NEW BRUNSWICK LEGISLATURE. The Legislature of our sister province was to have been opened on Thursday last. The members assembled at the hour named,—the Governor went to the Council Chamber, and summoned the members of Assembly,—they attended, and were sent back to elect a Speaker. That, it appears, was not a thing to be done in a hurry. The question was not made a party one.

TO THE MEMBERS OF THE ROYAL AGRICULTURAL SOCIETY.

GENTLEMEN— I have to call your attention to a correspondence which has been carried on during the last fortnight, in the *Islander* newspaper, between Judge Peters, a portion of the Committee of the Society and myself. It commenced by the Judge giving his reasons, in a letter to the Committee, for throwing up his appointment as President of the Society. This letter was full of vindictiveness, and contained charges which he as Assistant Judge had no right to make—for in the event of an action being brought against myself, or any of my bondsmen, for the balance they say I owe the Society, his Honor, having shown so much bad feeling towards me in that letter, disqualified himself from sitting on the bench to hear the case.

Let us now enquire, gentlemen, who are these upright and truthful men, "who hold up the mirror to nature," and who, after getting the Society into a ruinous state, desert it like a parcel of rats flying from a sinking ship. I presume they never endeavoured to make use of the Society in any way. Let us begin with the late President, Judge Peters. He never took advantage of his connection with the Society to get machinery and seeds from the States free of duty. Oh, no! it would never do for an upright Judge to be guilty of such a disgraceful act.

Before coming, I cannot resist the temptation of giving you an anecdote of the truthfulness of another of the Judge's flock, Jas. Robertson, Esq., J.P. On the morning of the day on which the nomination for Secretary was to take place I got a friend to drive me out to that gentleman's house. I stated my object, and asked him to vote for me. He said that he did not mean to go to the meeting at all, but to oblige me he would attend and give me a plumper; but, would you believe it? voted directly against me! Yet this man is a member of the Kirk, a Magistrate of the County, and would look with pious horror on any poor wretch who would give a false oath!

MECHANICS' INSTITUTE.—Last Tuesday evening James D. Hazard, Esq., Vice Patron of the Institute, delivered an instructive lecture on "Chemistry," and illustrated a scientific subject with some interesting experiments produced by a very extensive laboratory. Mr. Hazard has been for some years past occupying his leisure hours in the study of this science, and gave to the Institute some of the results of his investigations. A vote of thanks was given to Mr. Hazard.

CATHOLIC YOUNG MEN'S LITERARY INSTITUTE.—A Tea Party, under the auspices of the above Institute, came off last evening (Thursday 17th) at St. Dunstan's School Room, in this city. Tea was on the table at about six o'clock, and we understand that about three hundred and fifty persons, of both sexes, partook of it. The room was very tastefully decorated with flags, paintings, evergreens, &c. After tea was over the Rev. Mr. Phelan took the chair, and all parties being seated, the Rev. gentleman delivered the opening address. After which several gentlemen entertained the audience with some excellent songs, accompanied by instrumental music. A Band, with some fine new instruments, were stationed in the Orchestra. Mr. Whelan, the Rev. Jas. Macdonald, Rev. Mr. Duffy, Mr. John Kenny, and other gentlemen, afterwards addressed the assembly on a variety of interesting subjects. The proceedings of the evening were highly interesting and instructive; and if continued will tend very materially to promote the social and moral advancement of the community.—*Islander*.

At Lot 16, on Monday, 31st ult., MARY, the beloved wife of Mr. John McCallum, in the 71st year of her age, leaving a numerous circle of relatives and friends to lament her loss. Her calm resignation to the Divine Will during her short and painful illness, enabled her to meet death with that fortitude and composure which characterize those who, at the hour of death, can truly say that death is only "a messenger of peace that calls the soul to Heaven."

given to me for the purchase of stock was insufficient for the purpose, for both horses and prime Durham cattle were extremely high and scarce, on account of the great demand for the States, France, &c. Considering that it was no use to purchase second-rate animals—the expense attending their transit being the same as for the best—I applied to Mr. Whalley, and received from him, from time to time, up to the 11th September, £265 sterling, which enabled me to complete the purchase of the different animals I was sent to buy. Mr. Whalley charges the Society with the interest due on that sum, and the following is a copy of the entry in his account:—

Sept. 11, 1857.—To cash paid sundry orders for stock, as per statement given to Mr. Irving, £265 5 10
To interest on cash advanced from Sept. 11, 1857, to Oct. 12, 1858, (average date of bills falling due) is 13 months, 14 12 6"

At a Committee meeting on the 22d January last an order is made "that the sum of £14 12s. 6d. be charged to W. W. Irving, Esq., being 13 months' interest debited to the Society by Thos. Whalley, Esq., of Liverpool, for money ordered to be remitted to that gentleman, and retained by Mr. Irving for the period specified."! Other similar instances I might give, were it worth while. And as to their insinuations about letters being destroyed, the statement is as false as that made relative to the destruction of the turnip seed.

