

Waiting Period For Certification Of Tubers Ordered

Mr. Chester E. Shaw, District Fruit and Vegetable Division Inspector for the Dominion Department of Agriculture, said yesterday his department had issued instructions to refuse to certify potatoes until after they had been held 10 days. If they were examined the day after being dug they would appear perfect but within a very few days blight might be shown. He strongly favored leaving them in the ground for up to three weeks of fine dry weather. He said that without certification had been used as a preventive measure before when serious blight was present or there was a danger of immature potatoes. Potatoes harvested before August 15 have suffered almost no damage from blight, but heavy rain with a consequent thorough soaking of the soil has caused a serious spread of the blight spores and permitted them to work into the ground. As a result practical to all potatoes dug since August 15 have been infected and the danger of total loss to both producer and consumer is serious. Mr. Shaw said there were upwards of 40 carloads shipped from the Province already this crop season and there had been no difficulty with shipments containing potatoes dug before the middle of the month. However, a few cars shipped which held potatoes dug since that time has caused a loss.

Curriculum For New Junior Grade

In order to satisfy the urge of children to learn at a pre-school age, the experimental class, to be known as Junior Grade 1 (Kindergarten) will commence at West Kent School shortly after the regular school opening on Sept. 4th. The curriculum will consist of approximately forty activities, under the guidance of Mrs. Charles Willett, formerly a member of the staff of Prince Street School, and will include handicrafts, memorizing of rhymes and songs, singing, drawing, sand table play, finger painting, free drawing and coloring with paint and crayons. A record player will provide the music for a rhythm band and the musical activities. To be eligible, a child must be five in December, and already forty six are registered. It is understood that at the beginning only a morning session will be held, for which twenty to twenty five children will be selected, probably the oldest amongst the applications already filed. The class will be under the jurisdiction of the City School Board, and it is hoped that at some future date an afternoon session can be added. Furniture and teaching equipment have been ordered, and there will be an announcement in the press in the near future as to the actual date of opening.

Agree Not To Move Cigaretts In Strike Dispute

MONTREAL, Aug. 30 (CP) — Imperial Tobacco Company of Canada, Ltd. officials today agreed not to move five freight cars loaded with cigarettes until company-union negotiations are reopened next week in the wage strike. The cars were loaded Wednesday by office and maintenance workers at the east-end plant but strikers, following a two-hour demonstration that nearly ended in a riot, forced them to remain on the company siding. The strikers, members of the International Tobacco Workers Union (A.F.L.), struck Aug. 21 to enforce wage demands. Company plants in Hamilton, Ont., and Granby, Que., also are strike-bound, bringing to 3,700 the number of idle workers.

CORNWALL - YORK POINT W.I.

The regular monthly meeting of the Cornwall - York Point Women's Institute was held at the home of Mrs. Gordon MacEwen on August 8. The meeting opened with "The More We Get Together" followed by the "Creed" in unison. Roll call was answered by 20 members and 19 visitors from the Clyde River W.I. Minutes of last meeting were read, approved and signed. Reports of various committees were read. Correspondence was read and discussed. It was moved and seconded that \$5.00 be given to Cancer Fund. The collection was taken amounting to \$3.60 and two membership fees were received. The program included readings by Mrs. Elmer Frizel, Mrs. Joseph Donahue and Mrs. Earl Lowther, which were enjoyed by all. A contest put on by Mrs. Elmer Frizel was won by Mrs. Everett Murray and Mrs. Walter. This was followed by "Twenty Questions" Next meeting to be at the home of Mrs. Gifford Bain. A hearty vote of thanks was extended from the visiting Institute by Mrs. Dixon and the president responded. A dainty lunch was served by the hostess assisted by the members and the singing of "Old Lang Syne" brought a very enjoyable evening to a close.

To Discuss Plans Of Royal Visit

The scheduled meeting between the Provincial Advisory Committee on the coming visit of Princess Elizabeth and Prince Philip, and Federal representatives was postponed from yesterday until today.

