THE ELECTIONS THROUGHOUT THE DOMINION.

The Halifax *Evening Express* of the 22d inst., supplies the following intelligence:—

The returns of the elections for the General Parliament are nearly all in, and the number will stand about 125 Ministerialists to 62 Opposition, thus giving the Administration a clear majority of 63 in a House of 187. The supporters of the Ministry are very homogeneous in their views and general policy, while the Opposition is made up of a mixed multitude of very diverse opinions and intentions. The Upper Canadian Reformers, who make up about one half of the Opposition, are almost to a man ardent Unionists. They have no particular policy, beyond the cry for party government, and they owe their present weakness to the fact of showing an inclination, while denouncing coalitions, to coalesce with the Rouges of Quebec and the anti-Unionists of the Lower Provinces. The Rouges, some 13 or 14 in all, are extreme in their radicalism, some of them, at least, favoring Annexation views. In the new House there will be altogether from the Lower Provinces 21 anti-Unionists, who will, in all probability, after a little while, subdivide themselves into two parties —repealers and non-repealers. It will thus be evident that the Dominion Government is in a very favorable position to carry out the details of its policy. Nova Scotia will be the greatest difficulty; but we trust that a course of conciliation, justice, and generosity will at no distant day convince the the people of this Province that their alarm has been groundless, and that before two years have passed away, they will endorse the policy of Union as enthusiastically as they have now condemned it. History teaches us that a popular *furore* is much oftener wrong than right. Eight years ago a Ministry was struck down here under the influence of a proscription cry, which has long been repudiated, even by those who used it most vehemently to win a victory. The late Lord Elgin was pelted by a mob in Montreal, and within less than two years the very city that stoned him was the most forward in its admiration of his great and manifold virtues as a statesman and a man. The great Duke of Wellington was hunted like a wild beast by an excited London mob, who would have taken his life because he was the instrument in carrying the Catholic Emancipation Act. Yet who would venture now to say that this last measure was not one of imperative justice, of clamant right, and that the withholding of it would not have been an act of gross and grinding tyranny! So it will be, and that ere long, as regards the measure of Union. Let it only have fair play—keep fools and knaves, if possible, off the arena—let us, one and all, of whatever party, be watchful for our rights, and not be ashamed to confess and rectify the mistake that has been made, as soon as we have become sensible of it. And the time is not far distant when we will find out, we hope not to our cost, that the mistake of Wednesday last has indeed been a most distressing one—one which in after years will bring a blush upon the brow of every Nova Scotian at the bare mention of it.

THE DOMINION PARLIAMENT.

The Ottawa *Times*, the organ of the Dominion Government, speaking of political affairs, and the opposition the Government expects to meet, makes the following remarks:—

"We have said the only consolidated party is the party of Union. But the fragments of another party are strewn about the country. We have the small contingent of Western factionists, demoralised, it is true, by the loss of their leader; we have the *Rouges* of Quebec, and the Antis of Nova Scotia. There doubtless will be a fusion of these parties on some common platform, a Coalition, in fact, for the common purpose of opposition. Will the anti-national politics of Howe, the annexationism of the *Rouges*, or the meaningless oppositionism of the Western factionists prevail? Time only can tell. Whichever may predominate, there is great danger that in the end they will attack the Constitution in some of its most important features. But the practical questions which must engage the attention of the public mind for many years to come, will render this conglomeration of disaffected or disappointed politicians comparatively harmless. The Union party is too strong, too faithfully representative of the sentiment of the country, to be endangered in its position, or retarded in its work, by the presence of the three wings of the Parliamentary opposition, whether they act separately or in concert."

SHOCKING ACCIDENT ON THE RAILWAY.

