

Deep Wells Planned On Grand Banks

CALGARY (CP)—Pan American Petroleum Corp. and Imperial Oil Enterprises Ltd. will drill several deep offshore exploration wells off the Grand Banks of Newfoundland this summer, Pan American has announced.

The drilling program, to be carried out between May and September, calls for two or three wells to be drilled to depths of 8,000 to 10,000 feet on a 31,000-acre tract off the Grand Banks, off the southern coast of Newfoundland, said John C. Meeker, Pan American vice-president and Calgary division manager.

Pan American will be the operator for the joint venture and St. John's, Nfld., will, as in previous years, be headquarters for the program.

Mr. Meeker said a contract is being negotiated with Aftonian, Tex., firm to obtain the Glomar Sirie, a 9,500-ton, steam-powered offshore drilling vessel.

The vessel, capable of drilling to 20,000 feet in water depths up to 600 feet, has been operating in the Gulf of Mexico.

Mr. Meeker said exploration programs in 1964 and 1965 showed that the Grand Banks area has oil and gas potential and led to the decision to try the deep well tests.

He added that when the 1966 summer program is completed, Pan American and Imperial Oil will have spent about \$7,000,000 in Grand Banks exploration work.

Socony Mobil Oil of Canada Ltd. announced in January it is planning a two-month seismic program off Newfoundland's east coast.

Mobil has conducted extensive seismic work in the St. Lawrence area off the coast of Nova Scotia but has not yet made a decision on offshore drilling.

Soviet Critic To Lecture

MOSCOW (AP)—The Soviet government apparently has granted its most outspoken anti-Communist critic permission to leave the country to lecture in Britain.

He is Valery Tarsis whose novel *Ward 7* created a sensation when published in the West. In it he called Soviet society "state fascism" and said inmates of insane asylums are the only free people in the country.

The British Embassy said here he has given Tarsis a three-month visa to lecture at Leicester University on literary subjects.

Tarsis seemed to be getting extremely liberal treatment by Soviet standards while two other writers with similar careers face trial, possibly starting this week.

They are Andrei Sinyavsky, published in the West as Abram Terz, and Yuri Daniel, who used the name Nikolai Arzhak. The two men were arrested in September for smuggling foreign literature and writing out of the country and have been accused in vitriolic terms in the press here.

Asked about the Sinyavsky-Daniel case, Tarsis said: "They did not behave like writers, they behaved like hypocrites."

This was a reference to their use of assumed names.

Tarsis' first works to appear abroad were also under an assumed name—Ivan Valery.

GM Boosts Dividend

NEW YORK (AP)—General Motors Corp. directors have declared a dividend of 85 cents a share on the company's common stock, payable March 10 to stockholders of record Feb. 17.

The dividend compared with 75 cents paid during the first three quarters of 1965. In addition GM declared special dividends of 75 cents in the second and third quarters of last year.

The company also declared a year-end dividend of \$2.25 a share in the fourth quarter of 1965.

General Motors stock closed on the New York Stock Exchange at \$105.75, down \$1.50 for the day.

Auto Sales Set Records

TORONTO (CP)—The big three auto makers each reported record January retail sales.

General Motors of Canada Ltd. reported sales of 27,004 cars and trucks compared with 23,323 in January, 1965. It was GM's 12th consecutive monthly sales record.

Ford Motor Co. of Canada reported a 17.4-per-cent increase in car and truck sales to 14,337 from 12,211. Chrysler Canada Ltd. sold 8,790 cars and 1,249 trucks, compared with 8,260 cars and 974 trucks in January, 1965.

ASKS PENALTY FOR WASTE. SAULT STE. MARIE, Ont. (CP)—Lumber companies which waste forest wealth should be penalized, a provincial forestry study unit was told. Charles C. Rowe, a lumber firm consultant, said Monday a tax on the gross weight of wood handled by a company would encourage lumbermen to obtain the maximum use from each tree cut and would discourage poor utilization.
