Second District—JENKINS and McKay. Third District—BLAKE and STEWART. Fourth District—MARTIN and McLEAN. Charlottetown—OWEN and FITZGERALD.

THE DAILY EXAMINER.

NOVEMBER 24, 1893.

THE CITY CANDIDATES.

Is the Hon. L. C. Owen and R. R. Fitzgerald, Esq., the Liberal-Conservative of Charlottetown, and all independent men, have candidates for whom they may enthusiastically work and unhesitatingly vote. They are men of the highest character. They are men of tried and undoubted ability. They are men who have long been interested in public questions and who thoroughly understand and appreciate the wants and interests of the Province and its capital city. Mr. Owen has the confidence of the property-holders of Charlottetown in as high a degree as any man in Charlottetown. At the same time, he is not one of those who would deprive men who are not property-holders of the political rights which they possess, or place them under a political disability in order to gain a party or class advantage. He will, we are assured, when in the Legislative Assembly, vote for the restoration of the franchise rights of which the Dominion officials have been robbed, as readily as he will vote for the straightening of the crooked line of the King's County Gerrymander.

Mr. Fitzgerald has occupied a judicial position in this city for twenty years. He has done his duty fearlessly and conscientiously. In that position he has won and commanded universal respect. We have no doubt that the respect of the community will be his now that he is embarked upon the stormy sea of politics, where his brilliant talents will be displayed with great effect. We have no doubt that the enthusiasm which was created by his short, strong, off-hand speech at the meeting held last night will be an earnest of his success in a political career. The people of Charlottetown are greatly indebted to the Patriot for its unwitting hint to place Mr. Fitzgerald into the field. We have no doubt that the factors which induced those present at the meeting to make him their unanimous choice. Mr. Fitzgerald was never "refused the nomination." It was felt by many persons that Dr. Jenkins had the prior claim. The voluntary withdrawal of the doctor left the city candidate open; and following upon the Patriot's unintentional suggestion, Mr. Fitzgerald was enthusiastically placed in nomination. He has, in Sir Oliver Mowat and Sir John S. D. Thompson, examples of great political success after occupancy of a judicial position. These examples he will not be slow to follow. The People's Candidates for the city will fight a straightforward and strong battle for the restoration of the financial balance, for the restoration of the officials' franchise rights, for the repeal of the gerrymander, for the enactment of reasonable and practically measures tending to temperance and morality in town and country, for the defeat of the Peters-McLean-Farquharson combination. They will not go around with "Prohibition" on one side of their banner and "Licensed Taverns" on the other.

THE SECOND DISTRICT.

We learn that overtures have been made to Dr. Jenkins with a view to his candidature in opposition to Hon. Mr. Farquharson. Dr. Jenkins has thousands of friends in the Second District of Queen's who will extend to him an enthusiastic welcome. Loyal and patriotic electors are anxious to get rid of the man who displayed the Stars and Stripes a few years ago. But Dr. Jenkins will not do anything to compromise the position of Mr. Donald E. Campbell, who had been selected as Mr. McKay's colleague. Since writing the above we learn that a convention of delegates from the Second District was held at the Milton House in this city to-day. At this convention Mr. Donald E. Campbell proposed and Mr. Neil Currie seconded the nomination of Dr. Jenkins, which was carried unanimously and with great enthusiasm. There are 46,852 persons in Philadelphia who generally have employment, but who are at present out of work.

MORE OFFICERS.

Mr. PETERS has decided to have two Presiding Officers at each polling booth to assist in taking the poll for the election and the plebiscite. The list of these officers is now being prepared, and will be handed to the Sheriff in a day or two.

MR. DAVIES' OPINION.

HON. DANIEL DAVIES at the Liberal Convention the other evening, opposed the nomination of Dr. Warburton for Charlottetown and Royalty on the ground that Mr. A. B. Warburton, a brother of the doctor, was already a candidate for legislative honors, and that two out of one family was too many. Mr. Davies was right, and laid voiced the opinion of every right thinking person. It would be well for the electors of the Second District of King's County to take a note of what their late representative in the House of Commons said regarding family representation. Mr. Arthur Peters, who is now a candidate in King's County, is a brother of the Premier, and if elected would do exactly as his elder brother wishes—in fact, Mr. Premier Peters will, in effect, if elected, be representing two constituencies, and the formation of a family compact will be laid.

THE CHURCH SCHOOL FOR GIRLS AT WINDSOR.

