

PERSONAL.

Miss A. Stewart returned to Summerside this morning.
 Mr. and Mrs. B. C. Prowse arrived home last night.
 Mr. Geo. B. Webb, of New York, is registered at the Davies.
 Miss Jessie Hunt, of St. Eleanor's is the guest of Mrs. C. W. Bourke, Water Street.
 Mr. Gilbert DesRoches, M. L. A., Miscouche, is among the guests at the Hotel Davies.
 Miss Laura Foster is home after an extended visit to her brother, Rev. G. I. Foster, at Aylesford, N. S.
 Miss Minnie E. Moren was a passenger by the western train this afternoon. She will spend a short holiday with friends in Summerside.

Mrs. (Dr.) Stafford, of New York City, is visiting friends in this city. She is the guest of Mr. and Mrs. W. H. Stevenson, Great George Street.
 Mr. J. O. Arsenault returned from Arichat last night, having attended there the Acadian Convention, and where he was elected President for Prince Edward Island. He was accompanied by Mr. S. Blanchard, of Wellington.

The Rev. Wm. Jackson paid a visit to his old friends at Bay View and Cavendish last week, and preached to them an able and eloquent Gospel sermon on Sunday evening, from the text 1st Corinthians 3:11, "For other foundation can no man lay than that is laid, which is Jesus Christ." The church at Cavendish was much overcrowded—many persons being compelled to stand; and the discourse was listened to with the utmost attention. On Monday the rev. gentleman was accompanied to Bedeque by Abraham Schurman, Esq., and he left by the Northumberland this morning, to resume his studies at Yale University, and his pastoral duties in the vicinity.

THE TELEPHONOGRAPH.

The United States Consul at Leipzig deals in a recent report with an invention that is expected to greatly increase the utility of the telephone. It has been devised by a Dane named Paulsen, and its purpose is to register a message when no one is present to receive it, so that it can be repeated afterwards from the instrument to which it was sent. The person called up has only to hold the trumpet to his ear upon returning to the office, even after an absence of days, to receive the message. Many inventors have tried to effect such a combination, but all failed on account of the difficulty of transferring the message onto a wax cylinder. Instead of a wax cylinder Paulsen used a flexible steel band in his phonograph, which is much simpler in construction than the Edison phonograph. Messages are much more easily removed from the steel band than from the wax cylinder. It is wound on two spools, moving quickly from one to the other and coming in contact with a very small electro magnet, switched into the circuit, which affects the steel band in such a way as to record on it any sound that may penetrate to the phonograph. It is only necessary to cause the steel band to re-pass the magnet in order to have the sounds repeated. Each vibration of the electro magnet produces a corresponding vibration of the steel band. In order to remove a message from the steel band a magnet is passed over the surface on which the message was recorded.
 The test recently made in the engineering department of the Copenhagen Telephone Company, whose service the inventor has recently entered, were surprisingly successful. Up to the present time the apparatus records a song better than a spoken message, but the latter is nevertheless quite clear, and the experts who have been making experiments in co-operation with the inventor declare that it is only a question of time until the telephonograph will repeat a message as clearly as it can be heard through the most improved telephone. The German Postmaster-General is much interested in this invention, and there are prospects of its adoption in many government telephone services. The Engineering News gives a brief description of its principles and methods of operation.

Local and Other Items

THE PROBS.—Moderate to fresh north east to east winds; mostly fair and cool.

POLICE COURT.—Today the light of our town, Albert P. Allin, was fined \$2 or ten days, for leading a high life and becoming drunk.

POSTPONED.—Owing to the continued wet weather the Scottish Gathering to have taken place tomorrow, has been postponed until Saturday next, the 25th.

ELECTRIC LIGHT SPORTS.—The C A A A is persistent, and will get ahead of old Plovias in time. The Electric Light Sports will be held on Thursday evening, 23rd inst., weather permitting.

NOTE THIS WELL.—The prominent leaders of both sides of politics will speak at the Whelan Demonstration on the 27th. Come one and all and give your favorite man a rousing reception.

LESS RAIN WOULD DO NICELY.—The Electric Light Sports are further postponed till Thursday evening, the 23rd inst. It is going to clear to-day, and the track is all right, but the C A A A, wishing to assure every comfort to its patrons, thought it advisable, on account of the dampness in the air, which would be at least uncomfortable, to postpone the sports till Thursday evening when it is reasonably sure to be fine.

FOR ST. PAUL.—Sister Ireneus and Sister Anastasia, of the congregation of St. Joseph at St. Paul, Minn., who have been spending a few weeks on the Island in the interest of their order, crossed over in the Northumberland this morning en route for the west. During their brief sojourn they secured a large number of postulants for their community. The young ladies left their Island home with the sisters and will enter the novitiate at St. Joseph's Academy, St. Paul. Those who left Charlottetown to-day were Miss McQuaid, Miss MacLean, Miss Clara Corcoran, Miss Gillis, Miss Corcoran, Miss Garland, and Miss Eva Power, of Fort Augustus; Miss Dougan, of Charlottetown. Fourteen others joined them at Summerside.

SEED GRAIN COMPETITION NOTES.

Among the seed grain competitors lately visited, who are engaging intelligently in the work and who live on the best and most productive farms, we might mention in Queen's County Fred Houston and John H. Moffat, Mayfield; Willie R. Jenkins, Vernon River Bridge; William R. Clark and Hazel Edwards, North Wiltshire; Sadie McNeill, Cavendish. In King's County—Harry P. Miller, Montague Bridge; Wm. J. Power, New Perth; Richard Creed, Alberton.

Some are withdrawing from the competition for various reasons, the principal of which is the anticipated amount of work in selecting enough seed from the standing grain to seed an acre next year, and also the trouble of keeping the produce of the acre separate from the other crop. We feel like encouraging them to persevere, though it is a little trouble, believing that those who follow out the competition for the three years will be amply rewarded for all their trouble in having by far the best seed ever sown in their locality. Such seed will be sought for by the neighboring farmer at advanced prices.

The best in anything is only got by careful selection, and it is to the people who take thought, and pains in these matters that the world is indebted for advance along all lines of production.

The difference between using ordinary seed and seed that has been carefully selected for a course of years, will be readily apparent to any who take the trouble to go through with this competition honestly. Besides there are many chances to win a good prize that will more than pay for all the trouble in the matter.

FULL ELECTRIC COMPANY.—A special meeting of the shareholders of The Full Electric Company of P. E. Island, will be held tomorrow (Wednesday) evening at 7.30, at Board of Trade Rooms, MacEachern's Building, to take into consideration the action of the City Council in awarding the contract to light the city to a foreign company at the extra cost to the citizens of \$1,400 a year above our tender for a new plant.

—It is stated that the post of Lord Chief Justice of England, in succession to Baron Russell of Killowen, has been offered to Sir Robert Bannatyne Finlay, the liberal unionist member of parliament for Inverness borough. Sir Robert will doubtless accept. He became solicitor general in 1896, when he was knighted. He graduated as a doctor of medicine from Edinburgh in 1863, but abandoned that profession for the law four years later. He is now attorney general.
