Inland Steam Navigation Company.

THE Annual General Meeting of the Shareholders of the Inland Steam Navigation Company will be held in the room in Queen's Buildings, King Street, (now occupied by the Harbor Light) on WEDNESDAY, the 22nd day February, instant, at 3 o'clock, p. m.
L. C. OWEN,
Secretary.
Charlottetown, February 6, 1893.

WE keep in stock a very large assortment of SPECTACLES and EYEGLASSES. Eyes tested, if necessary, free of charge. The following by a noted M. D. we heartily endorse, and consider it worth preserving.

E. W. TAYLOR, Optician,
CAMERON BLOCK.

GOOD RULSS TO OBSERVE ARE:—Use the eyes freely; do not abuse them. Always have plenty of light—but, when possible, avoid a glare. If possible, have the light falling over the shoulder from behind. Read but little or not at all in the lying position. Avoid reading by twilight. Inability to use the eyes means something; find out what it is. Allow no inflammation or pain in the eyes to be neglected, and bear in mind that many an obscure pain or ache may be due to overtaxed eyes or defective vision.

OUT OF THE FRYING PAN

Has come not a little knowledge as to cookery—what to do, as well as what *not* to do. Thus we have learned to use

COTTOLENE,

the most pure and perfect and popular cooking material for all frying and shortening purposes.

PROGRESSIVE COOKING

is the natural outcome of the age, and it teaches us *not to use* lard, but rather the new shortening,

COTTOLENE,

which is far cleaner, and more digestible than any lard can be.

The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it.

Made only by
N. K. FAIRBANK & CO.,
Wellington and Ann Sts.,
MONTREAL.

Notes from the Press Gallery.

The report of the Minister of Public Works, for the fiscal year ending 30th June, 1892, has been tabled. It is admirably arranged, and in general is favorably commented upon. Section 24 refers to public works in P. E. Island. The following breakwaters have been repaired during the year, viz., Bay Fortune, Campbell's Cove, Brae Harbor, Malpeque.

Minor repairs have been made to the Dominion Building, Charlottetown, and Souris Marine Hospital. Harbor improvements have been made at Miminigash, Rustico, Summerside and Tignish, and the following piers have been repaired, viz., Bay View, Belfast, Clifton, Georgetown, Higgins Shore, Mimminegash, Mink River, North Cardigan, Port Selkirk, Pownal, Rustico (South), St. Peter's Bay, Sturgeon and Victoria.

It is expected that a considerable sum will be placed in the Supplementary Estimates for the repairs of the Souris Breakwater, on which a large amount was spent last fall. The report of the Public Works Department also contains a detailed account of the work performed by the dredge Prince Edward, and of the improvements carried out by the department, which are included in the report of Mr. Louis Coste, Chief Engineer. The improvement at Bay Fortune consists of the construction of a breakwater extending out in a northeasterly direction a distance of 400 feet, its object being to give direction to the current at ebb tide, and when extended to maintain, by scouring, a channel through the "bar" of 8 to 10 feet of water, the depth at low water on the bar being generally only 4 feet, thus preventing vessels of any size entering.

Campbell's Cove, King's County, is situated on the north coast of the Island, about fourteen miles from Souris. In 1872 the Provincial Government constructed a detached breakwater, 300 feet in length and 30 feet wide, on the reef which extends out from the western end of the cove, for the protection of small fishing vessels and boats. During 1882-3 the department repaired the old structure, raised it two feet in height, connected it with the shore (a distance of 70 feet), and constructed an extension thereto, 250 feet long and 20 feet wide on top—making its total length 620 feet. The whole work is constructed of square timber, the faces of the old portion, and of the construction with the shore, being built plumb. The extension has a timber slope of 1 to 1 on the seaward side.

During the fiscal year 1891-92 the inner face of the work has been rebuilt over a length of 80 feet near the end, the entire sloping face has been re floored, the whole work re-ballasted, and fenders, capping, etc., put on.

At Georgetown the dredge Prince Edward has made a cut 354 feet in length, 67 feet in width, and 16 feet deep at the inner, and 19½ feet deep at the outer end, the work being closed on 7th December, 1891.

On the pier at Mink River the sum of $1,000 was expended, owing to the pier having become unfit for traffic, and the pier has been put in good condition. At North Cardigan pier an expenditure of $248 68 has been made on repairs of the three outer blocks by inserting face timbers where found destroyed by ice and sea worms, renewing covering of outer block and adding fender piles along the end and faces of the work.

