

Cardigan Bridge Closed For Repairs After Accident

The Cardigan bridge was damaged as the result of an accident early Sunday morning, necessitating its closing to vehicular traffic.

The accident occurred when a 1947 Pontiac car, driven by a resident of Cardigan, accidentally came in contact with the upper structure at the west side of the north end.

It was examined yesterday by engineers. Due to the extremely high winds and tides and probable weakening of the under-structure, engineers felt it necessary to temporarily close it for repairs.

AMONG THE FARMERS

Federation of Agriculture Newsletter

ORIGINAL NEED

The underlying thought behind the C.F.A. was the belief held by a representative group of farm leaders that Canadian agriculture needed a single voice, this belief went back prior to 1935 the year in which the Federation was organized. This concept of farm organization does not, of course, mean that there is no need of commodity groups and they should have no say in what policies are to be promoted. However, prior to 1935 agriculture was not listened to very attentively by governments generally for the simple reason that different organizations were demanding different things and in many cases opening opposing the demands of other groups. This was a situation which, of course, delighted governments who were unwilling to take any action or puzzled as the case might be.

How well has the vision of the 1935 pioneers developed? Today Canadian farmers have in the Federation an organization with representative members from every province and from every major branch of agriculture. When agreement is arrived at by the C.F.A. and particularly when effects in different part of the country, it can pretty well be assumed that such a policy recommendation will be accepted as sound by any responsible gov-

EASTERN GUARDIAN

PERSONALS

Archibald F. Johnston, B. Com., of Toronto, while on a business trip to Halifax, flew to Charlottetown on Friday and spent the weekend with his parents, Mr. and Mrs. Fred W. Johnston at their home in Murray River, returning to Toronto by T. C. A. on Sunday.

use of that test as a means of determining the market value of milk.

In an age when butterfat was readily marketed in the form of butterfat or highly regarded pig feed the Babcock test dealt fairly with the producer. However, cheese producers soon realized that there was a great deal more in cheese than just butterfat and that the other solids played an important part in the amount of cheese derived from 100 pounds of milk.

As a means of equalizing settlement for milk of different tests many factories in Ontario adopted the practice of adding 2 percent to everyones test and then settling at so much per pound butterfat on that basis. For instance the man with 2 percent test was settled with on the basis of 4 percent, the man with 4 percent test on the basis of 6 percent and so on. This adjustment was a rough method of compensating the farmer with the lower testing milk for the additional solids which he provided.

With the increased diversion of skim milk from the farmers to processing plants and with increased emphasis on the value of skim milk powder processing plants have generally adopted the practice of establishing a basic price for milk and a certain test, for example a basic price of \$3.00 might be set for 3.5 milk, milk of other tests will be settled for on the basis of adding a differential of for example 6 cents to the basic prices. This means that the price of 3.6 milk will be \$3.06, of 3.7 milk \$3.12, of 3.4 milk \$2.94 and of 3.3 milk \$2.88.

Arriving at this differential presents no great problem where the market value can be established for powder and butterfat. However, in the fluid milk trade the working out of appropriate differential is complicated by the fact that the consumer has not indicated what value he or she places on the higher proportion of solids-not-fat which is found in the lower testing milk.

In practically every fluid milk market in Canada some attempt has been made to adjust this matter with basic test ranging all the way from 3.4 to 4 percent and differentials ranging from 3 cents to 7 cents. All these adjustments are made in recognition of the fact that the purchase of milk on a straight butterfat basis is not a satisfactory method of settlement so far as nutritional value of milk is concerned.

WHO GAINED?
In every community in this province people have moved to other industries and to other areas. Others have stayed at home and with agriculture. It would be an interesting exercise if it were possible to establish what the relative economic position of the groups might be. Which is better off and by how much, the man who stayed with the farm or the man who went into industry or a profession? A study of this kind could disclose some very interesting information.

PRICE STABILIZATION
Canadian farmers will be looking forward to an early announcement by the Government of Canada on the levels at which the price of certain farm prices are to be stabilized. The Minister of Agriculture speaking on the Stabilization Bill in the House of Commons intimated that levels would be established and announced early in each crop year. With the planting season now rapidly approaching it would appear that such announcements must be made directly on what the farmers may expect in the way of fair prices on the nine key commodities involved.

Average rainfall for all South Africa is only about 17 inches a year, with many arid sections.

Sweeping Changes Made In Maritime Train Schedules

MONCTON (CP) — Sweeping changes in Maritime train schedules were announced Wednesday by Canadian National Railways. All changes, effective April 27, result in faster trains. All times are AST unless designated otherwise.

The Ocean Limited will leave Halifax at 12:45 p.m. ADT and arrive in Montreal at 8:50 a. m. EDT, cutting 65 minutes off the old schedule. The Scotian leaves Halifax at 3:45 a.m. ADT arriving in Montreal at 8:30 a. m. EDT. It carries much of the mail and express the Maritime Express carried. As a result, the Maritime will save 2 1/2 hours on her westbound trip. It will leave Halifax at 7:45 p.m. ADT and arrive in Montreal at 7:55 p.m. EDT the following day.

On the Montreal-Halifax run the Ocean leaves Montreal at 9:30 p.m. EDT and arrives here at 6:45 p.m. ADT, cutting 30 minutes off the run. The Maritimes express leaves Montreal at 11:30 a.m. EDT and arrives at 2:20 p.m. ADT the following day. This clips two hours and ten minutes off the run.

All Halifax-Saint John, N.B., schedules will be cut by one hour and 15 minutes westbound and 30 minutes east bound. Travelling time between Halifax and Boston will be shortened by two hours and 45 minutes southbound and 50 minutes northbound.

The railway said that because of the changes St. John's, Nfld.-Montreal-travelling time will be

shortened by about 10 hours.