A distressing and fatal accident occurred on the Windsor down train this morning at Bedford Cove, resulting in the death of Dr. Hogan of H. M. 4th (King's Own) Regt., and slightly injuring another, who were passengers on the train. It appears that workmen were engaged this morning endeavoring to place on the track the freight cars that were thrown off yesterday. They had succeeded in getting one of the cars almost on the track when the Windsor train came thundering along. Room enough, however, was left for the train to pass the freight car. Dr. Hogan hearing a grating noise when the car was passing, put his head out of the car window, looking the off direction, and before he had time to withdraw it, was struck by the corner of the freight car, the whole back of the head being torn off, producing instant death. Another passenger had his arm slightly injured. The body was brought in to the Station and placed in the Ladies' Waiting Room. The deceased gentleman, who was a son of the celebrated Sculptor, was universally esteemed in the Regt. to which he belonged, and had made for himself a host of friends here and in Ch'Town by his urbane and gentlemanlike deportment. He was returning to town from the Military Camp at Bedford, where he had been stationed.—*Halifax Reporter, Sept. 25.*

Horse Stealing.—A man by the name of William Tobin, has been fully committed for trial for the above offence, under the circumstances following:—On Monday morning, the 25th inst, Mr. Councillor Morris having been informed by his servant, that a strange horse was tethered to a tree on his premises, opposite the Catholic College, in the Royalty of Charlottetown, ordered the servant to bring the horse into town, and endeavour to find the owner; this was accordingly done. On the horse being shown to Mr. Pickard, he stated that a person had been at his house the day before, complaining of having had a horse stolen from him, and that he was then in pursuit of the thief. Mr. Pickard further stated that the animal now shown him answered to the description. It was afterwards ascertained that the name of the supposed owner of the horse, was Woodside, of Malpeque. Mr. Morris had the horse placed in the same situation he was taken from, and with the approval of his Worship the Mayor, caused two policemen to be placed in a convenient situation, for the purpose of detecting and apprehending any person who might attempt to take the horse away; and about eight o'clock in the evening, a man, who answers to the name of William Tobin, was arrested in the act of taking, or attempting to take, the horse. Subsequently (Thursday) the owner, Woodside, arrived and identified the horse as his property; and the requisite affidavits having been made, and read over in the presence of the prisoner, who, having nothing to allege in defence, was accordingly committed to take his trial at the ensuing St. Eleanor's Sessions. The prisoner, on being apprehended, was very violent, knocking one of the policemen down, but was subdued, on receiving a heavy blow across the forehead from the other. —*Isl.*

Another Fire.—A Fire broke out between 9 and 10 o'clock, a. m., on Friday, in the hay loft of a stable belonging to Capt. Samuel Mutch, on Water Street. The Fire, it is said, originated in a Tar Barrel, and though a part of the hay also became ignited, the whole was speedily extinguished, as the Engines were promptly on the ground. About 2 o'clock another alarm was sounded, and the citizens were not a little surprised to find that the fire was at the same place. This time the flames were first seen close to the wall of the hay loft, at a place we hear, where it is not at all probable that any embers could be left from the previous fire. But little injury was done either time to the building. If the reports which we have heard be true, there is too much ground to fear that both times the fire was the work of an incendiary.—*Pat.*

Our enterprising fellow townsman, Frederick LePage, Esqr, having purchased and greatly enlarged and improved the premises on Queen Street, for many years occupied by the late Mr. Nelson, has removed the Glasgow House to his new stand. Mr. LePage's present establishment is one of the neatest and best finished shops in the city, and its internal arrangements are well adapted for a large dry goods business.—*Pat.*

Among the shipping from the Port of Charlottetown during the last four weeks were 34 horses, 267 sheep and lambs, 148 barrels of oysters, 5,296 barrels mackerel, 2880 bushels oats, 4300 bushels potatoes, and 200 bushels barley.—*Pat.*

LATEST NEWS BY TELEGRAPH.

Berlin, Sept. 23.—The North German *Gazette*, the reputed organ of Bismarck, says the South German States are now free to join the Confederation of the North, and make Germany one nation.

Dublin, Sept. 23.—It is reported that a suspicious looking craft, supposed to be a Fenian vessel, has been seen cruising off the coast of Kerry.

Florence, Sept. 23.—The Roman Government is taking precautionary steps to guard against an attack from without, or a sudden rising within the city. All the pontifical troops are being withdrawn from outlying points in the Provinces of Civita, Vechia, Viterulo and Villeteri, and concentrated in and around Rome. The Government is sending troops to the frontier of the Roman territory. Despatches from Rome state that many arrests have been made of parties suspected to be in correspondence with Garibaldi and his followers.

