Winter Communication.

Extract from Minutes of Executive Council of Prince Edward Island.

COUNCIL CHAMBER,
January 31st, 1883.

At a meeting of the Executive Council in Committee. Present: The Honorables Messieurs Sullivan, Campbell, McLeod, Ferguson, Prowse, Lefurgey, Arsenault.

The Executive Council in Committee have had under consideration the failure of the Dominion Government to fulfil that condition of the Terms of Confederation, which stipulates that the Government of Canada shall assume "and defray all the charges for the establishment and maintenance of efficient Steam Service for the conveyance of Mails and Passengers, between Prince Edward Island and the Mainland of the Dominion, winter and summer, so as to place the Island in continuous communicatien with the Intercolonial Railway, and the Railway system of the Dominion."

In a Joint Address of the Legislative Council and House of Assembly of this Province, to His Excellency the Governor-General, adopted in the Session of 1881, were set forth the enormous disadvantages under which the inhabitants of this Island labor, by reason of the efficiency of the means provided for the transport of mails and passengers, during the winter season, and a request was made for the immediate adoption of vigorous measures for the removal of the grievances complained of, as well as for the allowance of compensation by reason of the non fulfilment, in such respect, of the Terms of Confederation. The receipt of this Address was duly acknowledged by the Secretary of State, in a Despatch dated 16th April 1881, and upon the notice of the Dominion Government being again directed thereto, and a reply requested, it was learned that the question was receiving their earnest consideration.

The Council in Committee desire to draw the attention of the General Government to the fact that, although nearly two years have elapsed since the acknowledgment of the receipt of the said Address, no attempt has been made to improve the means of communication with the Mainland Provinces of the Dominion, and that the grievances complained of therein still remain.

During the first winter succeding the Union, it was not expected that much could be effected towards providing "continuous communication," but the inhabitants of the Island patiently awaited the result of the experiment being made, by the Dominion Government, to demonstrate the practicability of the winter navigation of the Gulf of St. Lawrence. The futile attempts of the steamer "Northern Light," during the last seven years, to maintain "continuous communication" are notorious. Experience warrants the assertion that she is unfitted for the service; her trips, during the few weeks of winter in which she runs, are irregular and unsatisfactory; her capacity is exceedingly limited, and her model is generally condemned.

A strong inducement for this Province to enter the Confederation was the promise of "continuous communication with the Intercolonial Railway and the Railway system of the Dominion."—A service that would be as thoroughly efficient and regular as the Railways with which such communication was guaranteed:—in short, that Prince Edward Island should have equal facilities for intercourse with the other Provinces, as those Provinces enjoy between themselves, and should participate in all the benefits arising from the Intercolonial Railway, and other Public Works upon the Mainland, from which it had formerly been debarred for a great portion of the year, and to which it contributes without receiving any corresponding advantage.

The inconvenience and loss sustained by the people of this Province, in consequence of the imperfect means of winter transport, are incalculable. Irregularity of the mail service, in which delays of ten consecutive days are often experienced,—the consequent derangement of business,—the hardships of travelling which only the strong and robust are able to endure,—the dangers attendant upon the winter routes;—the total stoppage of all transport for freight or merchandize;—these are some of the disadvantages attending the present mode of winter communication between this Province and the Mainland.

Of continuous steam communication, summer and winter, with the Mainland Edward Island received an [illegible]

PROVINCIAL LEGISLATURE.

HOUSE OF ASSEMBLY.

OFFICIAL SUMMARY.

WEDNESDAY, April 11.

Mr. SPEAKER took the Chair at 12.30 o'clock.

Mr. HOLLAND submitted the following resolution:—

Resolved, That a Special Committee of five members be appointed to enquire into and report to the House the expediency of establishing a Registry of Deeds in Prince and King's Counties, and causing minutes of Judgments to be filed in the offices of the Deputy Prothonotaries in said Counties, with power to send for persons, papers, and records.

