NEUTRAL ZONE SHOOTING BRINGS CRISIS IN TRUCE TALKS

Search For Maritimes Army Base Stirs Trouble

New Market Opened For PEI Green Beans

A new market for Island growers of green beans is opening up this season as one of the Annapolis Valley canning plants of the Canadian Packers is currently buying heavily in this Province. Although details are not complete it is believed that approximately 100 tons may leave here before the Fall. The first shipment moved out on Friday via the Wood Islands Ferry. Generally the early morning, packing them into bushel hampers and moving them by truck. If weather conditions are good it is planned to ship three truckloads a week from the King's County area. They would cross the Strait on the S. P. M. sailing on the early morning, packing them into bushel hampers and moving them by truck. The following morning.

Coming Events

- **See "Stratton Story" at Hunter's River, tonight.
- **Regular dance, Lot 65 Hall tonight. Burns Orchestra.
- **Dance, Belfast Hall, postponed from August 22nd to 29th.
- **Cleaning and buying timothy seed. John Leard, Craupaud.
- **Dance, Glenfanning School, Tuesday night, August 21st.
- **Dance, Iona Hall, Tuesday, August 21st.
- **Dance at Covehead Race Track, Tuesday, August 21st.
- **Chicken Supper, Bazaar, Dance, Vernon River Hall, August 22nd.
- **Reserve Thursday, August 23rd, Ham Supper in Annandale Hall.
- **Dance, Kozzy Hall, Georgetown, Wednesday, August 22nd. Refreshments served.
- **Come to the Ice Cream Social in Stanchel School, Tuesday, August 21st.
- **Dance in Point de Roche School, Tuesday, August 21st. Burke's Orchestra.
- **Notice—Buying live poultry every Monday. Highest prices. S. C. Green, Emerald.
- **Chicken and Ham Supper, Dance, New School, Gowan Brae, Monday, August 27th.
- **Anniversary Supper Valleyfield Church Hall, Wednesday, August 22nd, 4 to 10 P. M.
- **See "Sleeping City", plus Serial at MacDonald Bros. Theatre tonight.
- **Buying live poultry every Tuesday, 3 until 12. R. L. Dickson, New Glasgow.
- **Dance with Ice Cream and Cake, Tracadie Hall, Friday, August 24th. Burke's Orchestra.
- **Dance every Tuesday night, Stanley Bridge Rink Hall music by George Chappell's Merry Islanders.
- **Ice Cream and Dance, Souris Line Road North School, Wednesday, August 22nd. MacCormack's Orchestra.
- **Buying Poultry every Thursday forenoon. Highest market prices. E. J. Taylor, Bredalbane, Phone 6-21.
- **Pantry Sale at Tupper Taylor's Store, North Granville, August 22nd. Sponsored by Women's Institute.
- **Farmers, ask about the Shurr Gain Feed Finance Plan. For particulars contact your local feed mill.
- **Annual Parish Chicken Supper at St. Margaret's Hall, Wednesday, August 22nd, commencing at 6:30 P. M.
- **Ice Cream Social, French River Hall, Wednesday evening, August 22nd. Sponsored by Women's Institute.
- **For Snapshots that will not fade mail your films and negatives to Garnham Photo Studios, Charlottetown.
- **His Worship Mayor Macdonald has drawn the lucky ticket on a hand-made rug. The lucky number was 783.

Rivalry Flares Between Areas In N.B. And N.S.

OTTAWA, Aug. 20—(CP)—The army's search for a vast year-round training area about half the size of Prince Edward Island is stirring political headaches for the Government. The aim is to pick the area—more than four times the size of the army's biggest camp now—in the Maritimes if a suitable region can be found there. But the job of selecting the region has stirred rivalry between New Brunswick and Nova Scotia. Political pressures from both provinces are building up as the army goes through the job of reporting on which area, if any, it feels would be most appropriate. Maj.-Gen. H. A. Sparling, vice-chief of the general staff, returned here during the week-end after inspecting likely areas in the two provinces. He will report to Defence Minister Claxton. The project, once launched, will cost millions of dollars. Two areas, one in each Province, appear to be the main ones in the running now. They are:

1. New Brunswick's Camp Utopia area in the southwest corner of the Province. The camp operated during the war as a training base but, of course, its size then was small compared to what the army wants now.
2. Nova Scotia's Yarmouth-Sheburne-Digby area in the Southern end of the Province.

