The Great Millinery Exhibition.

We've been planning and preparing for this for weeks—indeed for months.

We've made every arrangement to give you the finest display of spring millinery that Ch'town has yet seen.

Thursday, April 27th, 7.30 to 10 p. m.

is the time. The exhibit will be on our first floor. We won't ask you to buy, you're invited to come in and see the kind of work that's done in our millinery room.

CANADIAN LUMBER.

Legislation Will be Necessary to Prohibit it.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 24—Advices from Washington state that the Attorney General of the United States has given the opinion that under the present law the government has no authority to prohibit the importation of Canadian lumber.

It will be necessary to obtain legislation in order to bring about this prohibition.

"PROHIBITION" HEARD FROM.

SIR.—There appears to be a good deal of controversy going on between the two dailies upon the prohibition question, especially as to who is right and who is wrong in re the publishing of the Executive Committee's report in full of the branch of the Dominion Temperance Alliance meeting held in the Y. M. C. A. hall on the 30th March last. I, as a member of the Alliance, and one who was present at the meeting, can vouch for the correctness of the report. When the President of the Alliance read the report of the Executive Committee it was received with great applause. It was unanimously resolved that the report be published in full in the Guardian newspaper. The report was sent over to the Guardian office that same night for publication. I waited several days to see the report come out in the Guardian, but up to the present time the Guardian has not published that report in full. The Saturday after the Alliance meeting they published a synopsis of the meeting, giving the names of the new officers and the resolutions passed. The daily Patriot of Saturday evening published the Morning Guardian's report of the meeting almost verbatim. Up to this day neither the Patriot nor the Guardian has published the report of the Alliance in full.

I cannot see why these two pronounced Liberal temperance papers should refuse to publish the report in full. There was nothing in it but facts, and facts are stubborn things. The report quoted some of the speeches made by some of the present Government members on the prohibition question before and after the plebiscite election. It also quoted the temperance plank in their platform of 1893. These facts may be too pointed for our temperance Liberals to swallow. Now, Mr. Patriot, with all fairness to the temperance public you should publish the report of the Dominion Alliance or give THE EXAMINER'S editor the new hat.

PROHIBITION.

Chronic Disease and Rupture. Cured by Dr. Cliff. Diploma registered in U. S. and Canada. Send Stamp for information, or call at **Truro, N. S.** office in Merchants' Bank of Halifax Building; Hours, 11 to 1; 4 to 8 to 9, daily—except Wednesday, he is a Revolver Hotel in **Pictou**, and on Friday at **Windsor Hotel, in New Glasgow.**

A NASTY FIGHT WITH FILIPINOS Americans Lose Officers and Men

IN TRYING TO DISLodge THE INSURGENTS.

The Insurgents Made a Stubborn Stand Before Retreating.

[SPECIAL TO THE EXAMINER]

MANILA, April 24—Four men of the Nebraska Regiment, including Colonel Stobenber and Lieut. Sisson and three men of the Fourth Cavalry were killed and forty-four wounded in an engagement at Quenga, the Filipinos retreating with a small loss.

The engagement developed into a disastrous though successful fight.

The insurgents had a horse shoe trench about a mile long encircling a rice field on the edge of a wood.

Capt. Bell with forty cavalry men encountered a strong outpost and one of his men was killed and five wounded by a volley.

The Americans retired, carrying their wounded under fire and with great difficulty, being closely pursued, a fog enabling the enemy to creep up to them.

Two men who were carrying a comrade were shot in the arms but they continued with their burden.

Captain Belden sent for reinforcements to rescue the body of a killed cavalryman and a battalion of the Nebraska regiment arrived and advanced until checked by a volley from the enemy's trenches.

The Americans lay about 100 yards from the trenches, behind rice furrows, under fire for two hours.

Several men were sunstruck, one dying from the effects of the heat as they lay there waiting for the artillery to come up.

Finally the second battalion arrived and then Colonel Stobenber, who had spent the night with his family at Manila, came upon the field.

The men immediately recognized him and raised a cheer.

Col. Stobenber deciding to charge as the cheapest way out of the difficulty, led the attack at the head of his regiment. He fell with a bullet in his breast, dying instantly about 200 yards from the breastwork, and Lieut. Sisson fell with a bullet in his breast. In the meantime the artillery had arrived and shelled the trenches.

