**DID YOU KNOW?**

The Canadian death rate from tuberculosis has dropped from 17.2 to 7.8 per 100,000 since 1947. This is most encouraging but did you know that during 1956 there were 9,000 new cases discovered and 13,000 sanatorium beds were in use in Canada.

In Prince Edward Island, during 1956, 43 new cases were discovered and about 83 cases were treated in the Sanatorium.