At St. Peter's Bay work was in progress at the end of the fiscal year, and the greater part of the materials required for the work had been delivered. A contract has been entered into for a work of round log open crib work to be solidly filled with ballast, making use of the piles in place for bolting to, instead of placing fenders. The pier at Sturgeon has been repaired, and the dredge Prince Edward commenced work at this place on May 9th, 1892. The work done up to the end of the fiscal year consisted of a cut 720 feet in length and 103 feet in width from the channel to the wharf; a basin at the end of the wharf, 169 feet; a berth at the west end of the wharf 100 feet long, 55 feet wide and 11 feet deep at low water spring tides.

A detailed account of the work at other places in Queen's and Prince Counties are also included in the report.

Messrs. Macdonald and McLean deserve the thanks of the people of King's County for the energetic manner in which they have pushed the claims of their county on the Government. Where so many members are pressing claims it is very difficult to get every petition listened to; but judging by what has been accomplished since the last election, very good assurance may be entertained of what will be obtained in the future.
G. F. O.

Magazines.

Worthington's Illustrated Magazine, for March, contains interesting articles by some of the most popular writers of the day. This is an excellent periodical, and only $2 50 per year.

The Dominion Illustrated Monthly for February, is to hand. It contains interesting articles on "John Greenleaf Whittier," "Social Life out West," "Hockey in Eastern Canada," etc. The stories this month are very good.

The Westminster Review, for February, is made up of a number of excellent articles on current topics. The article on the "Capacity of Women for Industrial Union" is one of the most striking.

The Nineteenth Century, for February, is well up to its high standard. "An Experiment in Federation and its Lessons" is an article worthy of careful pursual. "Home Rule" and Mr. Gladstone are discussed at large, and "The Taxation of Ground Rents" is interesting and instructive.

An Islander Heard From.

The following is from a letter recently written by an Islander at present living in the United States. The New York Herald's scandalous attack upon natives of this Province was doubtless read with gusto by the average American citizen. We invite said citizens to read carefully the opinion which an Islander entertains of that "sweet land of liberty":

"I don't hear much of late about Annexation. Has the fire of treason that burned in the hearts of the exponents of Liberalism died out? I am glad for the sake of my native country that our loyal Conservative party has the inside track; let the traitors bark without; barking dogs seldom bite. I am of opinion that agencies of this country are in a measure responsible for the veiled treason existing in the minds of a few in Canada. These agencies are credited with being the origin of the trouble at the Samoa Islands a few years ago. They were also said to be mixed up in the revolutionary disturbances in Chili. At present we find them sowing the seeds of disloyalty among the natives of the Hawaiian Islands.

"Seeing that their efforts to draw Canada into their Union have proved a failure, they grow desperate and swear by all the stars in their banner they will have something. Thirsting for gore and glory they sweep down upon the Hawaii Islands and attempt to usurp the rights and privileges of a defenceless woman. Under pretext of saving life and property they have the effrontery to proclaim a protectorate over her dominions. It is true the warship Boston was within easy call as if by pre-arrangement. It is also true that the warship Brooklyn was in the Chilian waters at the time of trouble there, presumably to protect life and property. What of that? Why, she could not protect her own crews, her sailors were shot down in the streets like dogs and the uniforms of her country disgraced, directly under her guns. What did Captain Schley do? Nothing. The affair created a furore at Washington; everything that would float and carry a gun was ordered ready for Chilian waters. Sympathetic people shed tears for the ill fated Chilians, the world held its breath and calmly awaited the awful shock that would shake the very earth to its centre and forever wipe out the young South American Republic. What was the result of all that great bombastic naval display? A few paltry thousands were accepted by the U. S. Government from the Chilians as a compensation for the lives of the Brooklyn sailors and the dishonoring of her flag. Now, with an effrontery known only to Americans, they herald to the world the tidings that for the better protection of life and property they have proclaimed a protectorate over the Hawaiian Islands. It is my opinion that it would be more to their credit if the United States Government would proclaim a protectorate over Texas, Louisiana, Pennsylvania and other states under the dome of its capitol, and protect from burning at the stake and wholesale butchery men who were unfortunate enough to cast their lot in this so-called land of liberty. Why not protect the colored people of the South, who are born citizens, from the murderous onslaughts of organized lynching parties? There is no need of the rulers of this country exploring the Pacific in search of a people in need of protection. Let them protect their own citizens first.

"I remember reading some years ago an account of a negro in one of the Southern States being hung for stealing a syringe; about the same time a woman who shot a man dead on the streets of this city was honorably acquitted, and was looked upon as a heroine by the citizens. Here is equal rights regardless of color. The country reminds me of what was once said of an English king, 'A goodly apple with a rotten core.'"

