MESSAGE TO MEN

Proving that True Honesty and True Philanthropy still Exists.
If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excess or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness.
I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of great service to one in need will be sufficient reward for my trouble. Absolute secrecy assured. Send 5c silver to cover postage and address Mr. G. Strong, North Rockland, Mich. 135 p&w.

Testimonial

C. P. Fletcher, Esq.
DEAR SIR,—I do not wish to return to Montreal without expressing my gratitude to you for the very excellent Bell Piano that you placed at my disposal for my recital. I have tried many Canadian Pianos of different manufacturers, and must say that, considering the size of the instrument, I have never found one to equal it for depth and brilliancy of tone. The action is quite as elastic and responsive as in American Upright Pianos of the highest grade. Again thanking you, very sincerely,
I remain,
Yours,

Bold Bowser and the Rat.

Bowser is a Washington dog. Bowser saw a rat in front of a Capital City hotel the other day. He went after the rodent, and both pursued and pursued suddenly disappeared.
The rat had taken to a sewer opening under the curbstone. The dog had followed.
The plunge involved a descent of about 40 feet into the sewer's main line, and an ordinary dog would have found the fall fatal. Not this one.
Bowser's master and others located the dog under a manhole. A tin can was lowered on a hook and rope. Bowser climbed into the can and was pulled out. He had the rat in his mouth, and, dropping it at his master's feet, he went to look for another.—Philadelphia Record.

Perspiration.
Human perspiration, if injected into dogs or rabbits, acts like a deadly poison, according to M. Arloing's experiments. Perspiration secreted during hard muscular work has more toxic power than the ordinary kind, while that obtained from subjects whose secretion has been checked by cold is very poisonous.

In Russia teachers are none too well paid. At a scholastic meeting some one proposed the toast, "Long live our school teachers!" "What on?" asked a cadaverous looking specimen rising in his seat.

Old glass bottles, which are more or less useless, are now ground up and employed as a substitute for sand in the preparation of mortar.

You Can Rely on Good Work

at our tailoring establishment. Not one stitch put in a garment by an apprentice, or an unexperienced hand. We employ none of that kind. We could easily boast of 50 workmen if we did. We are bound to hold the reputation we have made as high-class tailors.
