L.E. SHAW LTD.

Brick and structural clay tile are the perfect answer to today's demand for naturally durable and beautiful building materials. They need no finishing or refinishing. And they offer an almost unlimited range of colors and textures to fit any decorative scheme.

There are many ways brick and tile can be used in living or dining areas—to add warm, friendly color—to contrast with smooth or plain surfaces—to help merge indoor and outdoor space—to reduce maintenance.

When you buy or build, be sure that you get the decorative and practical benefits of brick and tile—in patio terraces and garden walls, in outdoor and indoor fireplaces, in the exterior and interior walls of your home.
