THE ASYLUM MATTER.

Interesting Letter From Mr. Walter Lowe.

SIR,—In order to remove any wrong impression that appears to be in the minds of the Government, and some of their supporters, in connection with the "annex" to the asylum, to the effect that I, for political purposes, gave Mr. Shaw the information to place before the people of this Province, I wish to state that such is not the case. On May the 12th, 1897, I called on the Commissioner of Public Works and he told me that Mr. Peters had gone away and had done nothing in the matter, although he had brought it to his notice. While speaking, the Hon. D. Farquharson came in and the Commissioner told him all about it in my presence. They then and there decided to go out to the grounds at 4 o'clock, which they did. There were present the Commissioner of Public Works, Hon. D. Farquharson, Gov't. Engineer Macmillan and Mr. A. B. McKenzie. After viewing the grounds, plans and specifications they came to the conclusion, one and all, that there was no place for a foundation according to the plans and specifications prepared by C. B. Chappel, who styles himself an architect, and that the building could not be built without a large expenditure for extra work before I could proceed with my contract. I might here say, that by my contract, nothing was to be paid for extra work or material unless I had the written authority of the Commissioner of Public Works and the Architect for doing such work.

On the following morning, the Hon. D. Farquharson met me on the street and said, "Lowe, I want to give you a word of advice, although I am a member of the Government." I replied "what is it?" He said, "don't you put your hand near that work unless you have it in writing, and mind what you are about, for there is going to be trouble over this before it is settled." I told him that I would take his advice. I dare the Hon. gentleman to deny the above statement. Mr. Farquharson also told me that at every council meeting, while he was a member, he had tried to have the matter settled, but that Peters seemed determined to ruin me and the other members seemed to go with Peters, he (Mr. F.) being only one man could do nothing.

On the 24th December, 1897, Farquharson met me on the market square and said, "How are you getting along with the asylum?" I said that the Government notified me on the 8th of December, 1897, and had taken charge of the material, although they had extended my time till the 1st day of October, 1898. He said that he had heard that, but he did not know if it was correct or not, and I told him it was correct. He then told me that if I would never get it settled with that crowd, and that if he had been appointed Premier he would have settled it with me, and if he could not, he would have given me permission to bring a suit against them. On or about the middle of April, 1898, Hon. D. Farquharson again stopped me on the street in front of Mr. D. A. Bruce's store, and said, "Is there anything done about the asylum yet?" I said "No." "Are you going to move in the matter?" He replied, "It would not do for me; but I want you to have the matter brought up on the floor of the Legislature and have it thrashed out and settled, for they have used you shamefully." I replied, "All right, I will get Mr. Shaw or the Hon. Mr. Gordon to bring it up, and I expect you to be my friend in what is right. I think you are on account of the advice you have given me. I don't ask you to strain a nerve, I don't want you to stretch your conscience, and I want to sympathize for I am prepared to stand or fall by the agreement—all I want you to do is to give me a square vote for justice and I have no fear of the result." He replied, "Lowe I am with you in the matter to see that justice shall be done to you."

On Friday evening, May 6th 1898, as I was coming down the stairs of the Provincial building, Mr. Farquharson met me. He was going up to the Assembly room, and stopping me he said, "you are not going away are you?" Mr. Shaw is going to bring the Asylum matter up tonight." I said, "no, I will be back in a few minutes." This goes to prove that Mr. Farquharson was carrying out the promise he made to me in front of Mr. Bruce's store, "that he would be with me."

Let us now see how Mr. Farquharson fulfilled his promises when the matter did come up. A few days before the Legislature closed, I met the Hon. A. B. Warburton and told him that about the 20th day of May I had a note of two thousand dollars (\$2000) to pay at the Bank of Nova Scotia for material upon the Asylum grounds, and I wanted to know what he (Mr. Warburton) was going to do in the matter for I had not the money to pay it. His answer was that they were going to bring down a

supplementary bill, and that Farquharson and Bell had opposed it, and there was nothing in the estimates for it. But most surprising of all, is the fact that when Mr. Shaw brought the matter forward, and with several others spoke in my behalf, my great friend and adviser, Hon. Donald Farquharson, not only sat in his seat and never opened his mouth, but when a resolution censuring the Government for their actions in the matter was submitted to the House he barely stood up and voted against it.

I think that this will convince the Government and the people of this Province that the Hon. D. Farquharson has acted the part of a Judas, both to the present and late Government and myself, and therefore is not worthy of the confidence of the people of this Province.

A MOTORMAN'S VICTORY

Over Diabetes, Gained by the Power of Dodd's Kidney Pills.

Toronto, May 23.—In a large city like Toronto, there is always much sickness, kidney diseases largely predominating. The street railway employes, exposed as they are to all the inclemencies of the weather, are particularly liable to kidney disease. But they all know how to conquer their enemy.

For instance: Mr. T. H. O'Reilly, 27 Niagara Street, motorman No. 624, was for three years a great sufferer from Diabetes. Every remedy failed to help him till he began to use Dodd's Kidney Pills. Three boxes cured him.

It is cases like this where the patient and the cure are equally well known, that are the test of a remedy, and Dodd's Kidney Pills have always stood successfully. They cure all kidney complaints.

WAS ADJUDGED GUILTY.—The Sydney Bulletin says: The Victorian law authorizing divorce on the ground of habitual drunkenness, but the difficulty of defining what is habitual drunkenness has led to trouble. A few days ago, however, a Bendigo woman asked for separation on the ground that the old man had only been sober three days since 1892. And as he wandered into court just then in a bery and amorous condition, and wanted to hug his wife right under the eyes of the law, it was decided that he was habitually drunk within the meaning of the act.

DEATH OF MR. FINLAYSON.—It is with deep regret that we to-day announce the death of Mr. D. W. Finlayson, of the firm of Finlayson & McKinnon, which occurred this morning at five o'clock. About ten days ago Mr. Finlayson was attacked by pneumonia, from which disease, notwithstanding the best medical attendance and most assiduous nursing, he failed to recover. Mr. Finlayson was a young man of excellent character and good business ability, and made friends wherever he went. He was an active member of the Fire Department and was prominently identified with the Oddfellows and the Caledonian Club. About three years ago he married a daughter of Mr. William Batt, of this city. To his bereaved widow, mother, sister, brother and other relatives we extend our sympathy.