It will not have escaped the attention of our readers that of late years considerable attention has been given to education generally, and particularly to what is called "higher education." This may mean college training, or grammar and high school teaching, or the education of girls and young women. It is to this last-named division that reference is now made. Large establishments for the education and training of girls and young women are now being compared with high schools and colleges. There must be pressing reasons for this special attention to female education or it would not receive the care and patronage extended to it everywhere throughout the civilized world. There appears to be separate motives for this new departure from old custom, one of which is that rapidly increasing population compels the employment of women in many ways hitherto thought to be suitable for men. Experience, however, has shown that for various occupations not requiring physical strength, but steady mental application, women are equally well fitted and in some cases better fitted than men for the work now commonly assigned to them. With this growth of opinion, verified by experience, there has arisen the conviction that, jointly with the education of women, a marked stimulus is given to the education of men. A new and formidable competitor for employment has arisen, which serves the excellent but unexpected purpose of compelling young men to active mental exertion lest they should be left in the back-ground or reduced to a lower level, and their places occupied by women. In England and the United States this result is becoming marked, and even in the highest occupations, as at the University of Cambridge, women have not infrequently taken prominent places, and in one notable instance, outstripped all competitors in a mental struggle where all were strong and trained. The second motive for the special attention now given to the education of women, is the vast influence they are capable of exerting for good, not merely in their homes, but in their neighborhood and often far beyond their neighborhood. A refined and properly trained woman gives a tone to all her surroundings, and by the influence of presence and example insensibly elevates and reforms those whom she approaches or by whom she is seen. We are led to these remarks by a perusal of the last report of the trustees of the Church School for girls at Windsor. This institution is just three years old; yet it has acquired a reputation which is bringing within its walls pupils whose homes are thousands of miles away. According to the report before us, there are now at "Elgheim," the name the Church School bears, six young ladies from New York, six from the ancient city of Quebec, two from Ontario, three from our own Province, upwards of forty from Nova Scotia, and twenty-five from New Brunswick, besides the classes of occasional pupils, who take special subjects, such as music, drawing, &c.

To gather these children and young women from so many quarters, so widely separated, implies some special attraction which is worth inquiring into. It is clear from the trustees' report that no expense is spared to provide the best of mental and physical training, and the best of food. As a mere matter of dollars and cents, the outlay of this establishment is interesting and suggestive. Last year, \$6,969.80 were paid for salaries; \$1,474.00 for servants wages; \$3,079.21 for provisions; \$1,084.61 for fuel; \$786.00 for stationery and artists materials; and so on in proportion, making a total outlay for the school year of 40 weeks, of \$17,783.47. But the income from fees was \$18,805.24; and consequently the establishment paid its way. This year, beginning September 2nd, the trustees have selected trained and accomplished governesses in England, for music, voice culture, drawing and painting, and critical English. The lady principal, Miss Machin, was sent to England for that purpose. Her mission, the trustees say, was successfully accomplished, and now the Church School has the best teaching power, money, within reasonable limits, can procure. This is working in a business-like manner. But a step is not made here. Besides attractive grounds, and all sorts of devices for out-door exercise and amusement, Miss Machin took good care of indoor pastimes, when school work was done. Its old saying—"All work and no play, makes Jack a dull boy,"—and this applies to girls as well. A good school must be a good home, to make it attractive to the little ones as well as to the bigger ones. But proper girl training does not end, necessarily with the school. Provision is now made at "Elgheim" for young women to matriculate at different colleges, and those who seek collegiate distinction are prepared for their aspirations in that direction. The leading Church journals in Ontario and Quebec, have had, recently, very favorable notices of this Church School for Girls at Windsor, in some instances the outcome of a special visit to the institution and study of its methods. In the proper place an advertisement will be found giving additional directions for further inquiry.

CONSISTENCY.

It is reported that the city candidates of our Prohibition Plebiscite Government have assured some of the electors that, in the event of the Scott Act being defeated, they "will go for a license law."

AN EYE OPENER.

We learn that at the public meeting held at Piquid on Wednesday evening, the Government candidates were met by the rumor that the Government's overdraft at the Merchants' Bank of Halifax on the 30th of September last was \$117,227, as set forth in the bank statement. Messrs. Forbes and Macdonald could not say a word about it. They were dumb as oysters.

THE CHARLOTTETOWN PROCLAMATIONS.

The proclamations for Charlottetown and Royalty have not yet been issued. Why this delay? Where is the hitch? What is the matter with Premier Peters that he cannot get his work done? He took the superintendence of the elections out of the sheriff's hands, and he should do the work. After to-morrow will be too late, as the required notice cannot then be given. Mr. Home, however, is the responsible person.

THE NEW LONDON DISTRICT.

We regret to learn that Hon. William Campbell is confined to his house by illness, and we also regret to learn that the Government candidates had not the courtesy to inform him concerning the meetings to be held in the first district of Queen's County, in order that he might be represented at them. It is very well to act upon the principle that "all is right in war and politics," but good feeling and good politics, as well as opposed to taking advantage of a sick man.

