VOLKSWAGEN TAKES STOCK IN CANADA'S FUTURE

...opens large new depot with $4 million in spare parts

In line with our policy of constantly improving our service organization and fully confident that Canadian acceptance of Volkswagen will continue to grow, we have now doubled our premises on Toronto's Golden Mile by opening a large spare parts depot housing 4 million dollars' worth of spare parts.

In addition, a modern Engine Shop is now in operation to rebuild exchange engines to rigid factory specifications. Our Factory Training School, attended by key personnel from all over Canada, was enlarged three-fold to provide more service experts for our 280 dealers. These dealers in turn are rapidly expanding their own facilities to keep pace with the growing volume of Volkswagens on Canadian roads.

More and more, the motoring public in Canada recognizes the obvious advantages of the small car and light delivery truck. We at Volkswagen Canada Ltd. are proud that our product plays a leading role in this field . . . and every Volkswagen sold in this country is an important factor in further strengthening the trade bonds between Canada and West Germany—already one of Canada's best customers.
