MORTGAGE SALE.

TO be sold by Public Auction, on WEDNESDAY, the Thirteenth day of April, A. D. 1887, at the hour of Twelve o'clock, noon, at the Court House, in Charlottetown, in Queen's County, and a Power of Sale contained in an Indenture of Mortgage, dated the twenty-seventh day of December, A. D. 1879, and made between Michael Landrigan and Margaret Maria his wife, of the one part, and the Right Rev. Herbert Binney and Benjamin Gerrish Gray, Trustees for King's College, Windsor, Nova Scotia, of the other part.

ALL that tract, piece or parcel of land, situate on Lot Thirty-four, in Queen's County, and bounded and described as follows, that is to say: Commencing at the southwestern angle of land owned by Edward Auld, thence running along the southern boundary line of said land eastwardly for the distance of thirty-four chains, thence northwardly along the eastern boundary of said land twelve and one-half chains, thence westwardly parallel with the said boundary line till it strikes the east boundary line of thirty acres of land recently sold by Edward Auld to Lawrence Whelan, thence at right angles south until it strikes the southeast angle of said thirty acres of land, thence along the south boundary of said thirty acres until it strikes land held by James Landrigan, thence south to the place of commencement, containing twenty-seven and one-half acres, a little more or less.

Also—All that other tract, piece or parcel of land, situate, lying and being on Township number Thirty-four aforesaid, bounded as follows, that is to say: Commencing at a stake fixed on the east side of the road leading from Charlottetown to Stanhope, thence east seventy-two chains, thence south ten chains, thence west seventy-two chains, and thence north ten chains along the said road to the place of commencement, containing sixty acres of land, a little more or less.

And also that other tract, piece or parcel of land, situate on Lot number Thirty-four aforesaid, having front of six chains on the west side of the Covehead Road, and running west by parallel lines to the boundary line of Township number Thirty-three, containing fifty acres of land, a little more or less.

For further particulars apply to Edward J. Hodgson, Solicitor, Charlottetown.

LETTERS TO THE EDITOR.

The Hour and a Half Race.

SIR,—In the *Patriot* of Tuesday's issue, there appeared an account of the skating contest which took place in the Excelsior Rink on Monday last. By the tone of the reporter's remarks, the race was too long and too monotonous to please him. I am sorry, but contestants who know their business when starting out on a long race, feel justified in, and not a gain which would make them unable to finish in a lively manner.

Because Mr. Rattray skated a shade faster than the rest in the first quarter, the writer jumps at the conclusion that he (Rattray) could double the others in a short race. In order to give him an opportunity of doing any doubling that he may consider necessary, I will skate him or any of the contestants in Monday's race, or any other Island skater, a three mile race in the Excelsior Rink.

Yours, etc.,
E. ST. C. BRECKEN.

The Excelsior Race.

SIR,—I see by a report of the race in yesterday's EXAMINER that Mr. Brecken skated 22½ miles in one hour and a half. This cannot be so. By reference to the New York *Clipper* annual, you will see that the fastest skating ever made was 20 miles in 1 hour, 30 minutes and 40 seconds, by R. Getz, at Milwaukee, Wis., Feb. 7, 1879. This time was never beaten. There must be some mistake in the measuring of the rink, or in the timing. If Mr. Brecken can skate that fast he is the champion of the world.

Yours, etc.,
FAIR PLAY.

Ch'town, March 7.

School Inspection.

SIR,—It is a fact apparent to all interested in educational matters, that adequate provision is not made for the inspection of our Schools. Mr. Cain, the efficient Inspector for the eastern part of the Island, visited the schools in this part of his district a few days ago. The day on which he came to my school was so stormy and the snow so deep that it was not advisable for children to venture out; consequently there were present but four pupils, and two of these had attended only a short time. Considering it useless to proceed with the examination under such unfavorable circumstances, I asked Mr. Cain to postpone it until the following day, when I expected to have a good attendance. He said, however, that it was impossible for him to do so, owing to the large number of schools awaiting him and the limited time at his command. He then very carefully examined the few present, but I fail to see how he could thereby determine with any degree of certainty the standing of the school or the progress made. But this is not the only time that my school has been inspected under unfavorable circumstances. Mr. Curran, the late Inspector, once favored me with a visit when the thermometer ranged from 15 to 20 below zero, and a strong wind blowing! But I do not wish to be understood as finding fault with either of the aforementioned gentlemen because it has been their disagreeable duty to visit schools at such times, but I wish to show that even but two officials the very important work of school inspection cannot be satisfactorily performed.

The old saying that "whatever is worth doing is worth doing well," should hold good in this case. If our schools are to be inspected, let it be done properly. The present Inspectors admit their inability to attain this desirable end. Mr. Cain, in his report for 1885, says: "The above statement shows that the number of schools in the Eastern District is 191. These cannot be visited and examined in less than one hundred days. As every Saturday is now regarded as a holiday in many districts, and the number of teaching days (without the Saturdays) in each is a little over one hundred, I was often obliged to examine schools when a fair attendance could not be expected." Mr. Arbuttle says: "To make the number of visits required by law involves on the part of the Inspector the most careful grouping of schools, and occasionally a visitation on days when, from the small number of pupils present, only a rough estimate can be formed of the teacher's work." Considering, then, that on the Inspector devolves the arduous duty of ranking teachers, it is scarcely possible that this, in addition to his other duties, can be properly performed, when in many cases he is obliged to content himself with but a "rough estimate of the teacher's work." To many the semi-annual visit of the Inspector may seem trivial, but to the teacher it is an event of importance, for, on the condition of his school, he must depend for a portion of his salary, as well as for the maintenance of his record as a teacher. Is it not very disappointing for a teacher who has zealously endeavored to advance his pupils as far as possible to see the Inspector come along when he has but a third or fourth of the usual attendance, his best pupils being perhaps all absent? But how can this be remedied? By amending third clause of the Public Schools Act, 1877, so that an additional officer could be appointed. With three good inspectors the work could be properly done, as they would not be obliged to visit schools except when at least an average attendance could be expected.