The change was due to a change in plans made by the visitors from Ottawa, Major Martin Charteris, private secretary to Princess Elizabeth, and Mr. Charles Stein, K.C., Canadian Undersecretary of State. They flew from Moncton to Halifax and thence to St. John's, Nfld., for conferences yesterday and are expected to arrive here by plane today if the weather is favorable.

Plans for greeting them were unsettled yesterday as local officials were not certain what time their plane would land. If possible a luncheon will be held at The Charlottetown and it is expected all committee members will attend as well, possibly, as His Honor Lieutenant Governor T. W. L. Prowse, Premier J. Walter Jones and Mayor B. Earle MacDonald.

The meeting between the visiting planners and the Advisory Committee will be a closed one, but it is expected that statements will be issued following it. At present plans for the reception of the Royal visitors in November are only in the tentative stage and must be approved before being announced.

Rural Teachers Convention At Hunter River

Miss Eva Morrison was elected President at the local Rural Teachers Convention held at Hunter River yesterday, with about thirty-five teachers from the surrounding district attending. Miss Lynetta Brown, of New Glasgow, was the local teacher. She is a member of the Board of Governors of the School Districts.

With Mr. Wilson Ross, newly appointed Inspector of the area surrounding Charlottetown, in attendance, the meeting commenced in the morning with a discussion period on the Course of Instruction in Arithmetic.

The afternoon session began with an interesting talk on the teaching of literature and language to senior grade pupils, given by Mrs. Frank Ross, of Parkdale, followed by a brief speech on the work of the Red Cross by Miss Marie Bowness, Supervisor of the Junior Red Cross.

Dr. L. V. Shaw, Deputy Minister of Education and Director of the Department of Education, addressed the meeting on general topics, basing mainly on the work of the coming school year.

The convention came to a close with a Question Box and discussion with all the teachers participating, conducted by Mr. E. MacPhail, Attendance Officer and Supervisor of the Correspondence Study Branch of the Department of Education.

MacMillan and Mrs. Harold Acon and Red Cross Committee, Mrs. Charles Jones.

It was moved by Mrs. A. MacMillan, seconded by Mrs. M. Judson to send \$1000 to Miss Clapp to buy material for the patients at the Sanatorium to work with. It was also decided to get signs painted for each end of Pownal District.

Mrs. Ambrose MacMillan invited the members to her home for the September meeting and collection amounted to \$170. The report of the annual convention was then given by Mrs. Edith Smith, Mrs. Everett Weatherie and Mrs. John Worth. A delicious lunch was served by the hostess and the meeting adjourned.

V. O. N. CONFERENCE

OTTAWA, Aug. 30 (CP) — A four-day conference of district superintendents and national supervisors of the Victoria Order of Nurses for Canada will open here Sept. 5. The meetings will discuss such things as visiting nurses services, nursing problems, civil defence, records, reports and staff education projects.

Progress Made In Federal Works Projects In Island

The acute shortage of sheet steel piling and the priority system of allocation are still causing delays in reconstruction and additions to wharves and breakwaters by the Dominion Department of Public Works in Prince Edward Island harbours. This condition is particularly in evidence at the Railway wharves in Charlottetown and Souris, but very good progress is being made on various other projects not requiring the use of steel piling.

The first contract to be let at Souris, that of reconstruction of the outer block of the breakwater, approximately forty feet by seventy feet, from low water up, was satisfactorily completed in July by H. J. Phillips and Sons.

The inner section, 341 feet long with an average width of twenty-five feet, was awarded to the Diamond Construction Company of Fredericton, N. B. The work consists of a close-spaced timber crib, ballasted and stringered, all timber being creosoted, and will carry a deck of untreated four inch planks. This project is now under way, with a number of local workmen being employed.