THE BELFAST DISTRICT.

ADVISES TO THE EXAMINER report that the meetings at Piquid Road and Alberry Plains were overwhelmingly in favor of Martin and McLean. We hear that a clerk of the Hon. Mr. Forbes freely dispensed liquors to the electors at the latter meeting. While Martin and McLean appeal to the intelligence and patriotism of the people, the Government candidates put an enemy into their mouths to steal away their brains. By the way, the Guardian has never yet denounced the authors of the plebiscite, who go about the country debauching the electors with whiskey.

IT'S GROWING!

The amount owing to the Merchants Bank of P. E. Island by the Government of this Province on the 31st August last was \$28,397.00; and on the 31st of October it was \$19,657.00—an addition of \$1,000.00 in three months. It is to be remembered that the Government keep the account of the Public Works, in which the road building has been going on, in the Merchants Bank of Halifax; and it is significant that the sum set down by this Bank under the heading "Loans to Provincial Government," has lately been swelled to \$146,000.00 of course, we cannot say how much of this is owing to the Government of P. E. Island. But it is evident that our debt to the Banks is growing. Yes, it is growing rapidly, notwithstanding the efforts of the Government and its candidates to include the liabilities incurred this year in next year's estimates!

AT SIXES AND AT SEVENS.

The Government party are still at sixes and at sevens. It is stated that after the celebrated meeting "for Liberals only" in the Philharmonic Hall on Tuesday evening a committee representing Messrs. Rogers and Proves engaged that hall for a meeting on the following evening. But the Government candidate, or some person or persons acting for them, saw fit to take the matter of providing a room for that evening into their own hands, and, ignoring the committee altogether, rented a room in the Market building. Both places were lighted up on Wednesday night, and everything was made ready for the reception of the "truly loyal." But the surprise of some members of the committee who rented the Philharmonic Hall may be better imagined than described, when they appeared at that place and were coolly given to understand by the sentinel stationed there that a power greater than they had secured a meeting room in the Market Building—and there they would have to go!

THE EGG TRADE.

The Canadian Gazette, published in London, sets forth the manner in which eggs should be packed for the British market as follows:—"The goods should be placed in long cases, having a double partition across the centre, so that the cases may be easily sawn in two. Each compartment should contain six hundreds, that is, 720 eggs, making for the two compartments in each box twelve hundreds, that is 1440. An allowance of half a hundred is generally made in London to cover damage. Dry, clean, and sweet straw should be placed between each layer and between the case and the eggs to prevent breakage. The Gazette adds:—"Prince Edward Island shippers would do well to take especial note of this matter, for the few cases which came from the Province last year were thought by the London dealers to be the freshest and best of the Canadian shipments."

NOTES AND COMMENTS.

—Montreal Gazette: Mr. Mercier is a leader in the Quebec Opposition, developing as great a worldly desire for economy in the administration of provincial affairs as Mr. Laurier experiences in the field of federal politics. A Canadian Liberal out of power is patriotic and economical to the soles of his boots. Mr. Mercier's experience, both in office and in opposition, shows also that the way to keep him thus is to keep him out of office.

—Toronto Globe: During the wave of depression that swept over the United States a few months ago street car receipts fell off as much as 30 per cent. in cities of the size of Toronto. If we apply this mode of gauging the extent of depression to Toronto, it would appear that the city is in much better condition than it was last year. To city's share of the car earnings for 1892 was \$365,289, while in the ten months already past of 1893 the city has received \$69,415. The year's percentage of receipts will be about \$72,500, an increase of about 10 per cent. over that of last year. There has been depression in real estate, but it is evident that the business tide is not diminished in force.

CITY CANDIDATES---TO WIN.

Owen and Fitzgerald in the Field.

The Nomination Received With Unbounded Enthusiasm.

Arrangements Made for the Campaign.

The deeply regretted illness of George Peake, Esq., who was at first nominated for Councilman—occasioned some delay in the selection of THE PEOPLE'S CANDIDATES for this city. The matter has been discussed and carefully considered in the past two days. Finally, Dr. Jenkins, who was at first nominated for Assemblyman in conjunction with Mr. Peake, generously surrendered his claim to the seat for the city. At a large representative, and enthusiastic meeting, held last evening, the Hon. L. C. Owen and R. R. Fitzgerald, Esq., were unanimously chosen as the people's candidates in opposition to the Peters-McLean-Farquharson Administration. After consideration, the Hon. Mr. Owen, who was present, accepted the nomination amid enthusiastic cheers. A deputation was despatched for Mr. Fitzgerald, and the nomination for Assemblyman having been formally tendered to him by the chairman, Mr. Blake, he signified his acceptance in a short, stirring, and eloquent speech. Arrangements were then made for the Grand Rally Meeting to be held in the Market Hall this evening. Committees were also appointed to conduct the canvass. The announcement of the people's ticket was received with unbounded enthusiasm. A few days hearty enthusiastic work to effect complete organization will place the election of Owen and Fitzgerald beyond a doubt.

