory over Charlottetown Islanders and a one-game edge in the third of the best-of-nine semi-finals for the Maritime Major Hockey League crown.

Joss, caught off balance, took a pass from Neil Amadio as he neared in on Al Millar and got the winning shot away as he was falling to the ice.

The need of a hard surfaced road from Georgetown, through Montague, to Wood Islands by means of a separate grant, rather than part of the regular road allotment to the district, was emphasized by Dr. M. Lorne Bonnell, Fourth King's, when he took part in the Draft Address debate last week.

Dr. Bonnell maintained that since Kings County was not sharing in the proposed new road which his district had been promised should not be considered as part of the regular road work. However, he expressed the appreciation of the people he represents for what Hon. Donald MacKinnon, Minister of Public Works and Highways, had done on the roads during last year.

The annual meeting of the Charlottetown Women's Auxiliary to the Canadian National Institute for the Blind was held on Friday afternoon, March 13, at three o'clock, with the President, Mrs. D. J. Riley, in the chair.

The reports of the secretary and treasurer for the year were read and adopted, and the nominating committee brought in the new slate of officers:

Hon. President, Mrs. T. W. L. Prowse; Past President, Mrs. D. J. Riley; President, Mrs. J. T. Rodd; 1st Vice-President, Mrs. M. Garnium; 2nd Vice-President, Mrs. J. D. MacGulgan; Treasurer, Mrs. H. F. MacPhee; Secretary, Mrs. J. A. Gillies.

Executive: Mrs. William Teed, Mrs. D. J. MacDonald, Mrs. J. B. Murley, Mrs. A. W. Hyndman, Mrs. J. S. Morris, Mrs. James Gormley, Mrs. S. G. Peppin, Mrs.

A. K. MacPhee, Mrs. J. J. Morris, Mrs. A. J. Coffin, Mrs. P. J. Proude, Miss Laura Young, Mrs. W. J. P. MacMillan, Miss A. Moore, Miss Lorna Weeks.

In a service of imposing solemnity the rite of ordination and induction was administered yesterday morning in the Kirk of Saint James by the Rev. T. H. B. Somers to the following Elders-elect: Mr. Lemuel A. MacKinnon, Mr. Kenneth M. Martin, Q.C., Dr. A. J. Murchison, Mr. William R. Burnett, Mr. Louis Sadler and Dr. J. Harold Shaw. The music of the service was specially prepared and included the ancient ordination hymn "Come, Holy Ghost, our souls inspire" sung in an anthem setting by the Chancel Choir under the direction of Miss E. Lillian McKenzie.

Preaching on the words of the text, "Taking the oversight of the flock of God" (1 Peter V. 2), the minister outlined in an impressive manner various duties of the Eldership.

"Mr. Thomas Troy, Greenfield, was taken to the King's County Hospital late Friday night after suffering severe burns to his left leg and hand. He had gone to bed earlier in the evening, and had been smoking while lying in bed. He fell asleep and awakened to find his bed on fire. He leaped out of bed and came downstairs. Fortunately a few minutes later his son, Fred, arrived home, and was able to extinguish the fire, otherwise the house would have been a total loss. Only the bed clothes, mattress and a small table were lost.

Mr. Troy, who is 82 years of age, was immediately removed to the King's County Hospital, where his condition last night was described as about the same as when he was admitted.

The Borden Nationals Sisters captured the Island title as Montague Saturday night when they blanked the Shmohawk Sisters 4-0 in the final game of a home and home series. The first game played at Berden Thursday night ended in a 1-1 tie.

This is the first time for the Borden Sisters to bring home the coveted trophy and they were well deserving of it as they played excellent hockey through three hard fought periods. Nor is any glory lost to the Montague Sisters who also played well, despite the loss of a valued player, but lost graciously to a better team.

At the conclusion of the game Mayor B. H. Yeo of Montague presented the trophy to Miss Doris Noonan, captain of the Nationals Sisters.

TUESDAY

Final vows were taken by Sister James Florence in far off Africa when she made her profession for life in the Maryknoll Sisters. A native of Charlottetown, she is a daughter of former Mayor James E. Blanchard of this city.

Sister James Florence is a graduate of Notre Dame Academy here and Mount St. Vincent, Halifax, from where she went to Maryknoll Sisters' Motherhouse at Maryknoll, N. Y. Last year an assignment sent her to service in Africa. Her only sister, Mrs. Patrick Quinn, lives in the Bronx, N. Y.

A new refrigeration car and a new type of heated car will be put in operation for the first time in Prince Edward Island today by the Canadian National Railways. Refrigerator car CN 21000 is mechanically operated. It derives its necessary power from a 34 HP diesel engine generator suspended beneath car.

Described by Mr. Harold W. Wreford, assistant vice-president International Equipment Company, Montreal, the car will maintain any desired temperature automatically. Provision is also made for

automatic defrosting and heating when required. There is no loss in loading space with all equipment installed under car.

