OBITUARY

Inserted by the family

MRS. KEIR HATHERLEY

Friends, relatives and neighbours were saddened to hear of the sudden death in the P.E.I. Hospital on July 13th, 1965, of Mrs. Keir Hatherley, North Wiltshire in her 85th year.

Born in Wheatley River, October 25th, 1880, the daughter of the late Mr. and Mrs. Isaac Smith. She spent her entire married life in North Wiltshire where she was a faithful member of the United Church, also a member of the Womens Missionary Society.

She was of a kindly disposition, and her many friends and neighbours always received a warm welcome in her home.

Left to mourn the loss of a loving wife, mother and grandmother, are her husband, a son Nelson at home, a daughter Helen, Mrs. Norman Hardy, Summerside, and six grandchildren, she was predeceased by a son George, a daughter Beatrice, Mrs. Spurgeon Moore. Also surviving are three sisters, Mrs. Katie Bowman and Mrs. George Godfrey, both of North Wiltshire, Mrs. Beatrice Thompson, Duval, Saskatchewan, and one brother Arthur, North Wiltshire.

Funeral was held from the Cutcliffe Funeral Home on July 15th at 1.30 p.m., service conducted by Rev. Donald Powell. Hymns sung were The Lord's My Shepherd and Unto The Hills. The North Wiltshire choir sang What A Friend We Have in Jesus.

The pallbearers were Leonard Bowman, Huestis Smith, Henry Godfrey, Albert Bowman, John Matheson, Fred MacRae.

The flowerbearers were Neil Henderson, Alex Henderson, Warburton Godfrey, James Berrigan, Ralph Noye, Leith Easter, Arnold Moore, and Wendell Clark.

Interment was in Floral Hills Memorial Gardens.

CARD OF THANKS

The family of the late Mrs. Hatherley wish to thank Dr. Ellis, the Cutcliffe Funeral Home, the nurses of the P.E.I. Hospital, Rev. Donald Powell, all who sent flowers, cards and messages of sympathy, and to neighbours and friends who helped in any way during our recent sad bereavement.

Total sales Industrials 117,100; mines and oils 2,351,700.

TORONTO

TORONTO (CP) — Industrials made their third consecutive gain on the stock exchange Friday in moderate trading.

The industrial index, which measures the group's trend, gained .28 to 165.15, slightly below the closing level of a week ago.

Atlantic Sugar, subject to rumors of a takeover bid, was again a standout, gaining ½ to 26¼. Canada and Dominion Sugar also strengthened, adding ½ to 24½. Canada Iron tackde on 1⅛ to 52¾ in light dealings.

Senior base metals were lower. The loss—.08 on index to 78.99—was due chiefly to a $1 decline to Denison at 33. Denison's affiliate, Roman Corp., fell 40 cents to $7.

Gunnar Mining, which is having financial difficulties due to losses niits construction division, was down one cent at $2.25.

United Buffadison lost 11 cents to $1.70 and New Mylamaque 5 to 32 cents in an otherwise higher speculative mining list. Probe gained 2 to 50 cents on turnover of more than 360,000 shares. Texmont was up 7 to $1.37, Genex 4 to 47 cents, Salem 5 to 26 cents and Obaska 3½ to 31 cents.

Western oils made a small gain behind an advance of 10 cents to Banff at $6.15. Western Decalta was also ahead 10 cents at $3.55.

OBITUARY

Inserted by the family.

MALCOLM A. MacKENZIE

There passed away suddenly at his home, Little Sands, on July 10th, Malcolm A. MacKenzie in his 67th year. Monty as he was familiarly known, spent a number of years in Long Island, New York, then returned home where he worked faithfully and planned wisely.

His life was an example of integrity and thrift. He was beloved and was the friend of all and of him it can be said that he was a gentleman in the true sense of the word. He leaves to mourn his passing one daughter, Hazel, Mrs. Ben Compton, Long Island, N.Y.; two grandchildren, a sister, Mrs. Phemie Large who resided with him a number of years.

The funeral was held from Little Sands United Church, Tuesday, July 13th, service conducted by Rev. T. Day and Rev. Graeme Fraser. Hymns sung were Jesus, Lover of My Soul and Nearer My God To thee, also a duet The Old Rugged Cross feelingly rendered by Rev. and Mrs. Day.

Pallbearers were Neil MacNeil, Dan MacPherson, Jimmy Dixon, Carleton Hume, John Bruce and Monty Livingstone. Interment was in family plot, Little Sands Cemetery.

CARD OF THANKS

The family of the late Malcolm A. MacKenzie wish to express their sincere thanks to Rev. Graeme Fraser, Rev. F. Day, Dr. Lorne Bonnell, Hamilton Funeral Home, all those who sent flowers and other contributions, cards and letters of sympathy, also the good friends and neighbors for their kind acts during their bereavement.