The Canadian Dredge and Dock Company, Ltd., were awarded the contract for the reconstruction of the Railway wharf at Souris, and the complete reconstruction and extension of the frost-proof shed. The approaches to the wharf and berth on the north side are to be dredged to a depth of twenty-two feet, low water, and on the south side adjoining the breakwater, to a depth of eighteen feet. The materials for this work have been ordered, and while awaiting delivery, the contractors have a large dredge at work on the area approaching the wharf.

Work At Rocky Point

The changes in the stem at Rocky Point are expected to be completed in about two weeks by Messrs. Noye, Rayner and Noye. Credit is given to the contractors for carrying out a fine job of reconstruction and extension without interference or inconvenience to users of the wharf.

Three projects are under way or planned in Summerside harbour. Repairs have been satisfactorily completed to the stone breakwater, this being the first major repairs needed to the structure since its construction in 1908.

Tenders are now being asked for the reconstruction, improvement, and dredging of the Railway wharf, and tenders will be asked for in the near future for the completion of the reconstruction of the wharf taken over by the Department of Public Works from R. T. Holman, Ltd.

Work is expected to commence within ten days on the reconstruction of a short section of the south breakwater at Tignish. The contract was let to Messrs. Comau and Seib of the province of New Brunswick, and the materials are in course of being delivered.

Rustico Harbour

Messrs. Smith and Sons of Port Hood Island, N. S., are repairing a 135 foot section of the Rustico breakwater damaged by a severe storm last January. This work is expected to be finished about the end of September.

Good progress is being made on the Railway wharf at Georgetown with day labour under the direction of Mr. Howard Llewellyn at Naufage Boat Harbour. King's County, is nearing completion under a contract awarded to H. J. Phillips and Sons.

Repairs to the outer block of the north pier at Graham's Pond are almost finished, and tenders will shortly be called for the extension to the inner section of the south breakwater, in order to provide badly needed extra mooring space for the fishing boats.

Minimum Potato Price Announced

A minimum price of 90 cents per bushel on seed potatoes of the Green Mountain and Katahdin varieties, and \$1.10 per bushel for Irish Cobblers, Sebagoes, Pontiacs and other varieties, was announced yesterday by Mr. D. A. MacDonald chairman and manager of the P. E. I. Potato Marketing Board.

No minimum price was set on tablestock potatoes, and that price on seed varieties is subject to later change if conditions warrant. The New Brunswick Potato Marketing Board is taking similar action, it was said by Mr. MacDonald who, in company with Mr. S. G. Peppin, technical adviser to the local board, met with the members of that board recently.

Trouble Caused By Barley Joint Worm

Barley growers of the Province, especially those on the north side, are experiencing considerable trouble with the barley joint worm. Although not unknown before, it had never caused any serious trouble until this year.

The worms are found on the stalk, close to the joint, and upwards of 20 may be on the one stalk. They are lemon-colored and approximately one-eighth inch in length. Little is known about it as yet and so far there is no recommended treatment.

Another disturber to farmers is the reappearance of the turnip root maggot which caused so much damage to crops last year. The maggot has been known to cut its way to within three inches of the top of the turnip. It does not stop feeding when the turnip is pulled, but bores deeper holes of pencil thickness and lays its eggs in them.

Last year was the first that extensive research work was done on the maggot, but all the records were lost in the fire which destroyed the laboratory at the Experimental Farm. This year Mr. F. M. Cannon, entomologist, states that it is being done over again this year.

Certificates Of Citizenship For Chinese Residents

Two new Canadians were proud possessors of citizenship certificates yesterday when Judge C. St. Clair Trainor, Queen's County Court Judge, conferred them on two Chinese-born residents of this city. The recipients were Harry Ben Thom, proprietor of the Roxy Restaurant, and Yop Hem, cook at the same restaurant.

Judge Trainor spoke at some length to the new Canadians in congratulating them on acquiring citizenship and telling them of the duties which go with the privileges. He spoke briefly of the value of their new citizenship and what it would mean to them.