The ideal area sought by the army would be roughly 50 miles long and 15 to 20 miles wide. This would give room to train twelve brigades in use of all their arms and could even be used for divisions. An area 50 by 20 miles would be more than five times the area of the Waterville, N.S., Camp, now the army's biggest. It would be eight times the size of the P.E.I. camp and nearly half the size of P.E.I. It is quite possible, however, that an area less than that will have to be taken. The area chosen will give Canada her first year-round training base for a large formation.

Government Vacating Old Garage For New; Horne Motors To Move In

The big new Provincial Government garage at Kensington beach will be put into use a bit sooner than expected due to last Saturday's fire. The old garage building on Fitzroy Street has been acquired by Horne Motors, Ltd., one of the fire victims, who will move in as soon as the premises can be vacated. Work will start this morning on the task of moving all the Government motor equipment to the new quarters, but the job is not expected to be completed for one or two weeks. A lot of the time-consuming task will be necessarily devoted to the moving, sorting and rearranging of the many spare parts carried in stock. The Government's new garage, a spacious building 235 feet long by 160 feet wide, is completely modern. Equipped with steam heat, a new large boiler was recently installed as well as the heating unit, the building will also have comfortable modern wash rooms and showers for the convenience of the workmen. It will have two small rooms designed as a general office and a parts office, although most of the clerical work will be done in the Department of Public Works offices. There will also be a specially designed air-raid room for the storing of snow plows when they return to the garage after winter snowfalling. Insulated and built to hold extreme heat the room will quickly melt snow and ice from equipment. The wide front doors on the garage will let the equipment not in use to enter easily. They are 27 feet wide by 20 high.

Tourist Traffic To Maritimes Heavy

ST. STEPHEN, N. B., Aug. 20—(CP)—With the summer tourist season nearing an end, indications are that the number of visitors en masse to the Maritime Provinces through this border town will be record. During the first 18 days of August the total reacted 218,660 as compared with 167,061 in the corresponding period last year.

Sightseers Barred On Princess' Birthday Eve

BALMORAL, Scotland, Aug. 20—(Reuters)—The King and his men successfully resisted the siege of Balmoral Castle tonight on the eve of Princess Margaret's 21st birthday. The ironing gates of the King's Scottish estate opened. *Buying Timothy Seed daily. McGuigan and Boyle. *Dance at Gordon Lodge every Friday night. Music by Robichaud. Dancing 9 to 1. *Annua. Chicken Supper and Bazaar at Orwell Hall, August 21st. Sponsored by St. Andrew Ladies Aid. Supper served 6 to 10. *Dance at Elmwood School Wednesday, August 22. Sponsored by Kingston Branch Canadian Legion. Good music and canteen service. *Legion Dance, North Rustico Hall, every Wednesday. Dancing from 9 until 1. Canteen served. Music by George Chappell and his Orchestra. *Annual Lobster Supper, St. Mark's Church Grounds, Lot 7, Tuesday, Aug. 21st. Please remember the date. Supper starting at 4:30. Games and other attractions. *Come to the old time bar dance, Tuesday night at Fenner Stewart's, Brackley Beach. Good music. Dancing from 9:30 to 1:00. Bus leaving I.M.T. terminal at 9:30. *Fills, Malpeque Hall, Wednesday, August 22nd, 8:30 P. M. Sponsored by the Sea Crest Golf Club. Sale of ice cream and candy. Plan to attend and assist the Golf Club members. only to admit a hairdresser, a handful of intimate friends of the royal family, and men bringing a giant pink-iced birthday cake. Newspaper men, photographers and thousands of tourists stood on the slopes of the purple hills staring blankly at town walls barring an interested world from what the King insists should be strictly a private affair. Detectives and members of the royal household have ensured that the royal request is obeyed. Outsiders had seen only fleeting, distant glimpses of the petite Princess with the sparkling personality. The four local folk who live along the River Dee have also bowed to the royal wish. There will be no dances in village halls, no bonfires on the slopes and hilltops overlooking the castle. Cameron have waited vainly for days for a 21st birthday picture of Margaret. The 30-round birthday cake arrived by rail from London. It is two feet in diameter and 18 inches high. Its 12 sides are decorated with the signs of the zodiac in cream marzipan. The round panel showing Margaret's own sign, Leo the Lion. On top is the Princess' personal standard in colored sugar. The cake is decorated also with silver candles, roses and thistles. From early morning today curdles, bespattered with tartan gear-gaws, crowded Balmoral railroad station to watch guests arriving for Balmoral. Most publicized guest to turn up was tall, polo-playing, Billy Wallace, 24, son of Mrs. Herbert Agar, wife of the American historian. A recent escort of the Princess, he has denied rumors that their engagement would be announced at her coming of age.