Berlin, Sept. 24.—The Prussian Diet dissolved yesterday, but will meet again in November, when it will include among its members the deputies elected from the States which have been annexed to Prussia.

London, Sept. 24.—It is reported that the Emperor of Russia has refused the proffers of an alliance made by the Porte, and that he is now seeking to bring about an alliance between Russia and France.

London, Sept. 24, 9, p. m.—Garibaldi has been arrested by the Italian Government. He was arrested while crossing the Roman frontier.

Paris, Sept. 24—Troops have left Parsi for Rome.

London, Sept. 24.—It is rumored that Kelly and Deasy sailed from Liverpool in one of the Atlantic steamers for the United States. A special Commission will soon assemble in Manchester to try the parties in jail there charged with having taken part in the late riot. An unfortunate conflict occurred in the streets of Limerick yesterday between the people and the troops. The latter fixed bayonets and charged upon the crowd. Eight persons are reported to have been wounded, and one man killed. The conduct of the troops is condemned.

Florence, Sept. 25, a. m.—When it became known here that Garibaldi had been arrested, and in a fortress in Alexandria, his party in this city was greatly exasperated, and appearing in the streets in crowds, made turbulent demonstrations of sympathy for their leader. The manifestations finally developed into a riot, but the disturbance was soon supressed by the prompt action of the Government. All the Volunteers of Garibaldi that had gathered at various points on the Roman frontier have been compelled to disperse and retire by the Italian troops.

Florence, Sept. 25, noon.—It is said that the Italian Government has offered to send Garibaldi to his home in Caperara, and relieve him of all restraint if he will give his parole not to engage in further hostilities against the Roman States.... Victor Emmanuel has issued another proclamation in which he says, the faith of the Government is pledged in its treaties with foreign powers, and it is exacted of it the painful duty of arresting Garibaldi, the acknowledged leader of a movement in direct violation of those treaties.

Paris, Sept. 25.—The Moniteur and all the journals, official or semi, of character, praise the decision and firmness of the King of Italy in preventing a lawless invasion of Rome, and maintaining the faith of treaty obligation, and says that the conduct of the Italian Government in the matter affords another guarantee for the peace of Europe.

London, Sept. 26, p. m.—Attempts have been made to renew the disturbances which occurred at Florence on the news of Garibaldi's arrest, but they all proved abortive. The Government, without resorting to regular troops, called out the National Guards, and with their assistance checked all outbreaks before they became formidable. Several men have been arrested by the Police for participating in the recent scenes of violence and disorder. The City is now quiet.... Reports from all parts of Italy show the country is tranquil. ...A dispute has arisen between King Leopold and the Emperor in regard to the settlement of the estates of Maximilian. ...The report that the Spanish Government has recalled its fleet from the Pacific, is positively denied. ...The third of the Newmarket Races occupied to-day. The Queen's plate was won by Dalesman. The Triennial stakes by Uncas.....The returns of the Bank of England show that Bullion has decreased £50,600.....The firm of Walter & Hamilton, of Glasgow, have stopped payment; liabilities believed to be small.

London, Sept. 25.—There was another trial of the Rodman Gun at Shoeburyness yesterday. In one case the Rodman Gun was loaded with one hundred pounds of American service powder. The projectile passed entirely through an eight inch iron plated target at a distance of seventy yards. This target is the one that has been used for a long time for the experiments, and has withstood some of the severest tests. ...The vessel seen off the Irish Coast is said to be the barque *Plato* or *Pride of Erin*, with a party of scientific and military gentleman aboard, to make a survey of the coast, and ascertain the most available inlets for landing in Ireland. She is the vessel that made the former trip to Ireland.

New York, Sept. 27.—A city of Mexico despatch, dated the 19th says: Admiral Tegethoff has determined to return to Austria soon, if he does not obtain the remains of Maximilian. ....A Mexican letter dated the 8th, states that Tegethoff is endeavouring to obtain the release of Father Feecher, Maximilian's confessor. ...Marquez is believed to be concealed in the city. The Princess Salmsalm is in Queretaro, where her husband is serving out his seven years sentence.....Gold 143¼.