Hoping, Sir, that you will give this matter a share of attention,
I remain,
Yours truly,
TEACHER.

Lot 47, March 5, 1887.

A New Commissioner.

Lieut.-Governor Robinson is on his way to Washington. The *New York World* says: "Mr. Robinson has been investigating matters in connection with the fisheries dispute for his government, and it is expected that he will be permanently established at Washington as resident Canadian Commissioner. The Canadian Government has for some time had this project in mind, and Mr. Robinson will probably receive the appointment."

The old reliable—Dr. Sage's catarrh remedy.

War Notes.

WAR PREPARATIONS.

The Russian Government has ordered large quantities of hospital and ambulance material. One thousand extra workmen are employed in the arsenal getting artillery and ammunition ready. A commission has started for England to purchase torpedo boats.

FRANCE IMPROVING HER FORTS.
The *Nachrichter* says the situation has not yet lost its threatening character, compelling Germany to provide for every contingency. Among the warlike preparations of France during the past week may be noted the fact that 241 truck loads of planks and beams passed frontier stations, and that immense orders have been given for steel tubes for firearms. The rolling stock of French Northern and Eastern railways has been massed in large parks. At various points the work of finally clearing places at Belfort and other fort works has been begun.

GERMAN AND FRENCH.

The *North German Gazette* draws attention to the fact that M. Levanosoff, of Paris, is publishing a French and German pocket dictionary for the use of troops, costing only 20 centimes.

DOUBTS OF ALSATIAN LOYALTY.

A despatch from Strasburg announces that the Government has issued an order for the dissolution of the union of Alsatian choral societies, it being suspected that the union assisted the objects of the French league of patriots. The measures forbidding French military men to stay in Alsace, except on special permit, it is said, will be applied to civilians, and that societies whose rules forbid the admission of Germans to membership, or societies which, as a matter of common knowledge exclude Germans, will be dissolved. Press correspondents and others, it is claimed, have been acting as electoral agents, inciting the malcontents, visiting fortifications and doing the work of spies.

Bishop Baldwin's Prohibition

OF GAMES OF CHANCE AND DRAMATIC PERFORMANCES AS SOURCES OF CHURCH REVENUE.

The following decree has been issued by Bishop Baldwin in the diocese of Huron:

"Inasmuch as serious injury has for some time past been inflicted on the cause of Christ in this our diocese, by the use of unscriptural and utterly fallacious methods of raising money for church purposes, and seeing, moreover, that the principles which should regulate our giving, advocated by us in our primary charge in 1884, have in some instances been neglected, forgotten or ignored, we deem it best, for the interests of our Redeemer's kingdom and the furtherance of His truth among us, clearly and unreservedly to state what are the practices to which we refer, and to take such action as the welfare of our sacred religion demands.

"While allowing to congregations all reasonable liberty in the conduct of their own affairs, we yet feel that certain abuses in connection with the raising of money for church purposes have crept in among us, of so secular and unholily a character that to leave them unchecked would be not only to injure the spirituality of the church at large, but also, by implication, to make us partake of other men's sins.

"In accordance with the above, and in virtue of the authority committed unto us as chief pastor over this portion of our Lord's flock, we now formally prohibit all churches and congregations within our diocese using the following methods of raising money for ecclesiastical or parochial purposes:

"First—Raffling, throwing of dice, games of chance or gambling of any kind.
"Secondly—All theatrical, dramatic or impersonating exhibitions, whether public or private.
"Beyond these two injunctions it is not our intention to proceed, preferring to leave all other matters connected with this subject to your Christian judgment and sense of what is right as professors of the faith of our Lord Jesus Christ. We may, however, state our opinion, and in this we think we have the mind of Christ!

"The only true and Scriptural method by which we can raise money for the cause of Christ is the exercise of the divine principle of self-renunciation. The spirit too often invoked is that of self-gratification, or aggrandizement. Our offerings, to be acceptable to God, must represent—not the price which some have paid for amusement, and others for love—but the self-denial of our hearts for the love we bear to Christ."

MAURICE S. HURON.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower will make them free from disease, as when born. Dyspepsia and liver complaint are the direct causes of seventy-five per cent. of such maladies as biliousness, sick headache, costiveness, nervous prostration, indigestion, dizziness of the head, palpitation of the heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottle, 10 cts. Try it.

The name of General Boulanger is pronounced Boolanghjai. In English General Boulanger would be General Baker.

James M. Trotter, a colored man living at Boston, has been nominated by President Cleveland as recorder of deeds for the District of Columbia.

It was very late and they were renewing for the 67th time their vows. "You'll be true to me," she cooed; "you will never tell a base falsehood!" "Never, my darling," he murmured. Then the chestnut ball tolled 1.
