?? CAR INSURANCE FOR \$10??
SURE It's possible!
The C. C. F. Government of Saskatchewan collects a premium of from \$4.50 to \$10.00 a year (depending on the age of the car) with the License Fee.
For this low premium the following protection is given:
1. Personal insurance up to \$10,000 in case of death for EVERY person involved in the accident—including the driver.
2. Funeral benefits of \$125 for each death.
3. Medical and Hospital bills paid.
4. \$20 a week compensation for loss of time due to the accident.
5. Dismemberment benefits for loss of limbs or serious injury.
6. Public Liability up to \$10,000.
7. Property damage up to \$1,000 (with \$100 deductible).
8. Collision Damage up to value of car (with \$100 deductible).
9. Fire and Theft up to value of car (with \$100 deductible).

COMPARE THIS WITH WHAT YOU PAY FOR INSURANCE.
You can't get as good insurance as this on the Island for FOUR TIMES THE PREMIUM.
ELECT YOUR C.C.F. CANDIDATES AND THUS TELL THE GOVERNMENT YOU WANT LOW COST CAR INSURANCE HERE!
First Prince: Hudson Pridham
Third Prince: Mrs. Leslie Ramsay
Fourth Prince: Harrison MacFarlane
Fifth Queen's: Al. MacLean Henry Gauthier
A vote for your C. C. F. Candidate is a vote for low cost Car Insurance!

Summerside To Have New Recreation Centre

The plan for a new recreation area on the former Brennan property was approved at the regular monthly meeting of the Summerside Town Council last evening and work will start on it shortly. His Worship Mayor Henry Wedge presided and all members of the council were present except Councillors J. L. Driscoll and Clarence Steele. Councillor Driscoll is ill and Councillor Steele is on leave of absence.

The motion about the playground was moved by Councillor G. B. Sheen and seconded by Councillor J. L. Gorriell. An accompanying resolution that Summer Street be closed from Summer to Granville Streets was also passed. This was moved by Councillor H. B. Schurman and seconded by Councillor Sheen. It was explained that the closing of this section of Beaver Street would enable the present baseball park and the new area to be joined together.

The clerk read a letter from the Postmaster General to the effect that Summerside can not get house delivery of mail due to the fact that an investigation showed that there are not sufficient calls. The necessary number is 2,500. The Council decided not to let this matter drop and to write Mr. J. Watson MacNaught, Federal representative of this constituency, and seek his assistance.

Mayor Wedge said that smaller communities than Summerside have this service. He said that Kentville with about half Summerside's population has had it for a number of years. Councillor Gorriell wondered if the Post Office Department had taken into consideration that the town is near a large R.C.A.F. Station and the personnel do much of their postal business in the town post office and cause a great deal of the congestion. Other councillors questioned the accuracy of the survey suggesting that a town with a population of about 8,000 must have more than 1,500 calls.

A letter was read from the school board estimating that the expenditures for the school next year will be about \$35,000 with approximately \$7,000 needed for capital expenditure. A motion was passed authorizing the Air Cadet League to hold a tag day next Saturday. Councillor T. D. Morrison reported light collections coming in good, better than expected. He said that following his warning last meeting it had only been necessary to cut off six connections and these were soon restored with at least 25 per cent of the bill paid and arrangements made for the balance.

Councillor Morrison said that he was talking to Premier Jones recently who advised him to tell the Council that they could pave

Seek Dentists For Alberton
At an adjourned meeting of the Alberton Town Council last night Messrs. Edward Hardy and Herbert Clarke were appointed town assessors. It was moved, seconded and carried that the bill for street lights for the past quarter be paid in full. A letter from the secretary of the dental association for Prince Edward Island gave names of several men who will be graduating in dentistry this spring and the town clerk was instructed to contact them to learn of any of them who would be interested in coming to Alberton. Present at the meeting were Mayor C. R. Profit, councillors, Profit, Currie, Corbett and Matthews.

R.A.F. Planes To Fly With Arabs
FAYD, Egypt, April 16 - (Reuters)—A flight of R. A. F. jet Vampires left here for Jordan today for combined exercises with the Arab Legion. Another flight of Vampires returned here last week after taking part in an Arab Legion day review before King Abdullah.
MOULTON, Lincolnshire, England - (CP) - Because the bells of a church here shook the tower every time they were rung, eight of the bell ringers raised a fund of £1,200 (\$3,800) to have the bells hung in a different manner.