While the car has been used some five times in the Maritimes—all trips were with refrigeration shipments. This is the first time it has moved a shipment under heat from the seaside provinces. It will carry potatoes shipped by H. P. Willis Inc. to Montreal.

Yesterday in the Legislature Mr. W. F. A. Stewart, chairman of the select standing committee to inquire into the application of the Canadian National Railway for bus franchise in Prince Edward Island, tabled the committee's report recommending that the Railway application be turned down. He also tabled a transcript of the evidence and arguments taken at the hearings, which were held last June in Charlottetown, Georgetown and Summerside.

Attached to the committee's report and tabled with it was a copy of a letter from the regional counsel of the Canadian National Railway, taking exception to the accuracy of the transcript of the proceedings. This letter is interpreted in the committee's report as "in essence repudiating the statements and assurances given by the Railway officials at the hearings."

WEDNESDAY

The Glace Bay Miners were down but not out in the second period of last night's M.M.H.L. game at the Forum but like a ring-wise fighter who takes advantage of an opponent's carelessness they fought their way back to a 5-3 victory and to their first win in their semi-final series with the Islanders.

Murphy Chamberlain's Islanders had the Miners reading the first period and a half but "Hub" Macey's men cleared their heads in the last half of the middle frame and put the Islanders in the refrigerator with three quick goals.

Severe criticism of a letter from a Canadian National Railways official regarding the accuracy of the transcript of evidence during the hearings conducted to determine if that company should be given a bus franchise was voiced by all speakers in the Legislature yesterday.

The report of the committee, under the chairmanship of Mr. W. F. A. Stewart, First Queens, was tabled the previous day and came up for discussion yesterday afternoon with a large number of members taking part in the debate regarding it.

A new policy of testing three young bulls each year will be instituted shortly by the Ayrshire Breeders Association who met yesterday afternoon at the Experimental Farm. Approximately 25 Ayrshire breeders will participate in the plan which will see each of the young bulls bred to about 35 cows each year on a planned rotation basis.

Each of the breeders has agreed to breed a certain number of females under the new plan. At the same time the other cows in a herd may be bred if desired to other bulls which include a Scottish bull and one on loan at the farm. This means that in addition to the two just mentioned there will be three others at the Experimental Farm for breeding purposes.

The three young bulls to be tested under the plan will be selected by a committee comprised of Messrs. R. C. Parent, S. C. Wright, Major MacRae and Almon Wood.

A full program has been mapped out for the pupils presently attending the agricultural short course at the Vocational School. In addition to the regular subjects taught the large class will have much practical work through special field days during which trips will be made to various centres.

A feature of this course is that evening sessions during which speakers outside the teaching staff will be heard in open to the public as well as the pupils. Thursday night of this week will be devoted to discussions of the Marketing Boards with special speakers to explain the work they do. Friday night will be dairy night with Mr. H. J. MacDonald Provincial Department of Agriculture, as guest speaker.

Mr. William K. Rogers, has been signally honoured and recognized as one of Canada's foremost musicians by being invited to write a Coronation March for use over the C.B.C. network during Coronation week.

The march will be composed for broadcasts by the Symphony Orchestra, according to the request received from Mr. Geoffrey Waddington, musical director of the C.B.C. Although Mr. Rogers received the invitation some weeks ago, the official announcement was not made until last Sunday when publicity was given to the fact at the close of the New York Philharmonic broadcast from Toronto.

Mr. Rogers, who is a son of Lieut. Col. and Mrs. K. S. Rogers, has been choir director at Trinity United Church here since New Year's following his return from France and England last fall, where he had been furthering his studies.

THURSDAY

ANTIGONISH, (CP)—The Maritime intercollegiate basketball crown returned to St. Francis Xavier Wednesday night for the sixth consecutive year when the Xaverians edged a fighting St. Dunstan's University team 64-61 in the second game of a total-point series.

St. F. X. took the series by a slim margin of 110-104. They won 46-43 in Charlottetown last week. The game was fast and close all the way, especially in the second half. The score at half time was 25-24 for the winners and at the end of the third quarter they had pulled ahead 46-42.

15 student boys and girls who are keenly alive to the possibilities of the poultry industry are undergoing a course of instruction being conducted by Inspector Mr. J. B. Arsenault of the Federal Department of Agriculture, at the Experimental Farm.

The course, which will be of three weeks duration, deals largely with the principles of grading and practical work as well as poultry raising. Mr. Harry Robins of the Provincial Department of Agriculture is associated with Mr. Arsenault in certain aspects of the school of instruction, which is under the auspices of the Department of Education Vocational Training and the Federal Department of Agriculture.

Estimated expenditure of \$789,200.056 were forecast for the City during the year 1953 by Councillor, M. A. Farmer, Acting Chairman of the Finance Committee at a special meeting of the City Council yesterday afternoon. The revenue for the present year was estimated at \$701,889.70 leaving the council budgeting for a surplus of \$2,659.14.

