**Eggs and Poultry**  
Although weekly reported egg receipts show considerable fluctuation, this is believed due to road conditions which have been interrupting regular deliveries of eggs rather than to actual egg production on Prince Edward Island. In general, receipts are increasing although figures at end of April 1949 and 1950 show a 15 per cent decrease this year. Quality is only fair and demand remains good with no accumulation on dealers' floors at this date. Prices remain unchanged and station operators continue to quote producers for ungraded eggs AL 32-33, AM 30-31, AP 24-25, B 25-26, C 19-20.

**Dairying**  
There has been no change in the official price quotations on butter for the past week on the markets of Nova Scotia. Factory price was quoted at 63c f.o.b. Halifax with Local Jobbing 65c. Under date of April 14th Montreal butter was quoted at 60c f.o.b. Montreal for No. 1 Solids. Toronto butter was unchanged at 58 1/2-58 3/4c for No. 1 Solids f.o.b. Toronto.

There were no important changes in creamery butter prices on any markets in New Brunswick during the past week with creameries to wholesalers one and two pound flats 62 1-2c; wholesale to retail stores one and two pound flats 64c.

The price of butter on the Charlottetown markets has not changed either during the past week with wholesale f. o. b. Charlottetown, one and two pound flats—62c. Local Jobbing 63c f.o.b. Charlottetown for one and two pound flats.

Reports from several creameries state that the demand for the past two or three weeks has been fairly brisk even though production is increasing and is now 10,000 pounds per week above that of March 11th, which was the lowest weekly production of the past winter.

It has been circulated in different parts of the country that the Dairy Products Board may buy only First Grade butter at the end of the present fiscal year, March 31st, 1951, under their own specifications and grading at that time. Under this plan the market will be left to find its own level and the Government would not be required to finance anything beyond that of the unsold balance of First Grade butter as of March 31st, 1951. This is only speculation, however, and the real statement regarding the setting of a floor price and future marketing policy of the Dairy Products Board concerning this product for the fiscal year will be announced from Ottawa within the next ten days.

## Victoria School Wins Hockey Game

At Victoria Rink on Friday night, the Victoria School hockeyists scored a close 1-0 shutout victory over North Tryon in semi-final play for the Interscholastic title and the Crapsud - Victoria Board of Trade Trophy.

The winners will now meet the school team from Lower Tryon in the final series for the title.

It was a close game that saw both teams battle to a scoreless draw for two periods, before D. Hart Jr., sank the only tally of the game on a passing attack with G. Bruce and W. MacLean at the eight minute mark of the third period.

The first two periods were close, but Tryon held the lead on the attack, and were leading 1-0 at the end of the first period. The Victoria cage Lams alive f.o.b. country points 19.00 for good and choice.

PHILADELPHIA, April 19 — (AP) — There is no room on the Brooklyn mound staff for Bill McCahan, former no-hit star of Philadelphia A's, manager Burt Shotton said today.

McCahan, who went to Montreal Royals in the A's purchase of infielder Kermit Wahl, has been with the Dodgers on a look. The right-hander was impressive in several southern games but Shotton said that he could not release a sound pitcher and gamble on McCahan's arm.

Claiming that he is no longer bothered by the sore arm, which cost him his place in the American League, McCahan said he will not join Montreal until he sees Branch Rickey, Brooklyn president.
