Gladstone's Doings and Undoings.

Mr. Gladstone began as the defender of the Irish church; he ended by demolishing it. No one ever opposed more vehemently the extension of British influence in Egypt, but it was under his government we bombarded the Alexandrian forts, fought the battle of Tel-el-Kebir and reduced Egypt to the condition of a British satrapy. He was the most conspicuous advocate of peace with Russia when Lord Beaconsfield was in office, until Constantinople was in danger. Five years later he left office, after having brought us to the very verge of war with Russia for the sake of Penjdeh. One year he clapped Mr. Parnell into prison, the next he proposed to make over to him the government of Ireland, and then again he deposed him from the leadership. Yet he was always consistent and anxious for his consistency. Circumstances alter cases, and Mr. Gladstone was not above being taught by events.—W. T. Stead in Review of Reviews.

True to Principles.

A New South Wales country school teacher recently gave a boy a question in compound proportion for home work which happened to include the circumstance of "men working ten hours a day in order to complete a certain work." Next morning the unsuspecting teacher in looking over the little pack of exercises found Jim's sum unattempted and the following letter inclosed in the page:

Sur—I refuse to let Jim do his sum you give him last nite has it looks to me to be a slur at 8 hour sistum enny sum not more than 8 hours he is welcum to do but not more

That the Action of A Piano Is its Very Life and Soul

More attention is paid to the inside of a **Heintzman** Piano, than to the outward appearance. A heavy carved fancy case is all right in ornamental furnturs, but a piano with

The Best Action In The World

which is the Wesel Nickel & Guss of New York, the only kind used in a **Heintzman Piano,** insures you that the inside contains only the **Choicest material** and the **Highest Skill** in workmanship that the world can produce.

The outside appearance of a **Heintsman Piano** is always **neat, durable** and **Attractive.** Our prices for a Heintzman Piano, are no higher than those of other makers.

Artificial Teeth on Metal Plates

A dentist who knows his business, and one that has any regard for his patients will always advise them to have a metal plate.

PROF. MELVILLE B. BUCKLEY,
Instructor Boston Dental College,
Boston Mass

In view of the vast amount of injury done to the mouths of wearers of rubber or vulcanite plates, by the retention of undue heat, owing to the non conductibility of rubber, and as alumium is now so cheaply produced, and making as it does a rigid, light, cleanly, unobjectionable plate there seems no reason why any person should wear a rubber or vulcanite plate. Not only this, but better results in fit and adhesion are obtained in difficult cases, than in the use of rubber.

L. P. F [illegible] D. D. S.
Chicag Ill Dental School

The above quotations are from hundreds by eminent dentists whose close observation in many years experience in plate work has learned them the many advantages of metal over rubber.

Many persons who are compelled to wear artificial teeth on a plate find that the ordinary plate causes heating of the mouth, bad taste, shrinkage of the gums, etc., finally causing the plate to get loose, sometimes sore lips, sore mouths and sore throats, and caused directly from the wearing of an ordinary plate.

We recommend a metal plate either of Gold, Platinum, Aluminum.

It is a conductor of heat and cold, it is non-irritating, and is thinner, lighter, and stronger than any other plate.

We have testimonials from persons for whom we have made metal plates—not one would wear an ordinary plate again. You can have your impression taken, and a metal plate made same day, fully guaranteed because we make them onrselves, and know all about the material used. Call and see specimens of our work.

Every piece of work done by us must give entire satisfaction to the patient, else we will not allow it to leave our office.
