## PARKDALE PHARMACY

### WE CAN'T

In our business we CAN'T leave out an ingredient . . . the pharmacist's skill must be consistent day in and day out . . . every ingredient must be carefully weighed and checked and double checked . . . each prescription must be filled with the utmost care . . . which can only be given by a Registered Pharmacist. Our Registered Pharmacist is on duty seven days a week until 10 o'clock p. m. Rely on him for all your prescription needs.

Think a minute . . . ever leave out an ingredient?

Perhaps it was just a pinch of salt . . . a not too serious crime, but, with it the cake would have been just a little bit better. However, an error of this type usually doesn't have any drastic outcome, except perhaps a turned up nose or sour looking face.
