Haszard & Moore,

PRINTERS, BOOKBINDERS,

AND
BLANK BOOK MAKERS.

Our Motto: Best Workmanship and Lowest Prices.

STATIONERS! A Complete Stock of PLAIN and FANCY STATIONERY, at prices that cannot be beaten.

Headquarters for Books of all kinds.

SCHOOL BOOKS! SCHOOL BOOKS!

Charlottetown, January 6, 1891—w f s

NOTICE!

On account of the great increase of our Furniture Business, we find we require the exclusive use of our Machine plant for the manufacturing of our own stock. Consequently we are compelled to discontinue doing Custom Planing, Band Sawing, Turning, e'c., and we desire to thank our many patrons who have favored us with this class of work in the past.

We are now splendidly fitted up for manufacturing Furniture, School Desks, Pew Seats, etc., at remarkably cheap prices and in good workmanship manner, and invite comparison of prices, styles, etc.

MARK WRIGHT & CO., LTD.

NORTON & FENNELL,

Charlottetown, Dec. 3, 1890—2aw and wky

City Hardware Store.

LETTERS TO THE EDITOR.

Protect our Game.

SIR,—It goes without saying that our game and fish are fast becoming extinct, and that P. E. Island will soon cease to have any attraction for what we may call the sporting tourist. This, of course, means a yearly loss to the Province, (and not a small one either) in hard cash.

Sportsmen, even if they do not come in large numbers, are one of the best kind of advertisements to and for all classes of tourists.

Apart from the protection of game, etc., it is more apparent each year, that there should be some regulations made and strictly enforced as to the carrying and use of firearms. In nearly every section of this Province, boys (some of them not more than nine or ten years of age) may be met on the public roads, carrying loaded firearms of all kinds, from the small revolver up to the old flint musket.

I think it may safely be said that a year scarcely or ever passes, without damage done to life or property by firearms at the hands of irresponsible persons. The law for closed time, &c., for the various kinds of game is seldom enforced, and outside a few sportsmen, is little known and less regarded.

Now, in addition to the strict enforcement of the closed seasons for game, &c., I would suggest the passing of an act by the Legislature to license the carrying of a gun, or in fact, any kind of firearm. A small sum for the license and penalty for shooting without, would, I feel sure, protect in a great measure the young and immature game, and also abate the firearm nuisance.

Would it not be a good idea for the Fish and Game Society to call a convention of sportsmen and others interested to take this matter into consideration and to petition the Legislature on the subject.

Yours &c. SHOOTER.

Prince County.

Queen Square.

SIR,—The poor ye shall always have with you; blessed is he that considereth the poor." So reads the Good Book.

I am glad to see Charlottetown so nobly trying to earn this promised blessing. Already our good Oddfellows and grand old Caladonian Club have realized large amounts for the poor of the city; and now a charity ball at the Hotel Davies is on the tapis, and bids fair to be a great success.

Now Sir, how about the distribution of these moneys? That it should be handed over to strong, able-bodied men (although poor) I do not think right; but let them be employed, give them a good day's pay for a good day's work. What shall we put them at? Is it necessary to ask. My answer is, Queen Square.

Procure twenty good shovels, likewise twenty poor, but strong men (fifty could easily be raised this severe winter), fall into line at the Post Office, and now divide them into two's, facing all points of the compass. At the word ready, let every man bend his back to the shovel and open up the many sheep tracks which now lead to and from our business centres, and so for the sake of common respectability let us have a path wide enough to pass a brother in distress. How do we manage now? Just this way for days after a snow storm: Either jump off the track into snow up to the waist (if you are small of stature), shove the passer-by out of the way, or as the good old goat, lie down and let your friend, or enemy, walk over your prostrate form. But really, Mr. Editor, only those who many times daily travel this garden of two governments have any knowledge of what a snow fight it is. Thanking you for space, and hoping the distributors of these moneys will use some such method in employing those out of work in our midst.

Yours,

A QUEEN SQUARE VOYAGER.

Kelly's Cross Notes.

Quite a number of our young people attended the Carnival at Victoria on the 29th ult. They report it a grand success.

Our school is doing good work this winter. There is a very large attendance in both rooms. Mr. J. H. Devereux teaches the advanced, and Miss Regina Monaghan the primary department.

Much praise is due to Mr. Kiggins, our active mail carrier, for having delivered the mails so punctually this winter, notwithstanding that he had to contend with bad roads and stormy weather. We hope to see him getting the contract for the mail-carrying next year.

Our Debating Club has entered upon the second year of its existence, and, judging by the interest taken in it by the members, it will prove of much good to the district. The following gentlemen have been elected officers:

President—John Bradley.
Vice-President—Edward McIsaac.
Rec. Sec.—Mark A. Smith.
Fin. Sec.—Jas. H. Devereux.
Treas.—Michael McDonald.
Executive Committee—Charles McKenna, John Smith and Francis Monaghan.

On Thursday, the 29th ult., the club discussed the subject, "Which would be the better for Canada, Free Trade or Protection?" The able arguments brought forth by the speakers on both sides show that they take a deep interest in the welfare of their country. A vote being taken, it was found that the majority favored protection.