The Filipinos stood until the Nebraska troops were right in the trenches and then bolted to a second line of entrenchments a mile back.

The Nebraska regiment lost two privates killed and had many wounded, including two Lieutenants.

The Iowa regiment had several wounded the Utah regiment had one officer and three men wounded.

Fifteen dead Filipinos were found in the trenches.

Their loss was comparatively small on account of their safe shelter.

The Americans carried the second trench with small loss and are holding the town.

QUESTIONS

\$24,000, or over \$1000 a foot, to shorten the P. E. I. R. 2181 feet. How much time will it save the travelling public, and how much does it now reduce the price of ticket?

As it is understood that on this "job" no man need apply unless he was in debt to the Hon. Donald Farquharson, then what proportion of this \$24,000 went either directly or indirectly into the pocket of this honorable gentleman?

\$180.20 is one item for wine glasses for Rideau Hall. The old ones must have been all broken or stolen—and the Guard's opens not his mouth, but occupies his entire attention over a small builded warehouse in P. E. I. We would like to know the difference of value in the yearly consumption of liquors from this \$480 worth of wine glasses and that used by temperate King's County.

But for THE EXAMINER we would never hear anything about these things.

SINCERITY.

INTERNATIONAL CHESS.

English Students Win the Match

[SPECIAL TO THE EXAMINER.]

NEW YORK, April 24.—The first international chess match between American and British students ended in a victory for the Oxford and Cambridge combination by 3½ to 2½ games.

Trouble in Madagascar.

PARIS, April 22.—Advices from Madagascar say a formidable revolt has broken out against French authority on the east coast of the Island, and as the result of the conduct of French agents there. One of these, it is reported, recently corralled all the girls in his neighbourhood for a harem. Another agent is accused of confiscating native property and raiding oxen.

Winter Wheat in Kansas.

TOPKA, Kas., April 22.—The first report of the State Board of Agriculture on the condition of winter wheat in Kansas shows that 26 per cent. of the acreage grown is a failure because of the severe winter and protracted spring.

The Great Fire at the Windsor, N.Y.

Was an awful calamity, but cannot be remedied. Now, Catarrhazone can remedy and is a positive cure for catarrh and kindred dreaded diseases. This statement is backed up by bushels of testimonials, which we have an I can produce. Snuff, ointments, washes, etc., have been proved useless in giving relief or curing catarrh, bronchitis, irritable throat, nasal and ear passages, but Catarrhazone, the ozonated air cure, does not only give immediate relief, but effects a permanent cure. Why delay? Send at once for sample bottle and inhaler, 10 cents. Outfit, \$1.00.

Wireless Telegraphy

LONDON, April 22.—The Union, Peninsula, and Oriental, and other steamship lines have questioned Signor Marconi concerning the feasibility of adapting his system of wireless telegraphy to vessels. Signor Marconi replied that excellent results followed his experiments on French warships, the vessels being able to signal each other for a distance of 80 miles. Signor Marconi is contriving an apparatus by means of which messages may be despatched from a railway train running at full speed.

House Cleaning

Royal Oak best soap made for all Laundry and Family purposes, there is comfort in its use. It is an absolutely pure brand of soap, made from the best of tallow. It retains its weight and color and unlike imported soaps made from cheap cheap oils, does not become rancid with age.

SILVER BAR—A soap of wonderful cleansing and lasting properties, cut in pound bars.

A large quantity of Pure Diamond Potash and Laphora's Royal Potash on hand, and in course of manufacture. They are indispensable in every household, and are vastly superior to imported. For sale everywhere.

Charlottetown Soap Works.

Fatal Shell Bursting

HAVANA, April 22.—Mail advices to L. Lucha from Manzanillo say that an American shell fired last summer during the bombardment of the town by the U. S. warships, exploded last Tuesday, killing three persons and wounding many others. The shell had been fired into a cave called the "Labyrinth of gold" and workmen were digging it from under the floor, where it had penetrated deeply. The shell exploded, wrecking the room. The accident occurred on the same day with a demonstration in honor of General Gomez, and it was at first reported that enemies of Gomez had thrown a dynamite bomb.
