

# NEW ELECTRONIC INVENTION HIDES DEAFNESS

### Revolutionary Discovery Transmits Even Whispers With Startling Clarity

CHICAGO (Special)—An amazing new electronic ear which hides deafness and transmits even whispers with startling clarity, has been revealed by a noted Chicago electronic scientist.

He disclosed that this miraculous new discovery has rendered obsolete old-style hearing aids, and brings new hope to the 15 million persons in the United States who are hard of hearing.

He reported that this electronic ear enables the deaf to hear without any button showing in the ear and without dangling battery wires.

To acquaint the hard of hearing readers of this paper with this new miracle electronic ear which hides deafness, full details are described in a fascinating booklet, "New Discoveries to Help the Deaf Hear."

It will be sent free in a plain wrapper to anyone who requests it. Address: Electronic Research Director, 1450 West 19th Street, 747, Belmont Building, Chicago 8, Ill. A penny postcard will do.—Adv.
