Sherwood Leads Way

DAVE Boswell, provincial director of physical education, was highly pleased with the success of Queen's school sports last Friday but his delight was nothing as compared to the jubilation of the good folks in the village of Sherwood.

In this affair Friday last, the rink in Sherwood was made up of seven firsts, seven seconds and four thirds to lead all other schools in the county. This great showing by this enterprising village must have taken a lot of surprise at first but you look into activities in this community, the result wasn't such an upset after all.

AT Sherwood this season, the grown-ups went to work to get ice facilities for the youngsters. They have provided a fine outdoor rink which has been the fullest to the school children. Chief of Police Jack Norton and Sherwood firemen have seen to it that the rink is safe and cleared.

The ice surface is 180 ft. by 90 ft. and it's right next door to Sherwood school. It's about the most popular spot in this region since ice making became possible. No longer do these boys and girls need to depend on other rinks. They have their very own and they are happy and contented about it.

THE way the youngsters should be appreciated to the adults of Sherwood by coming through last Friday surely must have made the older folks feel good about the effort they had put forth.

This wide awake community is looking after its youth in fine style. They realize the needs of their children and they do something about it. They are doing something practical about fulfilling those needs.

Here at Sherwood, there is a highly competitive intramural league in operation and Chief of Police Norton has arranged for trophies and prizes for top teams and individuals really sold on this idea and Monday morning he could be seen bright and early taking snow off the big ice surface.

It's a really co-operative effort and the good folks out there had every right to feel proud of what they have done and what they are doing. Other communities could surely profit from this example.

Congratulations, Sherwood.

At Queen Charlotte

AND out at Queen Charlotte High School, Jack 'Spoy' Ready has seen to it that an outdoor rink was provided for children of that school. Youngsters attending the school at Queen Charlotte school have had loads of ice time this season. The Queen Charlotte hockey team is really doing well.

It's really co-operative effort and the good folks out there had every right to feel proud of what they have done and what they are doing. Other communities could surely profit from this example.

Congratulations, Sherwood.

Yastrzemski Seen Ready To Take Role

SCOTTSDALE, Ariz. (AP)—Two years is a comparatively short time in baseball, but in the case of left fielder Hal Yastrzemski, it's been 24 months that have transformed him from a boy into a man.

From a wide-eyed, frightened rookie he has grown into a full-blown major league star, one who understands and is willing to accept his role as the big gun of Boston Red Sox's American League.