First Aid For Ailing Houses

By ROGER C. WHITMAN

PANEL WALLS DARKEN

QUESTION: We have pine panelled walls in our living-dining room. We had several large pictures hanging on the walls and now the areas behind the pictures are lighter than the rest of the panelling. We would like to move some of the pictures How can these areas be treated so they are the same shade as the rest?

ANSWER: Clean the entire wall surface with a wax-base, liquid floor cleaner which is suitable for use on wood panel walls. Whether or not the light-colored areas on the wall will blend with the clean wood paneling depends a great deal on the amount of change that occurred in the color of varnish or shellac. If aging, not soiling, darkened the rest of the finish, nothing will really help except to refinish the walls.

NEW ROOF, ATTIC DAMP

QUESTION: We put a new roof on our attic two years ago. Since then our attic is very damp, mold develops on items stored there. We thought this would disappear after a while, but it seems to be getting worse. What do you recommend?

ANSWER: Evidently, with the new roof, the attic area became so airtight that moisture and humid air can no longer escape. Ventilating louvers should be installed as high up in the gable end as possible and vents provided at the eaves. Allow at least one square foot of opening for each square feet of attic floor space.

PAINTING NEW PLASTER

QUESTION: We plan to move into our home as soon as the building is finished. The plaster walls will be unfinished, as will be the woodwork. We'll do all painting ourselves. How long is it advisable to wait before painting new plaster and is any treatment of the surface necessary first?

ANSWER: The plaster can be painted about three months after application. If you wish to use an oil-base wall paint, however, it will be necessary to first neutralize the free lime. You can accomplish this by applying a soaking coat of zinc sulphate solution, using about two pounds to the gallon of water. When the walls are dry, brush off any crystals that might have formed and apply a coat of primer sealer. This treatment will be necessary for watermixed paints. I suggest getting a copy of "Indoor Painting," from your paint dealer, or from the National Paint, Varnish and Lacquer Association, 1500 Rhode Island Ave., N.W., Washington, D.C. 20005, containing specific, detailed information, about various paints and techniques.

WOOD LADDER PROTECTION

QUESTION: I just purchased a wood extension ladder. Is there any treatment recommended for the unfinished wood to protect it against rot or cracks?

ANSWER: If they're not already treated, new ladders should be soaked in a clear wood preservative, given a protective coating all over with the preservative. This prevents development of rot. Painting wood ladders is never sensible because this would hide cracks or signs of decay. Any good quality spar varnish can be applied, if you wish. When not in use, store the ladder in a dry place, off the ground.

DINGY BATHROOM TILE

QUESTION: The bathroom floor in the apartment we moved into not long ago has the small white hexagonal tiles. In spite of repeated scrubbing and cleaning (even tried a chlorine bleach), these look dingy. Can you recommend any way to make them less dingy looking, less grayish?

ANSWER: If the dinginess is not due to an inferior grade of tile, you might be able to brighten the color by washing with a hot saturated solution of oxalic acid (poison). Wet the tiles with a liberal quantity of the hot solution and allow to remain a half hour. Then rinse thoroughly with clear water. Be sure to wear rubber gloves while working with the oxalic acid. Frequent use of this chemical is not advisable because it will eventually disintegrate the cement between the tiles. That's why a thorough rinsing is so necessary.

BOND MARKET

Light trading and generally unchanged prices featured Canadian bond market activity this week.

Short-term Canada issues moved slightly higher behind gains of 5 cents. The 4½-per-cent Dec. 15, 1966, issue closed at $99.40 bid and $99.55 asked; the 3½-per-cent May 1, 1966, issue at $99.20 bid and $99.30 asked.

Losses ranged from ⅛ to ¼ on the long-term Canada market. The 5¼-per-cent 1990 issue was quoted at $98 bid and $98¼ asked at the close of trading Friday.

Provincial issues were mostly unchanged in light trading. The Province of Ontario 5½-per-cent 1985 issue closed at $99⅛ bid and $99⅝ asked at week's end.

Treasury bill quotes were unchanged with 91-day bills at 4.08 per cent and 182-day bills at 4.30 per cent. The day-to-day money rate increased ¼ to 4 per cent; amount available fell to $142,000,000 from $176,000,000.

Municipal and corporate trading was lacklustre with few changes noted.

NET EARNINGS

By THE CANADIAN PRESS

Canadian Industrial Gas and Oil Ltd., six months ended June 30: 1965, $1,728,484, 39 cents a share; 1964, no comparable figures.