THE NEW COMMANDER-IN-CHIEF.

We condense from the Montreal *Evening Telegraph*, the following account of the new Commander-in-Chief:—Lieut-General Sir Charles Windham, K. C. B., has been appointed to succeed Sir John Michel as Commander-in-Chief of the British forces in our Dominion. This distinguished officer joined the Guards in 1826, and was, a few years after he obtained his captaincy, ordered out to Canada, where he participated in the military movements rendered necessary by the rebellion of McKenzie and Papineau. In 1854 he was sent as Assistant Quarter-Master General to the Crimea; and continued on the field from the day he reached there, Sept, '54, till July, '56, without being a day absent. He was present at the battles of the Alma and Balaklava, and was present with the lamented Cathcart when he fell at the battle of Inkerman. He was also at both assaults on the Redan, and commanded the storming party of the 2nd Division at the last assault; and was for his conspicuous bravery promoted to be Major-General. For his distinguished services as above, and also as Governor of Sebastopol, he received the Crimean medal and four clasps, and was appointed a Commander of the Bath. He also received the appointment of Commander of the Legion of Honour; Commander 1st Class of the Military Order of Savoy; to the 2nd Class of the Mejidie, and also obtained the Turkish Medal. In 1857 he was sent to India, and received the command of Cawnpore, and after several fights on his own account, commanded a division in the field under Lord Clyde, and was engaged in a severe action at the Kallee Nudee. He was also at the battle of Futteghur and for his services during the Indian mutiny received another medal.

We have been requested to state that the letter which appeared in our last issue, over the signature of "One of the Trio," was written by a gentleman resident in Charlottetown.

Boston, Bristol, and New York Line—via Boston and Providence Railroad, to Bristol and New York.—The most costly and magnificent Boats ever built in this country, or run on Long Island Sound, built expressely for this Route; finished with all the modern conveniences, lighted by gas, heated by steam.

These Steamers are 3000 tons measurement, cost upwards of $1,000,000 each; length, 373 feet, width of hull, 48 feet, depth, 16 feet. They are constructed as First Class sea-going vessels, with narrow guards; boilers below; water-tight Compartments, and all the arrangements for Comfort and Safety.

They are fitted with 233 State Rooms and 90 Berths, will easily accommodate 800 passengers.

We learn that a ship of 800 tons, loaded with deals, was driven ashore at Egmont Bay, on Wednesday evening last, during the heavy blow from the Southwest.—*Summerside Progress.*

In the disastrous fire at St. Pierre, Miquelon, on Monday night, the 17th inst., two hundred buildings were consumed. The estimated loss from $600,000 to $800,000. Insurance only between $50,000 and $60,000, principally in St. John's, N. F.

THREE BLIND MEN RESTORED TO SIGHT IN SEVEN MINUTES.

Mr. Charles McGreary, of Chatham, age sixty-nine years, who has been blind for a long time, was operated upon for cataract on the 10th inst., at 11, a. m., and restored to sight in less than 2 minutes.

Also Mr. James F. Touchea, of Newcastle, aged 80 years, who had been blind for many years, was operated upon for the same condition, on the 10th inst., at 4. p. m., and restored to sight in about the same length of time.

On the 11th inst., at 10½ a. m., Mr. Alexander Combie, of Chatham, aged 40 years, who had been blind for a long time, with the same condition, was operated upon, and restored to sight in less than three minutes from the time the operation was commenced.

All of the above operations in connection with many others, were performed by John Homer, M. D., who is now stopping at Mrs. Bowser's hotel for a short time only.

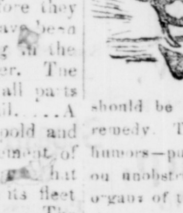
Any one entertaining in their own minds the first particle of doubt in regard to the above facts—let them call upon the patients, or at Dr. Homer's rooms where they can see 3 specimens of Opaque Lens, as removed from the persons mentioned.