A new tax rate of 2.75 per cent on real estate and personal property was set by the Council after considerable discussion. Councillors Arthur Gormley and Elmer MacDonald voted against the new rate, and Councillor Roy Gudmoe voted objection before supporting the motion. Last year's rate was 2.35.

The estimated expenditures and revenue are considerably higher than those of a year ago. The increase in estimated expenditure amounts to \$114,188.86 against an increase of \$107,679.75 in estimated revenue.

OTTAWA, March 18—(Special)—Of the \$2,535,890 spent in reclamation of marshlands in the Maritimes in the past three years, only \$181,165 has been spent in Prince Edward Island. This is revealed in the annual report of the Maritime Marshlands Reclamation Administration, tabled in the House of Commons today by Robert McCubbin, Parliamentary Assistant to Agriculture Minister Gardiner.

Sole project carried out in Prince Edward Island under the Maritime Marshlands Reclamation Act was that at Johnston's River in 1951. Extent of land effected by this project was 250 acres. Acreage benefited in Nova Scotia reclamation projects was 23,869 and in New Brunswick, 23,263. An unspecified Prince Edward Island project is listed in the report as "under consideration."

FRIDAY Two entries for the Lady Tweedsmuir competitions have been submitted to the Federated Women's Institutes of Canada by Prince Edward Island Institutes.

One entry is for the Community History Class and was prepared by Springfield Women's Institutes. This entry is a careful compilation of the history of Springfield from the time of the first settlers in 1928 up to the present time. The cover bears the name and the dates lettered in gold, and a small oil painting of the field and the spring for which Springfield was named.

The Parkdale Women's Institute have entered a quilt in the handicraft section of the Tweedsmuir competition. This quilt was designed by members of the Institute and has blocks with the wild flowers of Prince Edward Island applied in gorgeous natural shades on a pale green background. The central block is a large spray of the Lady's Slipper, the Island's floral emblem in pale pink. The Parkdale quilt represents the joint effort of many members and won first prize at the Provincial Handicraft Exhibition last August.

OTTAWA, (Special)—Efforts to provide greater shipping facilities for Eastern Prince Edward Island farms and improved outlets for farm produce of the region are being made here by T. J. Kichkham, Liberal MP for Prince, it was learned here today.

Mr. Kichkham has taken up this matter with Transport Minister Chevrier, with members of the Canadian Maritime Commission and with Maritime shipping experts. He contends that by skillful use of existing federal subsidies to east coast shipping, it would be possible to bring another vessel into service to speed up inter-provincial trade in the Maritimes.

One vessel which if suitably refitted would meet the requirements is the "Absalom Baird" which could be made available through Northumberland Ferries. If a charter could be obtained for the Baird, Mr. Kichkham pointed out, it would be a relatively simple matter to draw up schedules which would be economic and which would provide a carrier for Prince Edward Island products of farm and sea to natural markets in Cape Breton and Newfoundland.

Affirming its faith in the Potato Marketing Board as the best hope for bringing order and stability to the industry, a large delegation from the P. E. I. Federation of Agriculture waited on the members of the Legislature yesterday afternoon to present their annual brief.

The brief stated that some amendments to the Marketing Act should be made so the Board can obtain finances legally and efficiently. The brief was read by Mr. Roland MacDonald, Southport, Federation president, who was later complimented by several speakers.

Plumbing Mystery Solved... SURPRISINGLY few persons who want to build a home or renovate the one they have, realize that plumbing and heating is as easy and simple to obtain by mail as furniture or shoes. The mystery has been taken out of plumbing and heating in a simple little catalogue which you can now get from us, Canada's leading manufacturers' lines are exclusively portrayed; price list shows at least 30% less on all items; budget plan is the simplest, most economical and most straightforward thing since installment buying was devised. Two cents will get you the answer. A simple postcard dropped in the mail today need only say: "Naturally, I'm interested..." please send details. MAIN PLUMBING AND HEATING Dept. 31-R 1059 St. Lawrence Blvd. Montreal, Que.

At the First Sign of a COLD Take 2 Aspirin Tablets with a full glass of water... and feel better FAST! Here's sound and effective advice about colds. No matter how you try to stop or shorten a cold, the first thing to do before you do anything else—is to take Aspirin. You should do this because a cold is almost invariably accompanied by muscular aches and pains—and a headache, feverish feeling. And for your own good, you need a medication that will relieve these distressing symptoms—relieve them quickly. One reason Aspirin tablets bring this relief is that they're ready to go to work with amazing speed... actually start disintegrating almost instantly. So don't experiment with a cold. Use Aspirin. And for sore throats due to colds, gargle 3 times daily with 3 Aspirin tablets dissolved in 1/3 of a glass of water. To Relieve Aches and Pains of Colds, Take ASPIRIN Low Prices! Pocket box of 12 10c Economy bottle of 24 20c Family size of 100 79c