Electric Heat

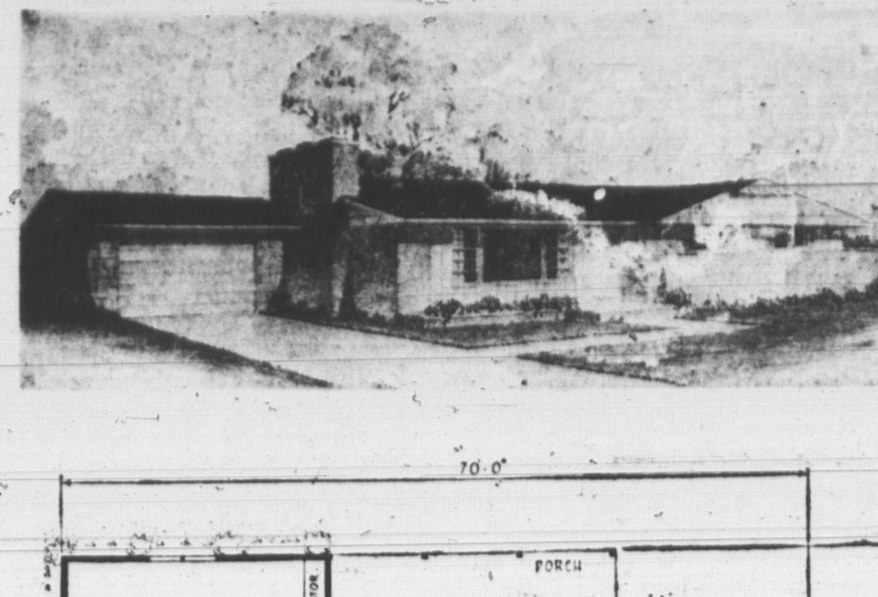
The cleanest, safest most trouble-free heating system.

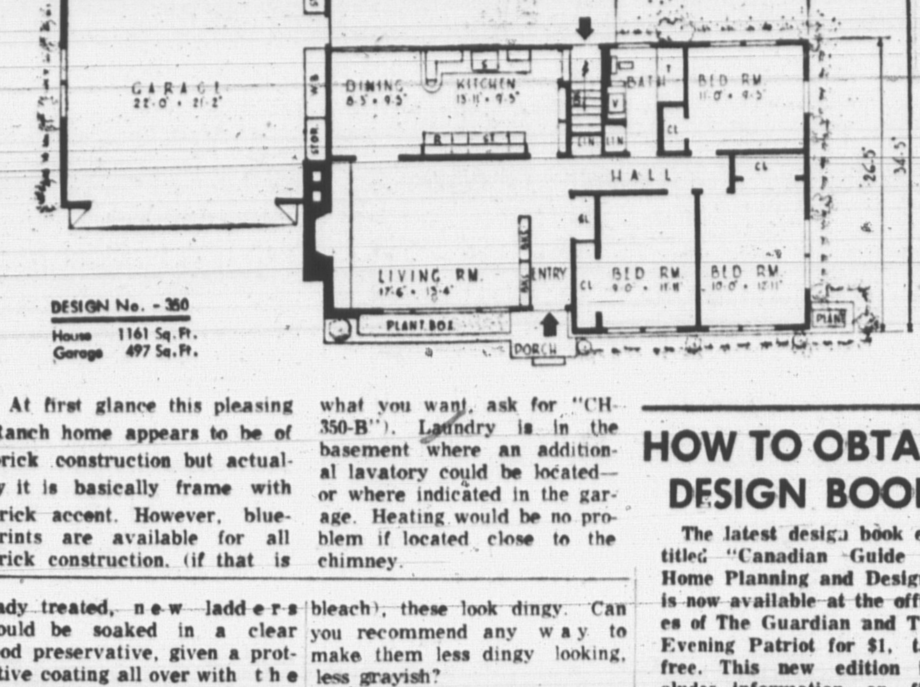
To get maximum benefit from this unique system expert installation is required. MacLean and Son Limited are able to give the finest installation and service of this system.

MacLEAN & SON Ltd.

254 Kent St. 2-2443

GUARDIAN-PATRIOT HOME OF THE WEEK





At first glance this pleasing Ranch home appears to be of brick construction but actually it is basically frame with brick accent. However, blueprints are available for all brick construction. (if that is what you want, ask for "CH-350-B"). Laundry is in the basement where an additional lavatory could be located—or where indicated in the garage. Heating would be no problem if located close to the chimney.

HOW TO OBTAIN DESIGN BOOK

The latest design book entitled "Canadian Guide to Home Planning and Design" is now available at the offices of The Guardian and The Evening Patriot for $1, tax free. This new edition includes information on financing, color selection, etc., plus over 100 popular new designs to choose from. Also included are full details on how to order blueprints.

YOUR DRAPERIES WILL TELL THE DRAMATIC STORY OF CLEAN ELECTRIC HEATING

Mr. and Mrs. E. C. Steen live in an electrically heated home in Wallaceburg, Ontario. Here are some of their comments:

"We've been in this home for five years now, and I haven't had to clean my drapes yet. In our other house I had to clean them about once a year." "The walls have never been painted and I have never even washed them. I've washed off a few fingermarks the boys left around the doors and light switches, but that's all."

However, there is more to electric heating than cleanliness: Electrically heated homes, insulated to Hydro standards, cost no more to heat than homes with other systems. Flameless electric heating is quiet, safe and offers the convenience of room-by-room or zone temperature control. With all its advantages, no wonder so many people are turning to electric heating for the comfort, convenience and economy they want in a heating system.

MARITIME ELECTRIC Company Limited