FREE TRADER.

DIED.

At Grand Tracadie, on Thursday, Jan. 29, after a lingering illness, William H. Bennett, of Gloucester, Mass., formerly a native of Bradley Point, P. E. I., aged 35 years, leaving a wife and five children to mourn the loss of a kind husband and loving father. The deceased left the Island in his seventeenth year, and resided in Boston till about thirteen years ago when he removed to Gloucester, Mass., where he remained till last fall, when ill health brought him back to his native Island where he remained until his death. [Gloucester papers please copy.]

Professor Shuttleworth at Crapaud.

Professor Shuttleworth lectured in Crapaud Hall on the 31st January, 1891. John Moore, Esq., occupied the chair and the undersigned was requested to act as Secretary.

The Hall was comfortably filled by representative farmers from different sections, viz: Lots 28, 29 and 30, all of whom appeared to take a lively interest in the proceedings of the meeting.

The Professor having been introduced, made a few preliminary remarks, intimating that one of the farmers present would claim their attention for a short time, as he had a paper which he preferred to read and upon consent, the chairman from his place read a well-prepared article on dairying, horse-breeding and roots crops generally, which was very well received by the audience amidst some applause.

Prof. Shuttleworth then came forward and said that the subject to which he invited their attention would be the plants, and to his subject he was fully alive. He spoke for upwards of an hour on the different productions of the farm and submitted tests of carbonic acid, etc., which were very interesting. He also explained the effect of different roots on the soil, the necessity for good cultivation and an ample supply of manure.

The chairman, in offering some objections to the raising of sheep on the farm, said that there was no profit in such stock, but strongly recommended attention to dairying, and claimed that it cost as much to winter five sheep as it does for one cow, the yield of which would be equal to \$25, while five sheep were worth not more than \$15.

Mr. W. C. Lea objected to the theory, but highly approved of mixed farming.

Mr. Wm. Patrick fully agreed with Mr. Lea's remarks, and also recommended seeding down with lime.

Hereupon Mr. W. C. Lea observed that he had put him over a field, except one ridge in the centre which had no lime, and that he could never see any difference in the crop.

Professor Shuttleworth explained that in the making of compost the farmers should use less lime than manure, and the meeting was brought to a close.

A vote of thanks, unanimously carried, was tendered, to which the Professor replied in a very courteous manner, and said that he hoped to visit Crapaud at some future time.

O. B. WADMAN, Secretary.

It is the general opinion here that the Government have moved in the right direction by procuring the services of Professor Shuttleworth; and we believe we voice the sentiments of the farmers generally when we say that his services will be a great boon to the Province at large. And we would here suggest that the farmers of Crapaud and other places do form themselves into clubs and meet once a week for mutual improvement and instruction in agricultural pursuits.

Personal.

The Rev. Dr. Doyle was in the city yesterday, returning from the west.

The Rev. Father Burke was in town yesterday.

The 1, 2, 3, 4, 5.—The Canadian Fireside Week is out with another grand prize competition to increase its circulation, in which 300 valuable prizes are offered. This is no puzzle or trick, and requires no searching in dictionaries or books of any kind. It is ingenious, but simple, and has never before been offered by any paper. A child of eight can win as easily as a college professor. Among the prizes are bicycles, tricycles, \$100 cash, furniture, silverware, jewelry, summer trips—prizes for men, women, boys and girls, 300 in all. Send at once 5c for sample copy, with full particulars and list of prizes, to 9 Adelaide street west, Toronto, Ont. Mention this paper.

OBITUARY.—We regret to learn of the death of Mrs. George Moar, which took place at her home at Moara on, Georgetown Royalty, on Monday afternoon. Mrs. Moar underwent an operation for cancer at the City Hospital last spring, but as the disease was too far advanced, and after much suffering, this estimable lady passed peacefully to a better world. Mrs. Moar was the wife of George Moar, Esq., ex-M. P. P. for Georgetown, and enjoyed the love and esteem of the whole community in which she lived. The funeral, which took place yesterday, was very largely attended. We sympathize with Mr. Moar and family in their heavy loss.

SIR PHILIP MILLER, the great English horticulturist, writing in 1740, says: "The best method to have cabbages good is to procure fresh seed from abroad every year, for it is apt to degenerate in England in a few years." The above is a simple illustration of the fact that the best seeds will rapidly degenerate under unfavorable conditions. The wise will take heed, therefore, and buy their seeds of D. M. Ferry & Co., Windsor, Ontario, whose world-wide reputation as the best and most reliable, as well as the most extensive seed growers and dealers, is due to the fact that they take advantage of every circumstance of climate, soil, methods of culture, selection of seed-plants, etc., to procure the best possible seeds and keep them up to that high standard. Send your name to the firm's address, and you will receive a copy of their Seed Annual for 1891, free. feb3dli wlm

Dyspeptique—Is not a palliative, but a cure; it first relieves, then controls, and finally entirely subdues the irritation and inflammation of the stomach that causes indigestion and dyspepsia.
