

**RC Council
Will Resume
On Sept. 14**

VATICAN CITY (AP)—Pope Paul VI has set Sept. 14 for the start of the fourth and final session of the Roman Catholic ecumenical council.

The decision indicated the Pontiff was determined to bring the last half-dozen controversial issues before the council to a solution this year, perhaps by Christmas.

When the third session ended Nov. 21 there still was wide disagreement on issues such as religious liberty, the Jews, birth control, atomic disarmament and reform of the Roman curia. Many prelates had predicted it would take until 1966 to prepare for the fourth session. At least one Conservative prelate said three to four years might be needed to work out compromises.

**Aluminum Ltd.
Merger Okayed**

NEWARK, N.J. (AP)—A federal judge has cleared the way for a merger in which Aluminum Ltd. of Canada will pay \$44,000,000 for the Aluminum fabricating division of National Distillers and Chemical Corp. of New York.

Judge James A. Coolahan denied a U.S. government application for a preliminary injunction to block the merger, dissolved a temporary restraint issued in the case last week, and imposed conditions governing the merger that previously had been proposed by the corporations.

He also set a June 7 trial date on the government's suit for a permanent injunction against the merger. He said the court would retain jurisdiction in the case in the meantime.

Coolahan had reserved decision Monday after a day-long hearing on the government's application. The government sought to block the merger pending a hearing on the merits for a permanent injunction and on motions of the corporations to deny such an injunction.

The anti-trust division of the department of justice filed the civil suit last Wednesday against Aluminum, its New York subsidiary, Alcan Aluminum Corp., and National Distillers. The government division obtained a 10-day restraint against completion of the sale.

The government charged that the merger would violate the Clayton Anti-Trust Act by eliminating competition in the U.S. in the fabrication of aluminum sidings, venetian blinds and awnings.

**Soviets Silent
On Invitation
From Johnson**

MOSCOW (AP) — President Johnson's invitation to the new Kremlin leaders to visit the United States comes at a time when Premier Alexei N. Kosygin is preparing for visits abroad. But no official reaction to Johnson's offer was made public.

The invitation was reported without comment by the Soviet government newspaper Izvestia. Its account of Johnson's address to the U.S. Congress Monday night said only the president "expressed his hope that the new Soviet leaders could visit America to get acquainted with it personally."

A U.S. embassy spokesman said no official invitation had been issued through the embassy here. He had no knowledge of a formal invitation extended in Washington.

Under the normal rules of diplomatic protocol, which are sometimes ignored, Johnson would be expected to visit Moscow first. The spokesman said no formal invitation had been issued Johnson here.

**Atomic Arms
Use Urged**

PARIS (Reuters)—The French defence ministry's Revue de la Defence Nationale, has called for immediate and massive nuclear retaliation in case of any Russian attack on Western Europe.

An anonymous contributor, understood to be from a member of the French general staff, wrote: "It is obvious that in case of Soviet attack, even if using only conventional weapons, the Allied forces defending Western Europe have no other way to make up for their smaller numbers than by the use of atomic arms."

"Aggression must be stopped immediately, without waiting for the enemy to win the stakes needed for a favorable compromise. . . . A coherent system of fire must be turned on him, and in depth."

The writer suggested United States global strategy was out of date, and called for new thinking to meet the needs of the atomic age. He said European strategists had a narrower but more realistic view of things, born of their exposed position.

FIRST COLLEGE
Canada's first classical college, now celebrating its 300th anniversary, is the Seminary of Quebec founded by Francois Xavier de Laval, first Bishop of New France.