Work Started On New Science Service Bldg.

Although it may not rise Phoenix-like from the ashes of the old, the proposed new Science Service Building of the Dominion Experimental Farm will be one of the most modern structures of its kind in Eastern Canada. The wooden building in use until this year was completely destroyed by a serious fire last January 31. The new building will be erected on the Experimental Farm grounds on Malpeque Road on the corner of the first new cross road outside the City limits. Its overall measurements will be approximately 104 by 55 feet and it will be of two storeys with a completely finished basement ten feet deep. It will house the departments of plant pathology, entomology and possibly that of seed certification. The new structure will have 30 rooms, exclusive of cloak and check rooms and lavatories. Among other possible uses the large basement will take care of refrigeration needs and dark rooms for photographic purposes. Both the first and second floors will contain laboratories, offices and general utility rooms, while the top floor will also have living quarters for the caretaker. The building will be entirely of brick and cement block construction with brick exterior. Floors will be of tile and structural cement and the whole thing will be as nearly fireproof as possible. Excavation started last week, but no date has been given for completion of the work. The surrounding grounds will be thoroughly landscaped with flower beds and a horseshoe drive as part of the adornment. As little wood as humanly possible will be used to insure the fire-proof qualities as steel doors, steel door frames and steel window frames will be used. The trim will be of aluminum with cement stairs, plastic walls and acoustic ceilings. In some of the rooms there will also be acoustic walls. Overseeing the work at present is Mr. John R. MacKinnon, acting as clerk of works, who is the representative here of the regional architect of the Federal Department of Public Works, N. B.—P. E. I. District. The contractors are M. P. Schurman Co. Ltd.

Government Vacating Old Garage For New; Horne Motors To Move In

The big new Provincial Government garage at Kensington beach will be put into use a bit sooner than expected due to last Saturday's fire. The old garage building on Fitzroy Street has been acquired by Horne Motors, Ltd., one of the fire victims, who will move in as soon as the premises can be vacated. Work will start this morning on the task of moving all the Government motor equipment to the new quarters, but the job is not expected to be completed for one or two weeks. A lot of the time-consuming task will be necessarily devoted to the moving, sorting and rearranging of the many spare parts carried in stock. The Government's new garage, a spacious building 235 feet long by 160 feet wide, is completely modern. Equipped with steam heat, a new large boiler was recently installed as well as the heating unit, the building will also have comfortable modern wash rooms and showers for the convenience of the workmen. It will have two small rooms designed as a general office and a parts office, although most of the clerical work will be done in the Department of Public Works offices. There will also be a specially designed air-raid room for the storing of snow plows when they return to the garage after winter snowfalling. Insulated and built to hold extreme heat the room will quickly melt snow and ice from equipment. The wide front doors on the garage will let the equipment not in use to enter easily. They are 27 feet wide by 20 high.

Jet Plane Hits Truck Loaded With Soldiers

FORT DIN, N. J., Aug. 20—A jet training plane, fighting for altitude, roared into a truck full of soldiers at the edge of McGuire air base today, killing 10 men and injuring 20. The plane bounced off the truck and plowed on into a woods where the soldiers had been training. Both the truck and the plane caught fire. Army authorities said the two Air Force officers in the plane were killed. Eight soldiers died. More than 50 soldiers were in a clearing where the 9th Division has an outdoor training school. They had just finished the day's work. Cause of the crash was not known immediately, but some witnesses said the plane was in fire before it crashed.

