THE DAILY EXAMINER.

JULY 17, 1894.

THE APHIS.

THE splendid prospect of the crops has suddenly become overcast by reason of the reappearance of the aphis. This pest has attacked the growing oats,both white and black, and also, in a lesser degree, so far, the barley, There seems to be no means of grappling with it upon a large scale. Mr. Richard Burke informs us that he is using emulsion of turpentine upon turnip seed plants (of which he has four acres this year) with greater success than followed the use of kerosene oil or anything else that he has applied. But it is manifestly impossible to apply this or any other specific over thousands of acres of growing crop. We can only hope that the weather may not prove favorable to the increase of this destructive insect, or that, as last year, a storm of wind and rain may come up to blow or wash it away. Between the aphis and the potato bug our farmers—particularly those who depend for the most part upon oats and potatoes—are having an anxious time of it. They have the hearty sympathy of THE EXAMINER.

AN OBJECT LESSON.

WHEN the United States Congress placed a duty upon tin plate there was a great out-cry. It was said that this duty would always be added to the price of tin plate and every article manufactured therefrom would be increased. The workmen were appealed to, the housewives were appealed to, that their dinner pails and their kitchen utensils would be made to cost more by this duty. These prophecies were made only three years ago; yet three years has been a sufficiently long time to show their fallacy. The Anglo-Swiss Condensed Milk Company, of Middletown, N. Y., use large quantities of tin plate. It recently submitted a statement showing the amount paid for plate in different periods.

In the first period, namely, forty-three months without any duty, the highest price paid per box was $6.21, and the lowest price $4.97, the average being $5.66, which, added to the freight of 7½ cents per 100 pounds, made the average cost $5.74 per box of 112 pounds at the factory. In the second period, the duty being on, but the industry not very well established, for imported tin plate, the average freight being included, the cost was $5.77. In the third period the company used largely domestic tin. Altogether they bought 1,131 boxes, and the cost of that tin delivered at Middletown, freight paid, averaged only $4.86 per box, or 88 cents per box less than the average before the duty went into force.

END OF THE GREAT STRIKE.

THE end of the great strike in the States is satisfactory to everyone except a comparatively few faddists, fools and knaves. The honest operatives concerned are glad to get back to work again and be in peace, even at lower wages. The capitalists concerned are relieved of great anxiety for their property. The nation concerned must be glad that anarchy has been defeated at the loss of only a few lives and a small sum of money, as compared with all the blood and treasure which must have been expended had the struggle been prolonged. The whole civilized world is to be congratulated upon the triumph of the forces which preserve order and discipline; for if the strikers had succeeded, their example would probably have been followed by discontents in other nations.

Several causes contributed to the defeat of the strikers. First, there was the clear and business-like statement of Mr. Pullman, which set forth that the reduction of wages was wholly due to the depression of the times, that the workmen were not compelled to live in his houses or pay excessively high rents to him, and that having many hundreds of thousands of dollars in the banks they could not, as a class, be merely slaves of his will—merely contributors to his wealth. A second cause was the prompt and courageous measures adopted and carried out by President Cleveland; and a third lay in the fact that the majority of the Great Republic frowned upon the disturbers of industry and peace. It is reassuring to have still another proof that the great American nation, however subject to occasional aberrations, is still sound at heart and ready to support, at any cost, the forces which maintain order and inure to individual and national prosperity. The good sense of the majority in the States holds fast by those old principles to which the greatness and wealth of every great and wealthy nation have been due. One of our contemporaries, a few days ago, sneered at "duty" and "obedience" as the seventeenth century ideas of THE EXAMINER. This sneer betrays either ignorance or carelessness, as well as obliquity of moral vision. These are not seventeenth century ideas. These "ideas" are as old as civilization. They were followed many hundreds of centuries ago in Egypt and Greece; they were the corner-stone of Roman civilization, and are at the bottom of the greatness of England. It will be bad for the United States or any other nation that loses sight of them; for public order, peace and prosperity are dependent upon adherence to them. "The path of duty" is the only road to individual and national greatness.

Now that duty and obedience have been vindicated in the States and order re-established, it will be but right to correct, as far as possible, the ills of which the workmen complain. Little account will, of course, be taken of the complaint that railway engineers cannot travel in Pullman cars except as ordinary passengers, or that all railway employes cannot have Pullman passes. Nor will it be possible to raise wages beyond the mark which employers can afford; for wages are, like other commodities, governed by supply and demand, and must go down in times when there is little to do and many to do it. But the position of the workmen may perhaps be improved in other directions and in accord with the spirit of justice and Christianity. It may be, too, that workmen in the States and elsewhere will, as a result of the unsuccessful strike, take to heart the lessons of prudence, and be more careful and economic[illegible]etter position to bear the [illegible]d times, in the future tha[illegible] in the past.