USE SKOLA'S DISCOVERY, the great Food and Nerve Remedy.

Match Race. PHILADELPHIA, Nov. 24. A match race for \$5000 has been arranged between the trotter Directum and the pacer Saldino, to take place on Nov. 27.

Fire in Montreal.

Rolland Bros. furniture establishment was burned yesterday. Loss, \$20,000. An upholsterer, named Legault, perished in the flames.

Schooner Wrecked.

The schooner Sarah Alice, of Halifax, to Porto Rico, is a complete wreck near Turks Island.

CHRISTMAS GOODS!

Our Stock is Just Scintillating With Newness. Think of it, all ye people who want Xmas Presents for your children and friends! We have two Stores in one, both loaded to their utmost capacity with goods suitable for Xmas Presents, and the best of it is that all is new, not old, shoddy, faded or old-fashioned. The prices are as low as good buying for cash will allow us to make them. See our Ten Cent and Twenty-five Cent Tables—great values. We believe that it is quite safe to say that our Store is now, and will be right up to Christmas, the best place in the city to buy Xmas Presents. Already the tide of trade is setting in.

UNION HOUSE BARBER SHOP.

W. Arbing, Proprietor. ARE YOUR HENS LAYING? It is a fact but little known to people who keep poultry, that the first part of a hen which becomes disarranged on the approach of disease, is the ovaries, or egg producing organs. Excess of fat, exposure to wet and cold, poor condition, shedding feathers, improper food, want of exercise, or lack of certain elements in the food to develop the embryo egg, will all produce the same effect and cause the hen to stop laying. It cannot be laid down as an "iron-clad" rule, that when a hen ceases laying it is a positive symptom she will soon be sick; but it can be stated with the utmost assurance that something is wrong, or she would not cease laying for weeks and often months. The annual egg product per hen, in this country, ranges from three to eight dozen each. Now, this is by far too small. There is no certain reason why every hen that lays at all should not be made to lay from ten to fifteen dozen eggs each per year, and continue to do so for several years. We know of parties who get eggs at that rate in winter in our cold climate. How to get eggs in cold weather interests every person who keeps hens. Mr. Charles Raymond, of New Canaan, Conn., writes under date of March 3, 1887, "I had excellent results from feeding Sheridan's powder to my seventeen hens. In December they laid 224 eggs; in January, 175; and in February, 241. People around here who have three and four times the hens that I have, find that when I do not get one quarter as many eggs." I. S. Johnson & Co., 22 Custom House Street, Mass., (the only makers of Sheridan's Condition Powder) make hens lay well, post paid, to any person, 25 cent packs of Powder and a new Poultry Raising Guide, for 60 cents. The book alone costs 4 cents. For \$1.00 five packs of Powder and a book for \$1.00 a large 25 cent pack and book, 50 cents, \$3.00, express prepaid. Send stamps or cash. TELEGRAPHIC.

THE MATABELE WAR.

King Lobengula Has Fled.

LONDON, Nov. 24. A despatch from Cape Town says that the Matabele regiments have been completely broken up and that King Lobengula has fled northward in the direction of the Zambezi River. The despatch says that the war between the Matabeles and the British in South African Company is over.

THE SUICIDE MANIA.

Results of Drunkenness.

MONTREAL, Nov. 22. Two men committed suicide here yesterday. Hugh O'Mara, aged 26, who had been arrested for drunkenness, hanged himself with a belt in the police station; Evangelist Nantel, merchant of St. Jerome, aged 28, who had been in town on a spree for several days, while in a house of ill-fame, drove a revolver from his pocket and lodged a bullet in his brain.

St. Paul's Island, Nov. 24.—Yesterday, Robert Muirhead, acting Superintendent of St. Paul's Island, was found dead with a gunshot wound in his head. He got up at daylight, told his men to go to the main establishment vacated by Campbell last night to feed the horses and hand the boats. Shortly after he took down his gun and loaded it and told his wife that he would follow the men and look for birds. He gave her his keys when going, a thing he had never done before and started out. A girl went for water on the same road shortly after and found his body with the gun lying alongside.

Match Race.

PHILADELPHIA, Nov. 24. A match race for \$5000 has been arranged between the trotter Directum and the pacer Saldino, to take place on Nov. 27.

Fire in Montreal.

Rolland Bros. furniture establishment was burned yesterday. Loss, \$20,000. An upholsterer, named Legault, perished in the flames.