During his stop at Mrs. Bowser's, Dr. Homer has had upwards of 170 patients, 9 out of which number has been restored to sight.

The Opinion of an Officer in the Army. —"At inspection I noticed that a large proportion of the men's knapsacks contained a box of Troches, being generally used by them for Colds, etc." "*Brown's Bronchial Troches*" should be used upon the first appearance of a Cold or Cough, which by neglect may terminate in some incurable Lung Disease.

Holloway's Pills —Diarrhœa, Dysentrey.—The medicines commonly used for the subjugation of these diseases so frequently fail of effecting that object that it should be known to all sufferers from these maladies that Holloway's Ointment, well rubbed upon the abdomen two or three times a day, with the application of warm bran poultices in the intervals, gives immediate relief, gradually soothes the irritable bowels, and assuages their most distressing pains. This treatment is applicable to all forms of diarrhœa, dysentery, and cholera, and, with attention, will always be successful. Farinaceous diet, milk, and barley water should give subsistence during the continuance of the disease, to the utter exclusion of all solid food, which the deranged bowels are incompetent to assimilate.

Ayer's Pills.



Are you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous diseases. The same purgative expels them. Caused by similar obstructions and derangements, they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

Ayer's Ague Cure,

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by Dr J. C. Ayer & Co., Lowel Mass., and sold by all Druggists and dealers in medicine everywhere.

HALL'S VEGETABLE SICILIAN HAIR RENEWER,

Has proved itself to be the best preparation ever presented to the public; a fact to which thousands have testified who have been benefited by its use.

A few applications of this Compound will change brash, dry and wiry Hair to a moist and glossy appearance, and make it of

SILKEN TEXTURE.

The Proprietors offer the Sicilian Hair Renewer to the public, entirely confident that by its restorative properties it will bring back the Hair to its

NATURAL COLOR.

It is not a dye, and consequently does not stain the skin or soil the finest fabric. If the Hair is falling off or becoming grey, the use of the Renewer will surely arrest its decay, no matter from what cause, and will create a new growth, and make it assume in a short time all its former vigor, as it furnishes the nutritive principle by which the Hair is nourished and supported. As a

HAIR DRESSING,

the Renewer is unequalled by any other Hair preparation in the world, giving it that beautiful texture which is so much admired by all. It does not contain any poisonous drugs, the basis of its remedial properties being a VEGETABLE COMPOUND. It completely eradicates scurf and dandruff, and cures all diseases of the scalp, and by its cooling properties allays the itching and fever of the scalp. It combines not only the best remedial properties for all diseases of the Hair and Scalp, but also is the best dressing for the Hair. This preparation has been sold for the past seven years entirely upon its own merits.

Beware of the numerous imitations, which in appearance only are similar to it, which are forced upon the public upon our reputation. Call for HALL'S VEGETABLE SICILIAN HAIR RENEWER, and take no other, or you will be disappointed.

UNDERTAKING,

Cabinet-Making and Upholstering,

AT THE

Old Stand, Great George Street.

JOHN HOBBS,

Thankful to the public for the many favors he has received for the last 30 years, takes the liberty of reminding his friends, the citizens of Charlottetown and inhabitants of the Island generally, that he still continues to carry on the

Business in all its Branches,

at the Old Stand, and trusts by manufacturing all articles of FURNITURE, in a very substantial, neat and workmanlike manner, and in all the modern styles to merit and receive not only a continuance, but a large increase of the public patronage.

UNDERTAKING.

J. H. would also inform those who may require the services of an UNDERTAKER that he has just completed the building of a very neat and appropriate HEARSE, and would attend to all calls in that line with that promptitude which his long experience has taught him the subject requires.

☞ The Hearse, with Driver, would also be furnished to any person requiring the same, at moderate charges.

Prince Edward Island.

IN CHANCERY.

Re Mark Nathaniel Wright, George Dudley Wright, Margaret Theodocia Wright, Matilda Ann Wright, Martha Maria Wright, and Isabel Christiana Wright, Infants, by Betsy M. Wright, their Guardian.