Hurricane Death Toll In Jamaica Placed At 109

NEW ORLEANS, Aug. 20—(AP)—A tropical hurricane threatened to rebuild its power in the lower Gulf of Mexico tonight after plunging across the Yucatan Peninsula with 100-mile-an-hour winds. The same storm killed 109 persons four days ago in Jamaica and caused damage estimated at \$20,000,000. Communications on the peninsula about 650 miles almost due south of New Orleans, were down, and there were no immediate reports of the storm's damage. The peninsula, 180 miles wide, sticks 200 miles up into the Gulf on the Central American gooseneck connecting North and South America. The storm developed hurricanes power five days ago and has travelled 2,170 miles so far along a west-northwesterly path. It hit Jamaica Friday night and Saturday with 130-mile-an-hour winds that killed 109 persons and did damage of at least \$20,000,000 by tearing down on Grand Cayman Island, Cozumel Island east of Yucatan, Isla Mujeres and Merida. Seventy prisoners who escaped from Jamaica's penitentiary are being hunted. It was the worst storm Jamaica has felt in its 300-year history. Ninety per cent of the banana crop in some areas was blown down. Port Royal, near Kingston, reported that not one of its buildings escaped damage. LONDON, Aug. 20—(Reuters)—The birth rate for England and Wales for the first three months of 1951 totalled 176,269, lowest in nine years; provisional figures showed today. Marriages totalled 109,187 and deaths 206,771—both highest since 1940.

1st Battalion PPCLI Slated For Korea

CALGARY, Aug. 20—(CP)—The 1st Battalion, Princess Patricia's Canadian Light Infantry will be sent to Korea to replace the 2nd Battalion. It was learned today. The rotation is expected to be completed by Christmas. Lt.-Col. Norman G. Wilson Smith, commanding officer of the 1st Battalion, broke the news officially to 500 members of the unit at a special parade here today. OTTAWA, Aug. 20—(CP)—A shortage in cement is retarding non-defence home building. P. S. Secord, vice-president of Central Mortgage and Housing Corporation, said today in an interview. The situation is likely to become "more serious as the year progresses."

Loading Ramp Inadequate At Ferry Terminal

Trouble with the loading ramp at the Wood Islands terminal of the Northumberland Ferries Ltd. has been experienced recently, and Mr. R. E. Mutch, president of company, reports that he does not believe it is secured strongly enough for heavy loads. Mr. Mutch, who brought the matter to the attention of the local office of the Federal Department of Public Works, has been advised to take it up with the Department of Transport. Recently, he stated, the Department of Public Works erected a sign on the pier stating that the maximum load permitted on the ramp would be 15 tons. Last week a large truck heavily loaded with Island turnips on the way to the Boston market pulled into the terminal. Due to load regulations it was necessary for the truck operator to employ two other smaller trucks to take part of his load over to Caribou, reload the transport truck there and then return. Recently, Mr. Mutch remarked, there was difficulty with the ramp at Caribou when it would not lower into place properly. He notified the Halifax office of the Federal Department of Public Works and they had workmen on the way to repair it within 24 hours.

Veteran Soldier Dies At Vancouver

VANCOUVER, Aug. 20—(CP)—Col. Francis Easton Leach, 76, chief inspector of explosives for the Federal Government until he retired in 1944, died Sunday. A Boer War veteran, he was commanding officer of the 231st Battalion in the First World War.

ESCAPEE IN LEAKY BOAT

MALMO, Sweden, Aug. 20—(CP)—An East German family fled their Communist-ruled homeland in a leaky boat, were safe in Sweden today. The mother, father and four small children frantically pumped water out of their frail craft all Saturday night and were exhausted when they were picked up by a Swedish warship in the Baltic yesterday.

