## Local and Other Items.

A SNUG SUM.—We are pleased to learn that the proceeds of the Provincial Tea at Alberton on Thursday will exceed $1800.

MEN and women prematurely gray, and whose hair was failing, are enthusiastic in praising Hall's Hair Renewer for restoring the color and preventing baldness.

BIG CODFISH.—Frederick A. Morley, of East Bay, C. B., caught one of the largest codfish ever known to be caught in a herring net. It was five feet five inches long and 16 inches through

COLD, cough, coffin is what philosophers term "a logical sequence." One is very liable to follow the other; but by curing the cold with a dose of Ayer's Cherry Pectoral, the cough will be stopped and the coffin not needed.

HE MARRIED YOUNG.—The crowning event of the season at Hampton, near Bridgetown, N. S., was the marriage of an an esteemed and elderly colored citizen, William Simms, of 70 years, to Jennie Clement, a dashing brunette of 16.

THE inestimable value of Ayer's Sarsaparilla as a blood purifier should be known to every wife and mother. It corrects irregularities, gives tone and strength to the vital organs, and cleanses the system of all impurities. The best family medicine.

HALIFAX CARNIVAL.—Halifax will have a monster carnival from August 5th to 10th, and the programme as outlined in our advertising columns will no doubt draw thousands of visitors to that city. The military and naval operations will be great features.

THE TEA AT ST. PETER'S BAY.—A correspondent writes to THE EXAMINER to say that the tea at St. Peter's Bay, on the 17th inst., was a decided success. The number who left Charlottetown to enjoy themselves on the occasion was, he says, much larger than that stated by THE EXAMINER.

AFTER THE BATTLE.—A Baltimore despatch says: A letter was received at Kilrain's house from Henry Hudson, of Chicago, saying the latter won $1000 on the fight by overhearing Mitchell in New Orleans tell a man to bet all he had on Sullivan, as Kilrain's defeat was certain. Hudson also says Mitchell in the ring communicated with Muldoon by signs.

AN EAGLE CAPTURED.—Rupert F. Bont, who is summering at Leicester, informs the Amherst *Record* that the McElmon boys caught a large eagle in a trap, alive. It measured 6 feet 4 inches from tip to tip of wings. It had killed several lambs, the last one being of forty pounds weight, whose neck the powerful bird had broken with its beak.

ACCIDENT.—On Friday last, while James Slaney, of St. Pierre, Miq., was walking on Knight's wharf, Souris, he stepped into a hole in the covering, and, before he could extricate himself, a sloven loaded with over a ton weight passed over his leg, breaking his thigh, and otherwise injuring him. He was attended by Drs. Muttart and McLean.

CATTLE KILLED.—On Wednesday forenoon, says the Halifax *Mail*, Isaac Dudling, cattle dealer, of Lawrencetown, was on his way to Halifax with a car load of cattle. When about two miles the other side of Middleton station, the door of the car opened while going at a high rate of speed. Five of the cattle fell out, two of which were killed. The others were uninjurod.

DAMAGE BY THUNDER.—A correspondent writes: During a severe thunder squall which passed over Cherry Valley and vicinity on Thursday the house of Mr. David C. Irving was struck by lightning. The current passed down by the chimney, carrying plaster and wood work as it went, and stunning several of those in the house at the time, one young woman escaping almost miraculously.

UPPER CANADIAN FISH.—The *Telegraph* says: Several St. John fish dealers are receiving consignments of Lake Superior white fish and salmon by the Dominion Express Company. About 50 pounds of the fish arrived yesterday, and though they had come 1,900 miles they were beautiful fish. Several specimen fish were presented to some of the citizens, and everyone speaks highly of them.

## Fire at Stanley Bridge.

[SPECIAL BY TELEPHONE.]

ABOUT three o'clock this morning, fire was discovered in the store of Mr. George Garrett, Stanley Bridge. It rapidly gained headway, and, in a very short time, had complete possession of the building, whence it spread to Mr Garrett's dwelling house, adjoining. The fire spread rapidly, frustrating all attempts to quench it, and burnt so fiercely that the shop and house were soon completely destroyed. Nothing was saved from the shop excepting the safe; some furniture was saved from the house. Indeed, such slight warning had the inmates of the breaking out of the fire, that Mrs. Garrett barely escaped with her life. Much sympathy is felt for Mr. and Mrs. Garrett, whose loss will be severe. The premises were partially insured.

## Personal.

The Halifax *Herald* of yesterday says:—Rev. John McMillan left yesterday for Malpeque, P. E. I., accompanying his daughters, who will spend their vacation there.

