Atlantic Provinces Grant to Georgetown

QUEEN (Special to The Guardian) (OTTAWA)—An announcement is expected here today of an Atlantic Development Board grant to Georgetown, P.E.I. The Kings County member, speaking in advance of the expected approval, said "I have worked very closely with the responsible government department people and am pleased at the prospects of this important move to assist the establishment of the integrated fish processing plant which will be a tremendous boost for the town of Georgetown and also for Kings County and the entire province." In the original planning, Mr. Mullaly said, there was provision for an additional \$300,000 for construction of a marine harbor.