He said the want of the accommodation referred to in the resolution has long been a grievance of those who live at a distance from Charlottetown, and he reviewed the efforts put forth in previous years to obtain it. The objections advanced against the claim, he thought, not by any means insuperable. When the Prince County Court Court House was designed, a room was laid off for the special purpose of a Registry Office, and in that respect the proposed change would involve little or no expense. He contended that the office if established would be self-sustaining, and said that in his opinion the system of recording documents might be cheapened. Mortgages, for instance, might, instead of being copied *in extenso*, be placed on file in the same manner as bonds and judgments of the Supreme Court are filed in the Prothonotary's office, and in this way thousands of dollars might be saved.

Mr. SULLIVAN—Who are to be proposed as members of the Committee?

Mr. HOLLAND said that as the matter refers entirely to the outlying Counties, it is not proposed that any of the Queen's County members shall be on the Committee.

Mr. SULLIVAN said that if Queen's County were not represented on the Committee, it might be at once assumed that the report would be favorable to the proposed change. But in his opinion Queen's County should not be unrepresented. Suppose a man in Charlottetown, or any other part of Queen's County, should purchase a piece of land in Georgetown or any other part of King's County, he would have to send to Georgetown to make a search concerning the title; or suppose a person in Queen's County desired to purchase property in Prince County, he would, if the proposed change were made, have to send or go to Summerside to obtain information as to the title. And this is only one of the many ways in which the change would effect Queen's County.

Mr. PERRY said that the question was one that should be well discussed; and as the hour for adjournment had arrived he would move an adjournment of the debate. Motion carried.

Mr. GORDON asked the Leader of the Government what action the Government intend taking with reference to the establishment of a steam ferry on Cardigan; and also, if the piers are to be built this coming summer. He said the people take great interest in this ferry. They have now subscribed over $500 to aid in its establishment, and this amount will be increased very largely. He hoped the Government would lose no time in taking the necessary steps, so that the accommodation required may be obtained as soon as possible.

Mr. SULLIVAN, in reply, said the Government would of course feel it to be their duty to make such provisions as are necessary to carry out the law in respect to the Cardigan ferry. It will be necessary to provide proper landing places on each side of the ferry, and the Government will do so as soon as there is a fair prospect that a [illegible] will be obtained.

[illegible]sumed the debate on the [illegible]olland respecting Registry [illegible]

facilitate the transfer of real estate in Prince County. A Registry Office at Summerside will thus be an advantage to nearly 40,000 people, and it will be a disadvantage to none, except, perhaps, to a very few wealthy persons who trade in land, and this class can well afford a little extra trouble should it arise. Admitting that Queen's County has an interest in the matter, that interest should be to place Prince and King's Counties on the same footing and in possession of the same advantages as Queen's. The additional cost to the Government would not be anything, at least so far as Prince County is concerned; for a gentleman, a few days ago, made an offer to run the office for the income arising from it. But even if a little extra outlay be entailed upon the Province, it should not be objected to, seeing that the additional accommodation will be so great an advantage to so many persons.

Mr. J. R. MCLEAN was amused to hear the senior member for Summerside trying to act the apologist of the Government. The matter should have been introduced by the hon. member himself. The hon. member for Bedeque, when he did take action, should, at least, be sure of the support of the Government. For himself, he was not in favor of having three Registry Offices in the Province. The change will entail a heavy expense upon the country, and a great deal of trouble to the people; for "searches" will have to be made in each of the three Counties, instead of at Charlottetown alone. In his opinion, the records of the Province should all be kept at the Capital.