Emma Skye, a Chippewa squaw, daughter of Chief Two Sides of the Skye, was married recently at East Superior, Wis., to Tom McNaughton, a white man. They were to have been married some time ago, but owing to opposition from McNaughton's relatives it was postponed. She owns pine lands worth $15,000.

The Kentville *Chronicle* says: Hon. Samuel Chipman, now in the 99th year of his age, was in Kentville on Saturday last. The old gentleman is looking well. He and his former colleague in the House of Assembly, Daniel Moore, only a few years his junior, met and exchanged reminescences on the street.

## LETTERS TO THE EDITOR.

### A Protest.

SIR,—I notice a small army of laborers and teams have been engaged for several days in cutting down that part of Truck Street, between Weymonth and Cumberland—the clay thus excavated being deposited on Hillborough Street, between Kent and Grafton. Possibly the authority under whose direction this work is being carried on, could justify it, if called upon to do so, but there are many who cannot see its utility. I do not know that either Street will benefit to any extent by the large expenditure which is being incurred. Both were in a fairly good state before—much better than the streets in many other parts of the city at present. When some of the present Civic officials were in authority a few years ago, that portion of Hillsborough Street upon which the clay is now being dumped, received so much attention that the fact became a matter for public comment at that time. While many of the streets stand in absolute need of immediate repair, and our sidewalks are a reproach to the city, I protest against our money being squandered in the manner above indicated.

TAXPAYER.

## Concert at Souris.

The Concert in aid of the Sidewalk Fund came off in the Souris Court House on Thursday evening, and was a decided success. Below is the programme:

Mrs. Reddin.
Chorus—"Boat Song".......................Children
Solo and Chorus—"Old Folks at Home".....
Miss Dingwell.
Tableaux.......................
"God Save the Queen".......................Band

## Fishery Bureau Report.

HALIFAX, July 16.—Schooner Annie D arrived at East Pubnico yesterday from Grand Banks with 900 qts. Vessels arriving at Canso from western and other banks report fish in modern quantities. Schooner Victory, of Lunenburg, reports fish plenty on middle ground. This schooner took 700 qts. at Canso. Shore codfishing fair at West Arichat, Margaree and Malpeque, P. E. I., but poor on western shore, where scarcity of bait is complained of.

No mackerel, except a few at Point Brule, and small catches by hook-and-line men at various points on the north of P. E. I. Squid bait runs freely ashore at West Arichat, and may be obtained by bankers at Canso and points in Chedabucto Bay.

## News Notes.

Winnipeg proposes to raise $400,000 to develop the Assiniboine River.

A shock of earthquake was felt on the island of Arran, on the 17th inst., and the mainland of Scotland. Houses were violently shaken.

The visible supply of wheat in the United States and Canada decreased 1,244,800 bushels last week, and now amounts to 12,711,165 bushels, the lowest yet recorded. A year ago the visible was 22,418,000 bushels, and two years ago 31,450,000 bushels.

At a meeting of the Bank of British Columbia, held a few days ago, an interim dividend of six per cent. per annum and a bonus of one per cent. were adopted. Sir Charles Tupper congratulated the share holders, and declared the propects in British Columbia and through the rest of Canada splendid.

Russia intends to keep her navy up to the standard set by the other European powers. Orders have been given for the construction of two new ironclads superior to anything that the Czar ever has had. They will be named the Emperor, Nicholas and the Gangorite. The chief constructor of the Russian navy furnishes the plans.

Lord Salisbury, in a speech at Mile End, on the 17th inst., told his hearers that they must not expect the day would ever come when the colonies would become a federation in the same sense as the United States, but he hoped that, by a common agreement, the present difficulties would be removed. Regarding Irish affairs, he said it was appalling to think that years hence their sons and grandsons might still be discussing the Irish problem, with nothing new to say on the subject.

## Odds and Ends.

Man will give ten words to the expression of his joy, and fifty to lament his sorrows.

It was a constable who remarked pleasantly that he had an attachment for his victim.

There is one Chinamen in San Francisco who bids fair to become a celebrated musical character. His name is Sing Hi.

An umbrella that has done service for forty years is owned by a Stroudsburg, Pa., man, and still protects him from the rain.

There is a young lady in Virginia who can write two love-letters at once—one with each hand. Thus does nature strive to accommodate herself to the evolution of the modern flirt.

## Telegraphic Odds and Ends.

CHICAGO, July 18.—The explosion of a boiler in the plaining mill of the R. V. Stone lumber company this morning killed several men and several horses and burned the building.