PARTY PLATFORM
(Continued from page 7)
election. I fought the amendment and had it reduced to \$50. As soon as they returned to power they again amended the Act in 1948, and against the efforts of the Conservative Opposition, railroaded through the amendment raising the deposit to \$200. Why in a Federal election covering a whole county instead of a district the deposit is only \$200.
Seventhly we propose to deal with the matter of car and truck licenses with possibly reductions especially with regard to trucks which in some cases now are unfairly taxed. In the House of Assembly at the 1950 Session I accused the Government and the Provincial Secretary of raising taxes by increasing truck rates. I received no satisfaction but I do know that some trucks were raised from \$87.50 to \$137.50 and that the Government in 1950 did collect a large increase in this Department.
Due to the 13 cents a gallon tax

on gasoline, one of the highest in the American Continent, I submit that it is time for some adjustment and abatement of registration fees rather than increases. Truckmen are even curtailed in their loads and are forced to haul a minimum and unprofitable load and what is there to haul on, how can a legitimate truckman make a living to-day. The Government even in their scale of trucking rates on road construction jobs are not paying a living wage. I say to you truckmen that it is time for you to figure out your position, to figure out your future and then I am sure you will back my party who realize that you are discriminated against.

Eighthly, we will continue Public Health & Welfare activities in all established branches and as our Party first introduced old age pensions in this Province and as the cost of living has so terrifically increased, we will support as our Federal Conservative Party has already gone on record, pensions for all over 66 years without a means test and at least \$40. monthly. We are definitely against the present policy of the Liberal Party of deductions because a pensioner is able to work and does work or because he has a roof over his head.

Trade Extension
Ninthly, we will support vigorously the extension of trade, particularly the marine shipping trade with Newfoundland and the other Maritimes, and we will encourage and lend practical assistance to private enterprise in the development of such trade. Co-operative industry will also be encouraged. We are very conscious of benefits to our citizens from the development of our trade especially with the purchasing province of Newfoundland.

We are distressed at what has already happened to this trade and how it has been injured by the present Government in its operations of the notorious vessel "Es-kimo", and the Hon. Walter Jones must take the blame and responsibility. Do you realize that our trade decreased in 1950 with Newfoundland and that our Trade Commission did not venture to make one single trip to that Province.

I wonder why—Was it that Premier Jones and his Eskimo were in too bad repute? Just imagine a shipping service established at a cost of possibly \$200,000. to this Province, which has done more harm than good to our trade and to our friendly relations with our new sister Province and Mr. Jones has so antagonized other shipping companies that our local shippers may now lose out on a trade established by them and built up for years. We pledge to remedy this, to be guided by those who know the trade and to work co-operatively with all to the betterment of our trade. The Eskimo will be dispensed with as also her imported manager.

Tenthly we will provide for the inclusion of a labor branch in the Department of Industry and Natural Resources, and my party will promote the building of a marine slip at Charlottetown; the improvement of harbour facilities; the inclusion of the Province in defence industry contracts and the inauguration of minimum wage legislation for urban areas. For too long has the City of Charlottetown been forgotten. The Liberal Party have promised and Mr. Jones has promised but what have we received.

Just listen to Mr. Jones' promise of 1947 - Plank No. 14. "The recently prepared plan for a drydock in the Charlottetown area will be vigorously promoted. The plans now submitted will be promoted to secure immediate action." You would think the drydock was a reality from that. Was ever a move made? It was a bluff, they knew it, and you men of Charlottetown know it now. Why, the Eskimo, herself, would have given the drydock many thousands of dollars of work. Are you people to be hoodwinked again or is twice enough? All we ask is a chance to help you and the City of Charlottetown. In Mr. Jones' 1947 platform clause 6, he promised a Minister of Labour, and a minimum wage law - have you received it? - was not four years sufficient time to show some progress? I will leave the judgment in your hands.

Proposed Sales Tax
And lastly and by no means least we contract with you the electorate to refuse to adopt the proposed Liberal turnover sales tax. Our Federal leader is opposing it and we will likewise. To me it is unthinkable that any party should propose to place a greater burden on our people than they are carrying at present.
The Liberal Party imposed a few days ago on you a 10% sales tax and other special taxes. They refused to put on any price controls. Are you now able to make ends meet? Is the candle burning at both ends? I tell you plainly that