Mr. BENTLEY inferred that if the hon. members for Tignish and Port Hill were sincere about this matter and not satisfied with the course proposed by Mr. Holland they would have proposed some better way of obtaining the accommodation which Prince County, at least, so much requires. The representatives of Queen's County might reasonably be expected to offer some opposition to the establishment of Registry Offices in Prince and King's Counties, but it is hard to account for the attitude assumed by representatives of the other two Counties. The statistics of registration submitted a few years ago, showed in four years an increase in the registry of documents relating to Prince County of fifty per cent.; and if the same rate of increase has since then been continued, the fees now paid for registration for Prince County would now amount to about $1500, or sufficient to maintain a separate office at Summerside. Calculating the expense of travelling from Prince County to Charlottetown to register deeds to be on the average five dollars for each, the annual cost to the people of that County is about $4000, and even if a little extra expense were laid upon the Government by the establishment of a Registry Office at Summerside, the expense saved to the people would justify the measure. To satisfy everyone that this is the case, he thought the course proposed by Mr. Holland, the proper course to pursue.

Mr. HOLLAND replied at some length to the remarks of Mr. Perry, and said that the last ten years separate books had been kept at the Registry Office for each of the Counties, so that the proposed change would not involve much extra labor or trouble.

Mr. MCDONALD said there could be no objection to having two members from each of the Counties in the Committee. He thought that, in any case, the proposed change would come about in the course of time and that the step now proposed was a very proper one to take. In his opinion the change would not involve any additional expense. Many documents which would be placed on record if the accommodation required were provided are not now recorded at all, and the fees received are, therefore, so much the less.

Mr. MCLEOD said the establishment of Registry Offices in the other Counties would involve an additional expenditure of from $2,500 to $3,000 a year, and the opening of new books would necessarily entail a great deal of trouble and expense, and there will be much inconvenience for many [illegible]ntheless the measure will, [illegible] to be adopted; and [illegible]roposed by Mr. [illegible]h, in the *per*- [illegible]en's County [illegible] willing [illegible]d, and repre- [illegible] that [illegible] [illegible] to put [illegible] as said [illegible]s is not [illegible]he way [illegible]nducted. [illegible]nt table [illegible]titutions. [illegible]sting tired [illegible]e Govern- [illegible] time. He [illegible]r of these [illegible] the resolu- [illegible]ngless. He [illegible]e should be [illegible] [illegible]ed. [illegible]v when the [illegible] He com- [illegible] not being [illegible] [illegible] intention [illegible] report this [illegible] [illegible]as adopted, [illegible]ated, as fol- [illegible]s, McKay, [illegible] Lean. [illegible]d reading [illegible] corporate [illegible]mpany of [illegible]n carried. [illegible]nd passed. [illegible]petition of [illegible] Cemetery [illegible] boundaries [illegible]be heard at [illegible]pport of the [illegible] [illegible]e second reading of [illegible]n Act to authorize the [illegible]atholic Cemetery near [illegible] said the old Roman [illegible]st outside the city, is [illegible]nother must be opened. [illegible]e are poor, it would be [illegible] they are compelled to [illegible]t a long distance from the [illegible]spects of the town extending [illegible]e now over, and as the Roman [illegible]t interfere in any way with [illegible]mpanies of Protestant De- [illegible]as a burial-place must be [illegible]re, he saw no good reason why the Cemetery should not be opened a short distance within the two mile bound.

Mr. BENTLEY moved that the petitioner (Mr. McLean) be heard now.

Mr. CAMPBELL said he was opposed to hearing lawyers plead at the Bar of the House. No information worth anything to the House had been elicited from them when they were heard on former occasions; and hon. members should exercise their own intelligence unbiased by lawyers.

Mr. ARSENAULT said he entertained the same opinion.

Mr. BENTLEY thought the intelligence of hon. members would not be deemed the less clear if they heard both sides of the question.

Mr. FARQUHARSON strongly objected to persons being compelled to carry their dead several miles out of town. Rather than break the roads out to the Protestant Cemetery, at times in the winter season, he had known persons carry their dead to Southport, West River, and elsewhere. As to the objection that the opening of the proposed cemetery would reduce the value of property in its neighborhood, it would weigh just as strongly no matter where it is situated. But he did not attach much importance to it. He lived very near a graveyard—in fact his grounds bordered on it—and he found the occupants very quiet neighbors—much more so, indeed, than some of the living. Now that Cemeteries are nicely laid off and ornamented, the value of neighboring property is lessened very little, if at all.