In pursuance of a Decretal Order, made by His Honor the Master of the Rolls, in this cause, bearing date the 20th day of August last, there will be sold by PUBLIC AUCTION, on the Premises, at Dunk River, in Prince County, in this Island, on WEDNESDAY, the sixth day of NOVEMBER next, at the hour of 12 o'clock, noon, all that valuable Freehold Farm, or tract of Land, situate on Township No. 26, containing 125 acres, a little more or less, with the Messuage, Mills, Buildings and appurtenances to the same belonging, of which George M. Wright, the father of the above named infants, lately died seized and possessed.

The Farm and Premises above mentioned are situated on the Main Road, between Somerset (formerly South-west settlement) and Freetown, Bedeque; having a frontage of 125 chains on the said Road, and being 10 chains in breadth, a little more or less.

The land is of superior quality, about sixty acres of which are cleared and in a good state for cultivation, the residue being covered with a fine growth of hard and soft wood. The principal Dwelling House, a 1½ storey building, is 36 by 28 feet, with a kitchen in the rear 25 by 18 feet; contiguous to which are Wood House, Carriage House Stables, Workshop and Barn, the latter 45 by 30 feet. The Mills, comprising a very superior Grist Mill (with 3 pairs runners), Shingle, Saw and Carding Mills, are propelled by a powerful stream; and their situation for business purposes is considered to be unequalled in the Island. The property will be offered in three separate lots or sections. One lot comprising the Mills, with a Cottage 20 by 18 feet, and a Workshop 18 by 15 feet, for the use of a Miller, with 25 acres of Land attached. The second lot will comprise the Farm proper, consisting of about 75 acres, with the Dwelling House and other Buildings above described; and the remaining 25 acres, being the northern section of the tract, and all cleared, will form the third lot. Should intending purchasers prefer it, the whole property will be sold in one Lot.

Terms—Ten per cent. of the purchase money to be paid down at the time of sale, and the residue of one-third of the purchase money, 23⅓ per cent, upon the execution of the Deeds. The remaining two-thirds to be secured by Mortgage on the premises, in manner more definitely to be expressed in the conditions of Sale.

Dated at Charlottetown, this 10th day of September, 1867.

J. LONGWORTH, Master in Chancery.

Hodgson, Solicitor. [sep 16]

ST. DUNSTAN'S COLLEGE.

Under the patronage of His Lordship the Bishop of Charlottetown.

This Institution is situated on the Princetown Road, a mile and a quarter north of Charlottetown. The site is peculiarly beautiful, healthy, and far removed from the distractions and moral dangers of the city.

The halls and rooms of the building are spacious, airy, and comfortable.

The College Grounds are large, affording ample room for games and athletic exercises.

The course of studies embraces all the branches necessary to prepare young men for the study of the learned professions or fit them for mercantile pursuits, such as History, Geography, the English, French, Latin, and Greek Languages, Rhetoric, Mathematics, Philosophy, Chemistry, &c. Music, vocal and instrumental—is also taught.

The College possesses a large and well selected Library, as well as an extensive Philosophy Apparatus.

The Professors and Teachers reside in the Institution, forming but one family with the students, and exercising a constant supervision, favorable to discipline, decorum and good morals.

Catholic students are carefully and frequently instructed in their holy religion, which they are required to practise. The most solicitous attention is paid to the morals of all; and whilst within the College enclosure, they are constantly under the watchful eye of one of the Teachers or Prefects. Perfect discipline is strictly but kindly enforced.

Students when entering must produce satisfactory testimonials of good character.

The College is visited regularly once a week by a Physician.

TERMS

Per Quarter of 11 Weeks.

Board and Tuition,	£6 0 0
Use of Library,	0 1 6
Physician's Fee,	0 1 6

Payments to be made half-yearly in advance.

The College furnishes bed-steads and mattrasses; the students must provide their own beds and bedding, brushes, basins, towels, &c.

The Scholastic year commences on the first* Wednesday in September and ends about the middle of July. Students are requested to enter the College on the first day of the opening of the classes.

For further particulars apply to