P.E.I. SERVICE

Train 40 will leave Moncton at 2:40 p.m. and arrive Charlottetown at 9:00 p.m. Train 37 will depart from Charlottetown at 7:45 a.m. and arrive Moncton at 1:50 p.m. a 15-minute faster schedule than at present. Both will connect with the Ocean Limited.

Car ferry service will operate daily from Cape Tormentine at 8:25 a.m., 11:30 a.m., 2:15 p.m., 5:25 p.m., and 9:15 p.m. and from Borden at 7:00 a.m., 10:50 a.m., 12:50 p.m., 3:40 p.m. and 7:30 p.m. On June 16 the service will be doubled to ten trips in each direction.

BUSY BEES MEET

The Busy Bee Mission Band met with fourteen members answering roll call by paying a nickel. The meeting opened with Mission Band Purpose.

Elizabeth MacNeill, president, read Scripture Mark 10:13 - 21, followed by all repeating the Lord's Prayer. A Missionary story was read in parts by Claude Joyce, Donna and Beryl. Valerie and Joyce passed in "Birthday Money".

The leader, Mrs. Donald MacEachern read lesson from Story of Job and explained part of Miss Kaye Rowe's work as a Missionary, and not only a missionary, but a missionary school-teacher in Reekie College, Oruro-Bolivia. The meeting closed with a Mission Band Prayer.

Funeral Held At Kilmuir

The funeral of the late Mrs. Annie Thierman was held yesterday afternoon from the home of her brother, Oswald Fraser, Kilmuir.

The service was conducted by Rev. D. A. Campbell who chose as his text, First Corinthians, Chapter 15, Verse 57. Hymns sung were "The Lord's My Shepherd" and "What A Friend We Have In Jesus".

The pallbearers were Laughlan MacKinnon, John K. MacDonald, Fulton MacPhee, Angus MacGowan, Martin MacDonald and George MacPherson. Interment took place in Lower Montague Cemetery.

She leaves to mourn one daughter, Lois, who is taking advanced studies in Paris, one brother, Oswald Fraser and two sisters, Mary and Clara at home.

For many years, until the death of her husband several years ago, Mrs. Thierman resided in Western Canada.

APPOINTED

The Canadian Welfare Council at Ottawa announced Wednesday the appointment of George E. Hart, 43, formerly of Charlottetown as executive secretary of the Community funds and Councils division.

THANK YOU!

I wish to thank all electors who supported the Liberal party, and especially the party workers, in the election contest. Candidates will come and go, but the Liberal party still stands as a partner in our democracy. To the Conservative party in Kings, and the Province, on behalf of our party and myself, we extend our congratulations.

T. J. KICKHAM

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

Toronto, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of even 10 to 20 years standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne) — the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores. Satisfaction guaranteed or money refunded.

THANKS

To all our faithful friends and supporters all over Queen's County, we extend our hearty thanks for the loyal help and hard work which brought about Monday's wonderful victory.

ANGUS MacLEAN
HEATH MACQUARRIE

TO OTTAWA

Mr. H. R. Hennessey, C. A., of the local Taxation Division of the Department of National Revenue leaves Charlottetown on April 7th, to join the Head Office Inspection Services Branch of that Division.

Mr. Hennessey is the son of Mrs. George S. Hennessey, 256 Fitzroy Street, Charlottetown and the late Mr. Hennessey. He received his education at West Kent School, Prince of Wales College, and the Maritime Business College, Halifax. At the outbreak of World War II, he enlisted with the local Signal Corps, and served five years overseas in United Kingdom, Sicily, Italy and North-west Europe.

At present he holds the rank of Major with No. 5 Signal Corps.

Mr. Hennessey is married to the former Shirley Chisholm of Kentville, N. S., and they have a family of three boys and one girl. Mrs. Hennessey and children will take up residence in Ottawa at a later date.

ment of the Columban Church long before the arrival of Latin Christianity in the 11th Century. Nothing in history is more certain than the complete independence of the Columban Church in Scotland from any suggestion of continental authority. The only supreme authority it acknowledged was Holy Scripture, the Creeds of the Church, and apostolic practice and example.

CONFLICT

Tracing the developments of the intervening centuries, Mr. Somers then gave fuller consideration to the causes leading up to the Reformation in both Scotland and England, dealing in particular with the work and witness of John Knox, George Wishart, Archbishop Cranmer, Bishops Latimer, Ridley and Hooper, the conflicts with Mary, Queen of Scots, Mary Tudor of England, the reigns of James V, Henry VIII, and Edward VI, the Acts of Uniformity and Supremacy, the suppression of the monasteries, and the confiscation of their properties to the crown, the "Lords of the Congregation", the Protestant Settlement in England in 1559, and the Protestant Assembly and Parliament in Scotland one year later, the setting up of Presbyterian Church Government and the establishment of schools in every parish.

"In the sea-girt solitudes of Iona the very soul of Scotland's religious idealism has its hallowed dwelling-place. And a fitting home it is. Rugged, austere, it is lonely with the strange, wistful loneliness of the Scottish heart. The saints have gone, but here, serene and eternal, their radiance lingers still. The work and witness of Christ established more than fourteen centuries ago by these intrepid missionaries are carried on in the life of the Church of Scotland today."

Mr. Somers was thanked on behalf of the Association by Rev'd. A. Frank MacLean, the Rev'd. M. D. Dunbar, and the Rev'd. A. E. Piercey. The third of the series is to be given to the Association on April 24th on the subject, "The Golden Age of Catholicism, the Response to the Challenge of the Reformation, and the Significance for Today of the Decrees of the Council of Trent". This meeting will take the form of a luncheon for the members and their wives at the Charlottetown Hotel.