In regard to a bond not having been given for one year, that was no fault of mine. It was the duty of the President and Committee to attend to these matters; and this furnishes another proof of their carelessness and inattention to the interests of the Society, with which I have already charged them. Messrs. Hodgson and Co. endeavour, with their usual attempt to falsify the matter as much as possible, to show that I am so worthless a rascal that even my friends Fellowes and Thompson would not become security for me when I went to England last summer, and that two of themselves kindly stepped forward to my relief. I am only required to find two sureties, and Capt. Swabey and Mr. Stephen Swabey had already volunteered to become security for me, so that the refusal of these other gentlemen would not have affected me in the least. Messrs. Fellowes and Thompson shew, in the *Examiner* of the 14th inst. that they had no objection to become security for myself, but that they would not become security for those who had previously been in the office assisting in the sale of seeds, &c., or for the party who was to be appointed to act during my absence in England, and for whose errors they supposed I was to be held responsible. Mr. Fellowes is one of my bondsmen at the present moment.

THE following parcels of land will be submitted to public competition, at the Colonial Building, in Charlottetown, on WEDNESDAY, the 27th day of April next, at the hour of 12 o'clock, noon, viz:—

TO THE EDITOR OF THE EXAMINER.

Sir,—Permit me, through the *Examiner*, to remind the electors of this Island that the unsettled state of the Land Question is an obstacle to the establishment of a good Government, and that for many years the authorities in Britain as well as here have been opposed to an easement of the forfeited lands. But a late Colonial Minister, (Lord Stanley, the present head of the Indian Home), having declared in the House of Commons that great injustice was practised upon the people of this Colony by the granting of the Township lands to absentee proprietors on conditions which were never fulfilled by them, and that it was the duty of the British Government to repair the wrong thus inflicted,—the people of this Island should now bear in mind that there is a better prospect of having the Land Question settled to their satisfaction than ever there was, if they will be true to themselves, and return to the new House of Assembly men who will be independent enough to do justice to the Tenantry. The Question can be settled, and the forfeited lands bestowed, if the people are true to their own interests in returning Liberal Members.

WILLIAM COOPER.

Notwithstanding the imitations, and many other medicines in the market pretending to answer the same purpose, yet the sale of Perry Davis' Pain Killer is more than the whole of them put together. It is one of the few articles that are just what they pretend to be. Try it.—Brunswick Telegraph.

PAIN KILLER.
We have but little confidence in the trumpet-tongued statements of the proprietors of advertised medicines generally, but we are forced to concur in the opinion, uniformly expressed by all who have used Perry Davis' Pain Killer, that it is a very valuable article and one that it would be well for every household to have at hand in case of bruises, scalds, burns, diarrhoea, dysentery, cholera, fever and ague, and the host of diseases, external and internal, which it is adapted to cure or alleviate. No article of medicine ever attained to such unbounded popularity and extensive diffusion. Invented only sixteen years since, its curative powers have been experienced by many, many thousands in every section of the United States and Canada. It has penetrated to every part, even the most remote of the known world, bearing with it its healing influences more potent than those of the spices of "Araby the blessed." We are informed by our principal druggists, that they sell more of this article for exportation than of any or all others, and that the demand is constantly increasing.—Sales Observer.

Holloway's Ointment and Pills.—The surgery is generally too ready with the knife and the saw. The celt of a "brilliant operation" is a great professional "card;" but the mutilated subject who has all the pain and none of the glory of the cutting and slashing, is by no means to be envied. We have little doubt that in more than half the cases where the knife is used in hospitals and private practice, Holloway's inestimable Ointment would render its employment unnecessary, by reducing the inflammation, and precluding all danger of lockjaw, mortification or gangrene. We advise all who are suffering from wounds, fractures, tumors, cancers, diseases of the bones, &c., to try this healing, cooling, disinfecting preparation, before they suffer steel or caustic to come in contact with their flesh. The Pills should be taken to purify the blood, while the Ointment is applied externally.
