

How to be Happy.

Be just to your friends and your neighbors, As well as your possible foes; Be true to yourself and your Maker, Then take the world just as it goes.

Indulge not in fretting and fuming About each discomfort and loss; Extract all the gold from the sunshine, And cheerfully scatter the dross.

Think not of yourself, altogether, When making your way to the goal, But stop and encourage a brother, And lift up some poor, fainting soul.

Some treasures may fall by the wayside That you fancied were yours in sight; Dear friends, or sweet children, it may be, But God keeps these jewels in sight.

Not one shall be lost or forgotten, But brighter than ever before; Then go on your way, friend rejoicing, Amid the world's bustle and roar.

Rejoice not your neighbor his harvest, But join in the reaper's glad songs; To him who hath sown in the morning The fruit of the sower belongs.

The way to be happy, while doing The best by our friends and our foes, Is to trust in the words of the Father, And take the world just as it goes.

A Free Trade Fallacy.

(The Railway Register.)

One of the Free Trade fallacies is that, if protection increases the prices of all commodities and wages in the same proportion, there is no advantage in it either to the workingman or the farmer. On its face this proposition is seemingly simple and unanswerable.

But protection, besides increasing the wages of the workmen, thereby enabling them to pay higher prices for all the articles they buy, also benefits the farmer, and indeed the whole community by increasing the number of workmen and giving employment to more of them.

In England a miner earns about \$1 per day. In Alabama a man in the same line earns \$2.50 per day. Iron workers in Great Britain receive about \$1.20 per day, while in this country they are paid \$4 per day.

If the tariff were taken off, wages here would be reduced and that would be followed by a further reduction abroad. The result would be that our workmen would be pitted against foreign labor in a strife as to which could work the cheapest.

Does anyone doubt that such a state of affairs would not only reduce the price of food articles, but that our mills and factories would be soon closed and much misery follow.

DIRECTIONS TO VOTERS.

The following is the form of ballot to be used in the election for Queen's County:—

Election for the Electoral District of Queen's County District, August 19th, 1884.

JENKINS, I. John Theophilus, Charlottetown, X County of Queen's, Physician and Surgeon.

WELSH, II. William, Charlottetown, County of Queen's, Merchant.

HOW TO MARK THE BALLOTS. Be sure to mark your ballot for the Liberal Conservative Candidate

The elector, on receiving the ballot-paper, shall forthwith proceed into one of the compartments of the polling station, and there mark his ballot paper, making a cross with a pencil on any part of the ballot-paper within the division containing the name of the candidate for whom he intends to vote, and shall then fold up such ballot-paper, so that the initials on the back can be seen without opening it, and hand it to the Deputy Returning Officer, who shall, without unfolding it, ascertain, by examining the initials, and the number upon the counterfoil, that it is the same he furnished to the elector, and shall then immediately, and in the presence of the elector, place the ballot-paper in the ballot-box.—Ballot Act, Sec 45.

No voters should make any mark on the ballot-paper save one cross on any part of the ballot paper within the division containing the candidate's name for whom he intends to vote. If the voter writes his name or initials, or any remarks, he makes his ballot useless.

A simple cross upon the ballot for your candidate will assist in electing him. Any other mark or writing will contribute to their defeat.

1. Poll opens at nine o'clock a. m., and closes at five o'clock p. m. 2. Vote early. 3. See that your Liberal Conservative neighbor votes early also. 4. If you have a vehicle, place it at the service of your Committee to bring tardy voters to the polls. Give the information to the Secretary of Committee. 5. Do not "pair" on polling day with your Grit neighbor. Poll your own vote and let him look out for his. 6. Poll every possible vote; the loss or gain of a single vote in each sub-division may make all the difference between victory and defeat. 7. If your returning officers and deputy returning officers are Grits watch them. 8. Each Liberal Conservative should vote as though the result of the election depended upon his individual exertions. 9. Remember that any bribery, corrupt treating, hiring of vehicles, paying of voters' expenses, or any undue influence, will not only void the election, but is punishable by law. 10. Electors can only vote at one polling sub-division in the same electoral division, no matter in how many sub-divisions they may have votes. 11. Any elector's vote may be challenged who has received anything on account of his vote, or has been promised anything directly or indirectly, either to induce him to vote at the election or for loss of time, travelling expenses, hire of teams, or any other service connected therewith; or even if the said elector has directly or indirectly paid or promised anything to any person, either to induce him to vote or to refrain from voting at the election. 12. An elector having more votes than one in the same electoral district should vote in that electoral sub-division in which he resides. Attention to this rule will facilitate the polling, and possibly contribute to the individual elector's comfort.

MRS. SOPHIA POTTER'S Bone Rheumatic Liniment

It is a fact worth knowing that Mrs. Sophia Potter's Bone Rheumatic Liniment cannot be excelled for removing pain and soreness. It is no worthless trash, as some may suppose, simply because they have been imposed upon by others but is positively the "King of Pain." Sore throat cannot stand before its power. All we ask is a trial that you may be convinced of the truth of our statement. Our experience is that one bottle tried also sells many more.
