The steamship Ariel, from Havre *via* Cowes, Sept. 2, arrived at New York, September 14. She brings a copy of the second edition of the London *Times* of Saturday, and the London papers of Sunday.

A British war-steamer had arrived at Kiel with an enormous quantity of projectile mortars and ammunition, which looks like further operations in that quarter.

LONDON, Sept. 1—The British Government want tonnage for winter supplies to the Crimea. The stock of huts, clothing, stores and forage to be sent forward the next 60 days, is very large. The French Government want ships to load at Marseilles, Genoa and Leg-horn, with straw and hay, but offer no inducements to ships here to go round. They have taken for ships in Havre for stores, at 55f to Constantinople, 65 to Black Sea, per ton of 40 feet.

A fire occurred at Havre on the night of the 28th of August, which destroyed property to the amount of 300,000 francs, including 500 bales of cotton.

The Paris correspondent of the London News states, that a depatch has been received from the French ambassador at Vienna, which says that Count Nesselrode had made such a pressing application to the Emperor, Francis Joseph, for assistance, that Austria cannot temporize any longer, and must declare itself on one side or the other.

The *Times'* correspondent alludes to the same rumor.

THE WAR IN THE CRIMEA.

Marseilles, Sept. 1.

The Thabor which left Constantinople on the 23d August, has arrived. The advices from the Crimea are to the 21st August. The Caffarelli frigate has arrived, wish invalids, from the Crimea. The steamer Armenian leaves with troops.

The Turkish Quartermaster General, who was with Omar Pacha in the Crimea, speaks in the highest terms of the new system of fortification introduced by the Russians. General Melnikoff has fortified the space between the first and second line of defence by means of mines, trenches, covered ways, palisades, and small redoubts. Between Fort Paul and Bastion I. he has constructed works which so command the Malakoff Tower and Korniloff Bastion, that the Allies would not be able to maintain them, even if they obtain possession of them. In consequence of the improvements made by the Russians in their fortifications, General Pellissier has been obliged to make some alterations in his plan of operation.

SPAIN.

Our accounts from Madrid are of the 17th ult.

A Royal decree of the 23d dissolved the Colonial Consultative Board, and instituted a new one in its place, composed of 30 members chosen among the most eminent personages of the monarchy, whose functions are to be gratuitous and honorary. General Manuel de la Conchahs to preside over the new Junta in the absence of the Minister.

The Carlists in Catalonia appear determined once more to try their fortune. Tristany, at the head of 50 men, had approached Ignalada. Six inhabitants of Olot had gone to join Borges. This chief lately surprised and disarmed a captain and 20 soldiers of the battalion of Victoria. The great object of the Carlists is to obtain possession of a strong place.

AUSTRIA.

The following is from the *Times'* Paris correspondent's letter, dated Aug. 31.

The opinion that Austria shows at last unequivocal signs of adhesion to the active policy of the allies appears to gain ground, not among the public at large, but in those quarters where the best information is supposed to be obtained.

The opinion is, as I expected, expressed in more than one of the Ministerial journals, and will probably be again insisted upon. It is evident, there is no desire on the part of the Government that a contarry feelingshould exist; but, as we hear as yet of no new fact, no convincing proof, that Austria is on the point of changing her neutrality into action, one can hardly feel more confident than before.

The victory won on the Tchernaya, and the condition to which the Russians must be reduced by it, has, no doubt, made a strong impression at Vienna; and though I have not heard, that the congratulations of the Emperor of Austria have been again conveyed to the Emperor of the French on this great fact, yet it is an occasion which Austria would not let slip without trying to profit by it. It may be thought politic, too, to keep Austria in good humor at this moment. Something is said of a proposition being on the *tapis* to the effect that Austria should engage, after a sufficiently reasonable delay, to take up arms. This delay would give her ample time for reflection, and we should be enabled to pass the winter in the Crimea, if it be necessary to do so, without apprehension of another Russian invasion in the Principalities.

The remnant of the 76th Regiment came up from Camp on Saturday, and marched into the South Barracks. We understand this gallant corps are to go to the Crimea, to be relieved by a party from that place who have "suffered some" in the war, and although not in good condition to work out there, are well able to protect the Province.