—Mr. [illegible] Plant is spending a few days here. It is to be hoped that the Government and our representative men, generally, will not fail to afford Mr. Plant special opportunities to inform himself concerning the advantages presented by Prince Edward Island as a summer resort. As Manager of the Plant Steamship Lines in the East, Mr. Plant has, of course, an interest in the development of this as well as other points by the sea. We learn that he has already been favorably impressed by the beauties of this Gem of the Northern Sea, and we trust that he will be induced to deepen his interest in the Province.

SUMMER AMUSEMENTS.

A nice, pleasant sail up East River on the steamer Southport, leaving Ferry Wharf at half-past ten and two o'clock to-morrow. Be sure and attend the picnic.

Lieutenant Governor Howlan took Captain Wilson and a party of officers of the "Canada" and a few friends to Dunk River yesterday. The party enjoyed themselves fishing during the day and returned by the evening train, well satisfied with the day's sport.

Those who desire a pleasant outing—and their name is legion—should make a point of attending the tea party at Alberton to-morrow. The games and amusements usual on such occasions will be provided, and the various tables will be well looked after.

The Summer School of Science excursion in the Jacques Cartier last evening was a most enjoyable affair. The night was fine and clear, and the moon shone brightly over the placid waters. A band of music added considerably to the enjoyment of the occasion. The steamer returned to the wharf about ten o'ctock.

SUPREME COURT.

GEORGETOWN, July 17.

THE Supreme Court met this morning. Mr. Justice Hodgson presiding. Following is a list of the Grand Jury:—James Clow (Foreman), Geo. Dingwell, William Coffin, John Parker, John A. Dingwell, Geo. B. Goff, Michael D. McDonald, Wm. Underhay, Geo. Moore, Cornelius Poole, Bernard McGougan, John McKinnon, Donald A. Campbell, Patrick Manning, Richard Barret, George McDonald, Wm. Thompson, J. McWade, J. M. Aitken, Robt. Cox, Angus McLean.

His Lordship addressed the Grand Jury in a very eloquent manner. There are no criminal cases this term.

THE Summer School of Science will hold no session this evening, so that the members may attend the Free Memory Lecture by Prof. Loisette at the Opera House.

BEFORE THE COURT.—Yesterday afternoon, Wellington Matthew had William Rodd, of Bluefield, summoned before H. James Palmer, Stipendiary Magistrate for Queen's County, to answer a charge of obstructing him in the discharge of his duty as hog reeve. The case stands over until Thursday next for further evidence.

Mr. Matthew also had William Henry Rodd, father of William, summoned for assault. This case was also ordered to stand over till Thursday for additional evidence.

Bernard Crcken, of Emerald, was summoned for a first contravention of the Canada Temperance Act. He failed to respond, however, and a warrant was ordered to issue.

Two more informations have been laid against persons charged with violating the Canada Temperance Act.

FROM BOSTON.—The steamer Florida arrived from Boston about eight o'clock last evening with a general cargo and the following passengers: Miss Eva Aitken, Miss Aitken, Robert Allen, J M Andrews, T C Applin, Mrs E Ashton, Miss Mamie Ashton, Miss L Beers, Mrs Daniel Burke, Miss A Campbell, Miss J F Campbell, Mrs Cobb, M Collins, Mrs Wm Corton, Wm Corton, jr Theo Costello, J F Clark, Miss Bertha Clark, Miss Florence R. TEA PARTY AND RACES AT GEORGETOWN.

(Special by Telephone.)

GEORGETOWN, July 17.

The tea party and races on the Driving Park here to-day are well attended. The weather is very warm. The tea tables, etc., are in the Drill Shed, and they are being well patronized. Excellent music is furnished by the Souris band.

The race track, excepting that it is a little dusty, is in good condition. Much interest is being taken in the races. The officials are T. B. Grady, Summerside (starter); D. Stewart, Georgetown; L. B. Miller, Charlottetown; D. Gillis, Dundas; J. Macdonald and J. H. Hooper, Souris; Geo. L. Poole, Lower Montague, distance judge.

The 2.50 class was the first called, the starters being Almont M., John L., Maisie and Campbell Boy. The first heat was easily won by Almont M., in 2.50¼, with John L. second, Maisie third and Campbell Boy fourth.

The second heat was won easily by Maisie, with Almont M. second and John L. and Campbell Boy distanced. Time 2.50.

Fairy, Fairy Queen and Lady Hilda were the starteas in the 2.40 class. Lady Hilda broke and the heat was decided as follows: Fairy Queen first, Lady Hilda second, Fairy third. Time, 2.40¼.

DIVISIONAL VISIT.

There are scenes in our lives that we never
forget,
That shine through the misty past ever;
Like beautiful isles encircled by green,
They glimmer across Time's wide river.

