

Montreal Arms Store Uncovered

MONTREAL (CP) — Police have uncovered a large arms cache in a garage in Rosemont district in northeastern Montreal.

They described it as containing most of the weapons and ammunition stolen from the Fusiliers Mont-Royal Armory here Jan. 30 in a raid attributed to the terrorist Armée de Libération du Québec.

Police threw up a guard at the garage, about 50 feet from a church, and explosives experts from the city detective squad, the army and the RCMP examined the pile of mortar bombs, dynamite sticks, rounds of ammunition, automatic rifles, revolvers, a bazooka and other weapons.

The arms seizure followed by less than an hour the arrest at a midtown parking lot of Robert Hudon, 20, an electrician's helper whom police had been seeking on a warrant in connection with a bank robbery in the Laurentian village of Mont-Rolland April 9.

Brinco Continues To Seek Contract For Power Sales

MONTREAL (CP) — The British Newfoundland Corporation is continuing to negotiate with Quebec Hydro for a sales contract for Hamilton Falls power and "we are confident this large and imaginative project will proceed," Brinco chairman Robert Winters told the annual meeting here.

"A substantial part of our efforts have, of course, been directed toward reaching an agreement with Hydro-Québec so we might proceed with the hydro-electric development of Hamilton Falls in Labrador," he said.

Brinco had to suspend some of its work at the Falls, however, when Quebec Hydro decided recently it would not need the extra power until 1969 rather than 1968 as planned originally.

The only question at the meeting was put by a representative of a Toronto investment banker who asked whether it would be possible to transmit Hamilton Falls power to New York state without passing through Quebec province.

Mr. Winters said it would be technically feasible to bypass Quebec by laying underwater cables from Labrador to Newfoundland or Nova Scotia.

"Whether this is economically feasible hasn't yet been determined. We have asked our engineers to look at it but not much more than that... Our main effort is to sell our power to Quebec Hydro."

In his speech, Mr. Winters said contracts have been awarded for the design of 10 generating units of 40,000 horsepower each, which will be used in the main Hamilton Falls site.

Engineering studies and project planning were continuing.

Indian Woman Gives Report On Birth Control

LONDON (Reuters) — Lady Dianranthi Rama Rau, Indian birth control pioneer, said she hopes the next decade will produce visible results from the present family planning program in India.

Lady Rama Rau, president of the International Planned Parenthood Federation, said the population of India, presently about 450,000,000 is rising at the rate of about 8,000,000 yearly. She said the medical war on disease had increased the life expectancy to 45 from 36.

Some 300,000 people had been sterilized in India, the vast majority men, she said. Sterilization for men was easier than for women. At one camp 4,000 men were sterilized by a medical team in a four-day period, she said.

Lady Rama Rau arrived here after attending a conference of western hemisphere nations at San Juan, Puerto Rico, under the auspices of the International Planned Parenthood Federation.

Motor Vehicle Shipments Up

OTTAWA (CP) — Shipments of Canadian-made motor vehicles jumped sharply in March from a year earlier, the bureau of statistics has reported.

Shipments rose 31.1 per cent to 69,885 units from 52,524 in March of 1963. This raised the first quarter total to 204,706 units, a 25.8-per-cent increase over last year.

PILOT ESCAPES UNHURT
OTTAWA (CP) — Student pilot Jim Lalonde, 22, was practicing simulated emergency landing procedures Tuesday when he suddenly faced with the real thing. His light plane hit some power lines near Angers, Que., 20 miles east of here. He was uninjured in a forced landing, and walked a mile to a farmhouse for help.