Mr. FERGUSON said that the Protestant Cemetery is undoubtedly too far from town. Still there must be a limit applicable to all. The subject should receive careful consideration. He could see little advantage in living near a graveyard; but, perhaps, the hon. member for West River, remembering the old King of Macedon who kept continually before him the inscription "Philip thou art mortal," liked to live near a graveyard so that he might always be reminded of his mortality.

Motion carried. House in Committee, Mr. McMillan in the Chair.

Mr. SPEAKER resumed the Chair, and progress was reported.

Mr. MARTIN presented a petition from Charles E. Robertson praying that no Cemetery be permitted within the two mile limit fixed by Statute.

Mr. SULLIVAN moved the second reading of the Bill entitled "An Act to amend an Act to prevent peddlers travelling and selling within this Island." Motion carried. The Bill was read a second time and the House resolved itself into a Committee of the whole, Mr. McMillan in the Chair.

Mr. SPEAKER resumed the Chair and the Bill was reported agreed to.

Mr. LEFURGY moved the third reading of the Bill, entitled "An Act to Incorporate the Trustees of the Summerside Presbyterian Church, and to repeal an Act therein mentioned." Motion carried. The Bill was read a third time and passed.

Mr. BLAKE presented a Bill, entitled "An Act to Incorporate the Peoples' Cemetery Company of Charlottetown." The Bill was read a first time.

Mr. SULLIVAN as a member of the Executive Council, presented a message from the Lieutenant Governor transmitting correspondence ect., respecting efficient communication between this Island and the Mainland.

Mr. SULLIVAN as a member of the Executive Council presented a message from the Lieutenant-Governor conveying the answer of the Imperial Government to the memorial of the Legislature of this Province for compensation from the Imperial Exchequer for the use of the fisheries around the Island by the United States citizens during the two years preceding the operation of the Fishery articles of the Treaty of Washington.

Mr. SULLIVAN, as a member of the Executive Council, submitted a statement of the amounts paid by the Government from the 31st December, 1882, to the 1st April, 1883.

House adjourned. C.

The Fishery Award.

OTTAWA, April 1, 1882.

SIR.—With reference to your Despatch of the 3rd December last, transmitting a memorial to the Queen, from the Executive Council of Prince Edward Island, praying for compensation from the Imperial Exchequer, for the use of Fisheries around the Island by the United States citizens, during the two years preceding the [illegible] operation of the Fishery articles of the Treaty of Washington, I have the honor to acquaint you, for the information of your Government, that a despatch of the 14th inst., has been received from the Right Honorable the Secretary of State for the Colonies, by which His Lordship states that he has laid the said memorial before Her Majesty.

Lord Kimberly further states that Her Majesty's Government have given their careful consideration to the memorial; that the Government of Prince Edward Island, not having, when they consented to the provisional admission of the United States fishermen to their fisheries, made any condition that special compensation should be paid to Prince Edward Island for this concession either from Imperial or any other funds, Her Majesty's Government could not now propose to Parliament to grant a sum for this purpose.

The Secretary of State for the Colonies says in the Despatch already cited, that he has therefore been unable to advise Her Majesty to give any directions in accordance with the prayer of the memorial in question

I have the honor to be, Sir,
Your obedient servant,
J. A. MOUSSEAU,
Secretary of State.

His Honor,
The Lieutenant-Governor
of Prince Edward Island,
Charlottetown, P. E. I.

A NERVE and brain food is needed in all cases of nervous and sexual prostration. Mack's Magnetic Medicine meet this want more effectually than any other preparation, and the price brings it within reach of all. Sold in Charlottetown by Apothecaries Hall Co.