Memory will ever recall to Sons of Temperance the 16th day of July, 1894. Two parties started out from the capital—one, with carriages, under the leadership of Mr. L. W. Harris, the other, with a sailing yacht under command of Mr. W. N. Tanton. The sun was slowly setting in the western horizon. A delightful sail on the placid waters of the Hillsborough, and both parties safely reached the Hall of Ever Onward Division, Lot 48. A larger number than usual had assembled. An excellent programme was provided. Temperance and fraternal addresses were given by Rev. Mr. Turner, Messrs. Chappell, Harris, Rackham and McLean; singing by Messrs. Buchanan, Chappell and Miss Chappell; recitations by Messrs. A. Tanton, Jury and Miss Crossman. At ten o'clock the usual ode was sung, and the meeting closed in love, purity and fidelity. Another sail on the Hillsborough with moonlight upon the waters and we soon find ourselves under the protection of the guns of H. M. S. Canada. After the usual salute, and singing "God Save the Queen," we found ourselves once more on terra firma in our own loved Charlottetown, happy to meet, sorry to part, but happy to meet again. Prince Edward, Acadia and Pearly Stream Divisions were also represented at this visit.

GENERAL TELEGRAPHIC NEWS.

LONDON, July 14.—The American line of steamships has reduced the rate of steerage passage from London, Liverpool or Queenstown, to any American port of the company to 36 shillings, including outfit.

HALIFAX, July 14.—The tenders for the colt stakes promoted by J. W. Power, were opened to-day. Amherst offered $520 and Charlottetown $476. Halifax did not tender. The races accordingly will take place at Amherst on the 22nd and 23rd of August.

CONSTANTINOPLE, July 14.—After the earthquakes yesterday the wing of the military school building fell. Three students were killed, and 22 injured by falling timbers. At Abadazar,130 houses have fallen and 20 or 25 persons killed outright. The panic is unabated.

ST. PETERSBURG, July 15.—There were reported in this city yesterday 218 new cases of cholera and 69 deaths from the disease.

PARIS, July 14.—Many persons previously known as anarchists have written to the prefecture of police renouncing the anarchists and requesting that their names be erased from the list of suspects. The police say these letters show the wholesome effect of the popular belief that both chambers will pass the new anti-anarchist bill unaltered.

BOSTON, July 14.—The cruiser Minneapolis, on an official trial to-day, made an average of 23 05 knots, breaking all records, and securing for the Cramp ship building company a premium of $402,500 for excess above the specified speed of 21 knots. During the entire run not a hot journal or cross bearing showed itself, and the machinery worked magnificiently. The Minneapolis anchored to-night off Boston light. She will return to Philadelphia on Sunday morning.

WINNIPEG, Man., July 16.—Albert Ferte, assistant city controller, was arrested Saturday, charged with stealing city funds. His peculations seem to have been going on for several years, and were only discovered a few days ago by the merest accident. Only a hurried investigation has as yet taken place, but already shortages of seven thousand dollars have been discovered. Mr. Ferte was secretary to the sinking fund trustees and handles all moneys. He was prominent in church and society circles, and the trustees had so much confidence in him that they never thought an audit necessary.

NEW BRITAIN, Conn., July 15.—This town is in a stage of great excitement today over three deliberate incendiary fires which have occurred during the past 24 hours, and to-night an armed guard is patrolling the town. Three buildings, all barns, but situated in very dangerous localities, were burned. Two were destroyed Saturday night entailing a loss of $2,500, and five horses, and one to-night, valued at $1,000.

A Port William Mother Speaks of Lactated Food.

IT ALWAYS SAVES BABIES LIVES.

Mrs. E. G. Bishop, of Port William, N. S., is anxious that every mother in Canada should know the value of Lactated Food for young tender and puny infants.

Mrs. Bishop says: "One of my little ones was very near death. For its sustenance we had tried various foods without any good results. At last my doctor advised me to use Lactated Food, and I feel sure it was the means, under God, of saving my child's life."

During the present hot weather thousands of babies are in a half dead condition They are not being fed with life-giving, nutritious and strengthening food. Every mother should know that Lactated Food shows its grand superiority and health-giving powers in the hot oppressive weather. It makes weak and fragile babies strong, and enables them to sleep peacefully and contentedly.

If you are not using Lactated Food, mother your child's life is in danger.

Dress goods may have intrinsic merit, and yet lack the possibility of perfect draping. Without perfect draping it is in vain that the goods are costly, or the modiste Parisian. The draping is the charm which gives grace to a woman. There is one particular in which Priestley's famous dress fabrics stand unrivalled. It is universally known that they wear better than other fabfics, but they drape with a grace which endears them to the aesthetic sense of every fastidious woman. Ladies should remember the trade mark "The Varnished Board" on which each piece of Priestley's dress goods is rolled. ......

DOUBLE COLLISION AT SEA.

The Steamer Stamford Badly Injured.

BOSTON, July 17.

The steamer Stamford, coming from Plymouth this afternoon, during a dense fog, collided with the British steamer British Queen from London. The Stamford received slight damage, and continued on her way to Boston at quarter speed. In the vicinity of Long Island the steamer Kennebeck, for Bath, suddenly loomed up. Before a collision could be averted she crashed into the Stamford, striking her on the port side near the paddle box, cutting through the guards, tearing away the paddle box and listing the steamer badly. The passengers of the Stamford were transferred to the steamer General Lincoln.

Another Strike Tragedy.