Forecast Rocket Trip To Moon Within 75 Years

By Alton L. Blakeslee
NEW YORK, Aug. 20—(AP)—Leading chemists predict cures for the common cold and polio-mi-osis, rocket trips to the moon, even guarantees of no rain at picnics. How soon? Within the next 75 years. What they see in the crystal ball of the future is told in the diamond jubilee issue of the American Chemical Society magazine, Chemical and Engineering News. The society celebrates its 75th anniversary at a meeting here Sept. 3-7. Prof. John C. Bailar, University of Illinois, foresees "cures for infantile paralysis, mental illnesses, allergies, the common cold and cancer, hardening of arteries and arthritis will be unraveled, adds Dr. H. B. Haas, General Aniline and Film Corp., New York. "At least one man will have circumnavigated the moon and returned safely"—Dr. C. C. Furnas, Cornell Aeronautical Lab., Inc., Buffalo. The first moon rocket won't be manned, says Dr. A. V. Gross, Research Institute of Temple University. "It will be easily observed as it struck the moon by the flash of magnesium in its head." Liquid hydrogen and fluorine will be a close competitor of atomic energy to drive rockets. "Not only making rain but preventing it will be an established practice," assuring sunny picnics—Dr. Gustavus J. Esselen, U. S. Testing Company, Inc., Boston. Automobiles will be of weight-saving plastic-metal combinations, says Prof. H. Mark, Polytechnic Institute of Brooklyn. "Housing will make substantial use of synthetics—all piping will be plastic; most roofing and siding will be coated fabrics. . . Foods will be built up synthetically, and economically, from carbon dioxide, water and ammonia with the help of the sun's energy, Dr. Gross thinks. Prof. Harry N. Holmes, Oberlin College, says sawdust will supply cellulose to produce more beef than farm acreage alone can do.

Feud In Isolated Shack Brings Death To Trapper

FORT WILLIAM, Aug. 20—(CP)—A trapper who moved uninvited into a retired gardener's home died Sunday in the climax of a two-year feud during which the two maintained separate living quarters in the same isolated shack in a remote section of northwestern Ontario. The trapper, Arnold Crocker, 35-year-old native of Sackville, N. B., chopped a three-by-four foot hole in the roof of Harry Shymick's room Saturday night. The 71-year-old recluse warned Crocker to stop, but the chips continued to fly. Shymick today told how he fired his 22-calibre rifle through the hole in the roof. Crocker fell off, a bullet wound in the back of his head. Shymick, stooped and forced to use a cane because of arthritis, walked six miles east along the abandoned Trans-Canada Highway to White River, 300 miles east of here, to report the shooting. Dr. J. Houston drove to the cabin, took Crocker, still alive

Reds Demand Early Explanation But U. N. Blames Korean Civilians

By Don Huth
MUNSAN, Korea, Aug. 21—(Tuesday)—(AP)—Korean armistice efforts were tightly snarled today by a neutral-zone shooting, which the Communists blamed on the Allies but which the United Nations command attributed to Korean civilians trying to sabotage the Kaesong conference. The Sunday morning shooting in which a Chinese Red patrol leader was killed east of Kaesong, drew a strong demand from Lt.-Gen. Nam Il, senior Red delegate for a "satisfactory reply" at once. Gen. Matthew Ridgway's headquarters in Tokyo issued a statement Monday night that there had been no allied troops in the area. Joint investigation by Allied and Red liaison officers "failed completely to identify the armed bands as belonging to any United Nations command military formation," Ridgway's headquarters said. Another sub-committee meeting was set for 11 a. m. today (9 p. m. EDT Monday). MUNSAN, Korea, Aug. 21—(Reuters)—Olivia Binfield claimed today that Peter, her 25-year-old Manx cat, is the oldest cat in England, and possibly in the world.

North Koreans To Blame

The U. N. command delegation in Korea suggested the shooting was done by North Koreans trying to break up the armistice talks. The statement from Tokyo headquarters said the attackers may have been civilian guerrillas with that purpose but left open whether they were North or South Koreans. However, there had been no formal answer yet to the Communist charge, pending further inquiry. The South Koreans have consistently protested any settlement leaving Korea divided, and there have been many indications that the North Korean Reds also want everything or nothing.

Capitalize On Incident

While the neutral-zone dispute remained up in the air, the Reds appeared intent on capitalizing on the incident. An elaborately-staged "people's" funeral at Kaesong was held by North Koreans and Chinese for the Red patrol leader who died. Allied correspondents who attended the services by special invitation said the funeral was conducted in an "almost carnival atmosphere" before Communist movie cameras. Another bizarre Red propaganda note was disclosed during the day. Front-line Chinese Red Troops have been sending notes to Allied units inviting them to make an informal armistice of their own under a white flag. The notes suggested a "friendly party" be held in no-man's land. These developments overshadowed the fourth meeting of Communist and Allied two-man sub-committees Monday at Kaesong. No visible progress was made at the 70-minute session—shortest yet held.