MVALDE TEX., July 18.—Reports continue to come from surrounding country regarding the high water. Lives are known to have been lost and the destruction of property is heavy.

COLUMBUS, TEX., July 18.—The Colorado River at this point is 31 feet high and is rising. The lowlands are inundated and crops destroyed. The damage to cotton crops in this county alone is estimated at $500,000. People have fled to the mountains. It has been raining for three weeks. A further rise of one foot will cut off railroad communication.

LONDON, July 18.—The match for the Elcho challenge shield was shot at Wimbledon to-day and was won by the Irish team with a score of 1,689. The English team scored 1,684 and the Scotch team 1,626.

NEW YORK, July 18.—At the July meeting of the New York yacht club to-day it was resolved not to put up a special cup for competition in the match race with the Valkyrie. All the club events will be open to her. Earl Dunraven will be notified. The yachting committee was authorized to spend $600 for cups to be presented to first and second winners in the 40 and 70 foot class to be raced for during the cruise at Newport.

LONDON, July 18.—It is officially announced that the Queen will confer a dukedom upon the Earl of Fife.

LONDON, July 18.—The police authorities acknowledge to-day that they have no clue whatever to the perpetrator of the latest Whitechapel murder, and he has disappeared as completely as after the previous outrages. The excitement over the crime continues as intense as ever, and the police ore roundly denounced by the people and many English journals for their failure to trace the horrible mystery.

LONDON, July 18.—Matthew Harris, M. P. testified before the Parnell Commission to-day, that Eagan and Breunan left France when they joined the land league. Dr. Charles Tanner, Nationalist M. P., for the middle division of Cork, testified he had always been opposed to boycotting of women and children, though he endeavored to get land grabbers boycotted. He had been boycotted by Tories in Cork, who had induced many of his patients to leave him. He said he had always spoken against outrages.

## Tobacco Chewers Among Women.

A well known physician, while walking down the street with a friend, remarked, a patient of mine lives in that house who is dying—an idolized wife—beyond all help, and tobacco chewing has killed her. Why, Doctor! what do you mean? I mean this: her husband is literally steeped in tobacco juice, and the insensible perspiration from his body has become so saturated with nicotine as to be a deadly poison. His wife, before I was called, had absorbed enough of the poison so that no human power can save her; and even he will, I believe, end his days in torture from some kind of skin disease. The skin is really the most wonderful and important organ of the human body. Night and day, every hour of our lives, it is filtering out from the blood useless or poisonous debris. If it stopped work even for twenty-four hours in this or any case, death would ensue. You can imagine, then, what it means for a delicate, sensitive-skinned woman to sleep in a warm bed night after night with an inveterate tobacco chewer. The skin and mucous membrane of some persons is much more sensitive than others. A person who in summer is subject to hay fever, tanned or burned skin, in winter to colds, bronchitis, chapped hands, or chilblains, ought always (whether at home or travelling) to keep a bottle of Johnson's Anodyne Liniment near at hand. Dilute the liniment with water and gently bathe, or moisten a cloth with it and lay upon the irritated skin if very sensitive; then wash it clean in the morning with Castile soap and water. If a person who takes cold quickly, or is predisposed to bronchitis or catarrh, or exposed to any poison, irritating to the skin or mucus surfaces, which might tend to cause consumption will every night, before retiring, bathe the chest and throat with Johnson's Anodyne Liniment and, before dressing in the morning, rub the whole body smartly with a coarse towel, slightly dampened, and then wiped dry, we believe they never would have pulmonary troubles, or disease from defective working of the skin. I. S. Johnson & Co., Boston, Mass., will send a phamplet, free, describing other uses for this old household remedy, now eighty years old.

## Odds and Ends.

A gipsy fortune teller informed a Pennsylvania girl that if she was not married by the time she was 21 it would not be her fault.

A marriage license was issued at Pittsburg last Tuesday to a couple whose ages foot up 135 years. Both have been married before.

When you find a man who hates newspapers you want to forgive him, because his conduct made it necessary for the newspapers to hate him.

A young man in Pennsylvania could not afford to take his wife on a wedding tour, so he purchased five dollars worth of rides on a merry-go-round, and they travelled until tired out.

New ribbons, new plushes, new grenadine and other new goods just opened at Perkins & Sterns. jy13 3i

To make room for new goods, R. K. Brace will sell Glass and Crockeryware cheaper than ever.

All orders for moving Baggage, Parcels or Furniture left at R. K. Brace's Store will be promptly attended to by Joseph Dewar. Telephone communication.
