THE STEAMER STANLEY.

Gets Back to Georgetown, After Being Out For One Week.

At five o'clock yesterday afternoon the steamer Stanley arrived in Georgetown. She left that port, bound for Pictou, on the preceding Friday, but as our readers are already aware, was unable to reach her destination. After laying up all night at Georgetown, she left again early this morning to try and reach Pictou, and it was thought she would succeed to-day.

LETTERS TO THE EDITOR.

MR. COOMBS AGAIN.

Sir,—Referring to a former letter re Government Savings Banks, the objection is raised, "Oh, if the Savings Bank Act were repealed, what shall we do with our money?" To which answer, do as you did before the Act was passed; put it in a farmer, improve your property, grow better cattle, manure your land better, pay your debts promptly, buy for cash. If, as the young man in Scripture, you have done all these from your youth up, then take hold of some relative or neighbor who is honest and industrious, lend him some of your surplus wealth and take security.

Lobster Packers.

The undersigned offers for sale, from warehouse or 13 arrive, the following Brands of

TIN PLATES,

For Lobster Packing, viz:

GLENDIN BEST! The Old Castle! Usual Sizes Required.

The first of these is the very best quality imported for this purpose, made of special lobsters in Canada. To-day there are over 21 millions of dollars in Savings Banks of P. E. Island. The owners of this bond are getting more miserably every day, and men who are sober and industrious, and often enterprising, cannot get loans at any price on safe security. In the face of such a lock-up of the tools of trade and enterprise, is it any wonder trade is dull—\$20 per head locked up for every man, woman and child on P. E. Island. To say nothing of the indirect advantages, suppose two millions of this 21 millions was loaned at 5 per cent, the annual interest would be \$100,000, the Government pay less than \$70,000, at least a net annual loss to the owners of this capital of \$30,000 per annum, and this to a small province like P. E. Island is worth looking after.

COLUMBIA BICYCLES

FOR 1894.

A Magnificent Line of Wheels.

The Columbia Bicycles for 1894 easily maintain their reputation as the leading Bicycles of the world. While many improvements have been added, enhancing their already high value, the price of them has been lowered, their best wheel selling for \$25 less than the corresponding one of last year. I hope in a little while to have a supply of the '94 catalogue, and will be happy to furnish to intending purchasers on receipt of a 5 cent stamp.

LITERARY NOTES.

In McClure's Magazine for February will appear a charming story of Western farm-life by Mrs. E. V. Wilson. Though a comparatively new writer, Mrs. Wilson shows the same fine sense of the humor and pathos of rural life, and the same sympathetic skill in depicting them that are the distinction of Miss Jewett and Miss Wilkins.

The national malady of nervousness will be the subject of an important article in McClure's Magazine for February. Edward Wakefield reports the talk with Dr. Samuel Weir Mitchell, a eminent specialist, wherein Dr. Mitchell affirms that Americans outrank all other nationalities in their proneness to nervous breakdown, and explains, as far as he is able, why it is.

Robert Barr, probably the wittiest and most ingenious of the writers of short stories, will have a thoroughly characteristic story of the "chickens" of an express train, in McClure's Magazine for February. The story will be admirably illustrated.

CANNED LOBSTERS.

I will be open to receive offers from preservers of lobsters—all the pack or part thereof—for the coming season, particularly those of good quality, for which I would pay full market prices.

LoBSTERS under legal size are scarcely saleable at any price, and inferior No. 2 qualities are undesirable in any kind of tins.

All tins should be lined with parchment paper. Best Tinplates for cans only should be used. (See advertisement in this paper.) Dealers are not willing to pay as much for plate and much superior to ordinary B. V. grade tinplates as they will for those in best quality; so many of contents of former become unmarketable, because of snout, and lobsters turning black, and unfit for food.

By using best quality plate, Packers will avoid snout, lobsters turning black, snoring, leaks, and loss in manufacturing tins, where common tin-plate is used.

Correspondents' letters will receive prompt attention. JAMES FRASER, 58 Bedford Row, Halifax.

Syrup of Figs

Produced from the laxative and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

Who have in vain tried every other means of relief should try "Schiffman's Asthma Cure." No waiting for results. Its action is immediate, direct and certain, as a single trial proves. Send to Dr. Schiffman, St. Paul, Minn., for a free trial package, but ask your druggist first.

CAPTAIN JOHN R. HIRE, of schooner Lillian, says: "I was suffering with inflammation of the chest, brought on by exposure at sea. Took a good supply of Putnam's Emulsion, which perfectly cured me. It has given me a new set of lungs."

Pond's Extract

Used alike by the medical profession and the people, it holds a position held by no other medicine in this country, or, perhaps, the world.