Inkerman Notes

The principal occupation of farmers in this vicinity is feeding their stock and cutting and hauling firewood.

Our genial blacksmith, Mr. John McLeod, is doing well in his line of business.

The school is progressing favorably under the skillful management of Miss E. Cameron.

Mrs Henry Williams has been very sick for the past few weeks, but we hope to see her out ere long.

Basket socials seem to be the chief enjoyment, several having been held within the past few weeks. But the last held at Mr. Edward Andrew's surpasses all others, the table being spread in Mrs. Anderson's best style, they all sat down and did ample justice to the good things provided by the fair ladies of Inkerman and Rose Valley, and then, to the melodious strains of the mouth organ artistically rendered by a young gentleman from Westmorland, chased the hours till one and all thought it time to disperse, more than pleased with their evening's enjoyment.
VALENTINE.
Feb. 18, 1893.

THE RAIL.—A correspondent at Souris, whose letter was delayed until to-day, writes as follows: A very unusual thing occurred to the east bound train on Saturday evening last. On arrival at its destination, Souris, the forward end of a box car that happened to be unloaded, dropped suddenly on to the track. On examination, it was found that the set of wheels and axle that were supposed to be there, were nowhere to be seen. The conductor and driver at once walked back in search of them. They found them near the dump, a few yards east of the rock cut. The wheels had become detached from the car opposite the Souris Driving Park grounds, and were pushed along by the hind wheels till they reached the sharp curve at the dump, where they were picked up. The coupling pin held on till the train stopped at the station, when it gave way. If it had broken sooner, or if the detached wheels had not cleared the track there is no knowing but a serious accident might have happened. The sectionmen lost no time in repairing the damage done to the road.

SEED WHEAT.—Those two cars of seed wheat referred to in a late Moncton paper as passing through for P. E. Island from Regina have arrived. One car is Red Fife, weighing 64 lbs. to the measured bushel, and the other is White Fife, weighing 65 lbs. This wheat was selected especially for George Carter & Co., and is now for sale at their new place of business, 136 Queen St.

WHAT PHYSICIANS SAY.

ENDORSED BY A
Graduate of Edinboro'.

A. DEW. BARSS, A.M., M.D., Edin., a man of culture and refinement, is Lecturer on Physiology and Hygiene in Acadia College, Nova Scotia. Of SKODA'S REMEDIES he says:—

"I have carefully examined the formulæ from which they are constructed, and find they have been judiciously selected and are well adapted, for the accomplishment of the various ends desired. I believe the ingredients used, the BEST of their kind, and the REMEDIES should have a large sale, when placed before the general public."

F. A. ROBERTS, M. D.

The Late Dr. F. A. Roberts, [illegible] Homœopathic Physician of Maine, said:— "[illegible] Remedies upon the market equal SKODA'S in neatness and elegance of appearance. I believe Skoda's German Ointment and Skoda's German Soap, are the most perfect remedies with which I am acquainted, for the cure of all Skin Diseases. I do not hesitate to recommend them as such."

SKODA DISCOVERY CO., WOLFVILLE, N. S.

PARSONS' PILLS
Make New, Rich Blood!

These pills were a wonderful discovery. No others like them in the world. Will positively cure or relieve all manner of disease. The information around each box is worth ten times the cost of a box of pills. Find out about them, and you will always be thankful. ONE PILL A DOSE. They expel all impurities from the blood. Delicate women find great benefit from using them. Illustrated pamphlet free. Sold everywhere, or sent by mail for 25 cts. in stamps; five boxes $1.00. DR. I. S. JOHNSON & CO., 22 Custom House St., Boston, Mass.

W G B POWDER is compounded with PURE and WHOLESOME MATERIALS.

Complete Manhood
AND HOW TO ATTAIN IT.

A Medical Work that Tells the Causes, Describes the Effects, Points the Remedy.

Scientifically the most valuable, artistically the most beautiful medical book ever published; 96 pages, every page bearing a half-tone illustration in tints. Subjects treated:—

Nervous Debility, Impotency, Sterility, Development, Varicocele, The Husband, Those Intending Marriage, etc.

Every man who would know the Grand Truths, the Plain Facts, the Old Secrets and New Discoveries of Medical Science as applied to Married Life, who would atone for past follies and avoid future pitfalls, should write for this WONDERFUL LITTLE BOOK.

It will be sent free, under seal, while the edition lasts. Address the publishers,
