TROUBLE FEARED.—Trouble is reported from the new mining camp, five miles from Santa Clara, Cal. A rich quartz claim is held by armed Mexicans, whose rights are disputed by American prospectors, and bloodshed is likely to ensue. Gov. Torres has been asked for troops, and officers are hastening there with a squad of Mexican cavalry.

ON THE WARRATH.—The New York Journal says that O'Donovan Rossa has issued a call for a convention of friends of Ireland to devise means to overthrow the English government. In a circular addressed to "Irishmen revolutionists," Rossa declares that by the sword alone Ireland can be freed, and that the dynamiters are anxious to help any other Irish revolutionists, no matter by what means they propose to destroy England.

FREDERIC VILLIERS.—This distinguished man arrived here on Saturday evening. During yesterday and today he received a number of visitors, all of whom are well pleased with the friendliness and entertaining disposition of the war correspondent. As already stated, Mr. Villiers lectures in the Y. M. C. A. Hall to-night and to-morrow night. He leaves here for Pictou, N. S., on Wednesday morning at which place he lectures on that evening.

PUGILISTIC.—Richard K. Fox has received the following from George W. The Lannon-Ashton fight is not likely to take place for some time yet.

WHITE WINGS.—The New York Evening World prints the following under a Glasgow date: "The Evening World correspondent learns from very reliable authority that Lord Dunraven has issued a challenge for a yacht race for the America cup. The challenge has been sent to reach New York this week in time for the six months' notice required. It is probable the race will take place at New York in the month of October. Dunraven is having a new yacht built—a 60 footer designed by Watson, which is in course of construction at Southampton."

LETTERS TO THE EDITOR.

The Manure Question.

SIR.—The discussion on manures in your paper is very timely, and it is pleasant to find farmers endeavoring to find light on subjects which so deeply interest them. I think, however, that your correspondent "A Farmer" has got a little beyond his depth in his letter in THE EXAMINER of the 27th ult. For instance, he says: "Good earth contains all of the eleven inorganic elements necessary to the growth and maturity of any crop, and when good earth is mixed with stable manure or any vegetable matter containing nitrogen it lime and potash are also present, with a certain quantity of water, the decomposition of the nitrogenous matter sets the nitrogen free and also liberates the oxygen from the water, and in the presence of potash and lime they have a tendency to unite and form nitric acid." The italics are mine. It would appear from the above that "A Farmer" is of opinion that lime and potash are not "inorganic elements," or, if they are such, that they are not "necessary to the growth and maturity of crops," and further, he appears to think the presence of lime and potash necessary for the formation of nitric acid in the soil. I fear that loose writing of this kind is not calculated to lead farmers to better methods.

I am, yours, March 29, 1889. Tyro.

Long-Standing

Blood Diseases are cured by the persevering use of Ayer's Sarsaparilla.

This medicine is an Alterative, and causes a radical change in the system. The process, in some cases, may not be quite so rapid as in others; but, with persistence, the result is certain. Read these testimonials:—

"For two years I suffered from a severe pain in my right side, and had other troubles caused by a torpid liver and dyspepsia. After giving several medicines a fair trial without a cure, I began to take Ayer's Sarsaparilla. I was greatly benefited by the use of it, and after taking five bottles I was completely cured."—John W. Benson, 70 Lawrence st., Lowell, Mass.

Last May a large carbuncle broke out on my arm. The usual remedies had no effect and I was confined to my bed for eight weeks. A friend induced me to try Ayer's Sarsaparilla. Less than three bottles healed the sore. In all my experience with medicine, I never saw more

Wonderful Results.

Another marked effect of the use of this medicine was the strengthening of my sight."—Mrs. Carrie Adams, Holly Springs, Texas.

"I had a dry scaly humor for years, and suffered terribly; and, as my brother and sister were similarly afflicted, I presume the malady is hereditary. Last winter, Dr. Tyron, (of Fernandina, Fla.) recommended me to take Ayer's Sarsaparilla, and continue it for a year. For five months I took it daily. I have not had a blemish upon my body for the last three months."—T. E. Wiley, 143 Chambers st., New York City.

"Last fall and winter I was troubled with a dull, heavy pain in my side. I did not notice it much at first, but it gradually grew worse until it became almost unbearable. During the latter part of this time, disorders of the stomach and liver increased my troubles. I began taking Ayer's Sarsaparilla, and, after faithfully continuing the use of this medicine for some months, the pain disappeared and I was completely cured."—Mrs. Augusta A. Furbush, Haverhill, Mass.

DEED.

In Charlottetown, this morning, Jane S., relict of the late Robert McGregor, of this city, in the 47th year of her age. [Funeral to-morrow (Tuesday) at 2 p. m. Friends are invited to attend.]

At sea, on the 11th Jan. last, on board the ship Jas. G. Baine, Milo J. Burke, aged 17 years.

The poor fellow, on the afternoon of the 30th Nov. last, was sitting on the poop, and the ship rolling heavily caused him to fall backwards about seven feet to the main deck, fatally injuring his spine. He lingered until Jan. 11th, when he died. The ship was owned by his uncle—Captain P. Mockler—and was on a voyage from New York to Brisbane, Australia, arriving at the latter place twelve days after his burial at sea. The poor boy left home full of life and hope, anticipating a pleasant time in Australia, where he expected to meet his uncle, Stephen R. Burke, who for years has resided there. He was a bright boy, and high hopes were entertained of his useful future life, but God, who does all things wisely and for the best, called him to himself while he was yet in the innocence of his youth.

At Elliott Vale, on March 26th, of acute gastritis, George W. Bennett, tailor, aged 63. The deceased was born in Exeter, England, from which place he came with his parents to Newfoundland, being then but a few years old. After serving his time he came to this island at the age of 18, without friends or money; but by his industry and integrity he soon built up for himself a good custom. He spent a few years in Charlottetown, after which he removed to the western end of the Island, where he made many friends. After 20 years spent in Brackley Point Road and vicinity, he came to Elliott Vale in 1887, where he continued to ply his trade until eight days before his death. As a neighbor, he was kind, courteous and obliging; as a father he was humane and considerate, and as a husband affectionate and devoted. He leaves a widow, four daughters, four sons, and twenty-six grandchildren to mourn their loss. The large procession which followed the remains to the grave testify to the esteem in which he was held by his many acquaintances. A solemn High Mass was celebrated by the Rev. M. J. McMillan, after which the coffin was deposited in the graveyard of St. Theresa's Church. May he rest in peace.
