### DON'T PART THEM.

Sir.—Your correspondent truly says that the Liberals should have nominated Johnny Quinn with Councillor Whear to make the Liberal ticket complete for the city. 'Tis a pity to separate these two pillars of the great Party of Purity. They have been together so long and run so many elections for the Premier they should have been nominated to contest the city of Charlottetown together. I am quite sure the electors would soon elect Mr. Quinn as Mr. Whear to look after their interests.

The manner in which Mr. Whear handled the electric light contract for the city is a strong recommendation in his favour and no doubt is deserving of the confidence of the electors of the city.

Perhaps Mr. Whear will now take the electors into his confidence and tell them why the contract was given to a foreign company for an inferior service at \$1,500 over the tender of the local Electric Light Company. That the manager of the foreign company is a good Liberal and a strong party worker of course would have nothing to do with the matter. However, I suppose this is his reward for his past labors for the party and for his operations at North Rustico during the Wise-Douglas election, and of a more recent date, the eve of the Dominion elections, when he and a certain county Stipendiary Magistrate operated in the same poll during the dead hour of the night and roused the electors up out of their beds to try and persuade them with his accustomed methods to vote for the discredited Attorney General. Surely the people of Charlottetown will never give this man their support and place their interests in his hands. He and his colleague should be at the foot of the poll on the 12th prox.

### DAVID KETCHEM

I would run the old jail out of the city. In the first place it is not fit to house even criminals in, and year after year the Grand Jury go through the farce of reporting on it. What good did ever a Grand Jury's report do? Is it the fault of our Court or Government that these reports are ignored year after year?

We will see now how the Guardian will show its independence and its

temperance principles by supporting temperance or rum and boodle.

I would stop all canvassing and fine any man that offered or accepted a bribe and disqualify for life the man that accepted the bribe.

I would reform our present legislature by reducing the members to twelve, that is two for each riding and one extra for the city; then one for the whole Island, that one to be chairman or premier.

Our road management I would wipe out entirely, because at present the spending—or rather the throwing away of the road money—is put into the hands of men who are in many cases not fit for the work, and in some cases use it for political purposes and sometimes worse.

I want to know if you (Mr. Editor) are trying to find out from the Premier how the finances of the province stand up to November 1st.

DAVID KETCHEM.

### WOLVES AND FOXES IN CHINA.

(From Forest and Stream)

The opening up of China which seems likely to follow the present occupation of Peking by the allied forces will probably wipe out the last great game preserve in the world. It will be surprising to many to learn that not

### ASTHMA FOR SEVEN YEARS

And for Three Months Previous to Taking  
Clarke's Kola Compound Could  
Not Work a Day.

DOCTORS PRONOUNCED HIS CASE INCURABLE—NOW COMPLETELY CURED.

Clarke's Kola Compound has brought more genuine happiness to thousands of Canadian homes than any other medicine ever known. It is curing Asthma, a disease hitherto considered incurable, and bringing perfect health to thousands of one-time sufferers from this most dreaded disease.

Mr. Matthew Frost, of Port Arthur, Ont., C.P.R. employe, writes: "For over seven years I have been a most unfortunate sufferer from asthma and bronchitis. Many times for weeks I could not sleep other than sitting up in a chair, and for three months previous to taking Clarke's Kola Compound I could not work a day. Our doctors said they could do nothing for me, but give a little temporary relief. I was becoming weaker all the time. A sincere friend brought me a bottle of this grand medicine (Clarke's Kola Compound), and in less than two weeks I was back at work again. I took in all four bottles during two months and have not lost a day's work since, nor have I had the slightest symptom of the disease." This letter is also certified to by Mr. W. J. Clark, Port Arthur's leading druggist. Clarke's Kola Compound has permanently cured thousands of asthmatics. Sold by chemists everywhere, 20¢ per bottle, three for \$5.00, or sent on receipt of price by The G. and M. Co., Limited, 121 Church street, Toronto. Send for Book on Asthma.

withstanding the enormous population of China and the early invention and use of firearms in that country it is today the best stocked with the game of any country in the world. In the plain about Peking, where the villages are so thick that the population exceeds 2,000 to the square mile, wolves, raccoons, foxes and weasels are so thick as to be pests. The wolves particularly are so numerous and fearless that no winter passes without a great many lives being lost. All Chinese villages are surrounded by mud walls for protection from bandits and prowling animals, and it is customary to paint large white rings on these mud walls in order to frighten the wolves away. The Chinese explain that the wolves either take the rings to be traps, which they avoid or else to be the rising sun which causes them to slink back to their lairs. During the summer the Chinese villagers are too much engaged in gathering their crops to attempt much in the line of exterminating the pests. But wolf hunts are quite common in the winters. The villagers beat out the fields and drive the wolves into pits or caves, where they are dispatched with swords and pikes. It is a common thing in all parts of China even the most thickly populated, to see wolves trotting along the roads or crossing from cover to cover.

The reason that foxes are so numerous is that the Chinese, who believe in the transmigration of souls think that human spirits prefer to go into foxes rather than into any other animal. Consequently they never kill foxes for fear they may be injuring some departed spirit.

—There will be a convention of the Eldon Sunday School District in the Baptist Church at Hazelbrook on Thursday afternoon and evening, November 29th. All Sunday schools of the district, including Lots 48, 49, 57, 68, 60 and 62 are requested to send delegates. The field secretary, Rev. G. P. Raymond, will be present to speak on the different phases of Sunday school work. It is expected that papers and addresses will be given by the Sunday school workers of the district. A silver collection will be taken at the evening service for the Provincial Association.