From a Letter in the *Nottingham Journal.*—

I had a very narrow escape myself the other night, when I was at work in the trenches. It was about 12 o'clock at night, and we were having our grog served to us, and I had got the pot to my lips, when a grape shot, weighing 2lbs., whizzed past, and took the pot right out of my hand, not doing me any harm, but disappointing me very much in respect to losing my grog.—

NEVER DRINK BEFORE DINNER.—Col. Fuller gives the benefit of his experience to the rising generation, as follows: "The habit of unreasonable dram-drinking, gin or brandy, for instance, upon an empty stomach, is as fatal to the health as to the morals of those who practice it. There is very little danger of excessive drinking at dinner, unless the appetite for drink has been stimulated before dinner. Young men who are not ambitious of becoming besotted almost before they know it, should make this their rule, and practise it—*Never to drink before dinner.*"

And to make the rule entirely safe, add —*nor at dinner, nor after dinner.*

A bashful Printer, out west, refused a situation in a printing-office where females were employed, saying that he never "set up" with a girl in his life.

"Within the space of thirty five years," says a writer in the New York Courier & Enquirer, "Mexico has been a dependent colony, a republic, an empire, a confederacy, and finally an unqualified despotism. My reason for believing that Santa Anna would keep his place untill the nation attained the condition adopted for a constitutional government, was that every other system but that which he was enforcing had been tried in Mexico, and there was no other new plan which could be substituted for his absolute authority. He seized power as Napoleon did, crushed the press, surrounded himself with troops, and governed by his individual will. Yet while the French submitted after a short and sharp struggle, the Mexicans rushed to arms, and hardly laid them down through a three years' struggle, until the usurper was driven from the country."

Holloway's Pills.—Wonderful cure of a diseased Liver. Emily Burton, aged 34, of Halifax, Nova Scotia, was for a long time in a very precarious state of health, owing to her Liver being diseased; the medical faculty prescribed for her in vain, and every remedy she thought likely to benefit her she made use of with the like ill success. About two months ago, she commenced using Holloway's Pills, and complied with the printed directions, which quickly produced a very pleasing change; in five weeks, the bloom of health was again upon her cheeks, being perfectly cured, to the agreeable surprise of her friends. These Pills are also infallible in all diseases of the stomach and bowels.

Valuable and desirable
Freehold Property for Sale.

TO BE SOLD, that valuable and highly cultivated Farm and Premises, eligibly and beautifully situated on the Princetown Road, about one mile from Charlottetown, known as Willow Farm, the property of the Subscriber. This Farm contins about Eighty-four (84) acres, all under cultivation, divided into eleven parts or fields, besides a Kitchen Garden, suitably laid out, and well fenced, with ponds of water in six fields; a large amount has recently been expended on this property, in the application of manure, to put it in the best state of improvement, and the present Crop bears testimony to its productiveness. There is on the premises a comfortable Dwelling House recently built, with a good and spacious Cellar, and an extensive range of Barns and Stables, all new, with room for a large Crop of Grain and Hay, with a Granary, Horse Stable, Cow Houses, Piggery, Fowl House, and Yard, and also, a convenient Greenhouse.

If the above property is not disposed of in one month from this date, it will be let for a term of years. The Subscriber also offers for sale, the whole or any part of his well known properties in Charlottetown and Georgetown. A large portion of the purchase money of which, (if required), may remain on security for such time as may be agreed upon.

EXTRAORDINARY CURE OF ASTHMA ! !
OF AN OLD LADY SEVENTY FIVE YEARS OF AGE.

Copy of a Letter from Mr. Thomas Weston, (Book Store,) Toronto, dated the 9th October, 1854.

To Professor Holloway,

Sir,—Gratitude compels me to make known to you the extraordinary benefit an aged parent has derived from the use of your Pills. My mother was afflicted for upwards of four and twenty years with asthma and spitting of blood; it was quite agony to see her suffer and hear her cough; I have often declared, that I would give all I possessed to have her cured; but although I paid a large sum for medicine and advice, it was all to no purpose. About three months ago, I thought perhaps your Pills might benefit her; at all events I resolved to give them a trial, which I did; the result was marvellous: by slow degrees, my mother became better, and after persevering with your remedies for nine weeks, she was perfectly cured, and now enjoys the best of health, although seventy-five years old. I remain, Sir,

Your obliged,
(Signed) THOMAS WESTON.

REMARKABLE CURE OF DROPSY.
AFTER BEING TAPPED THREE TIMES.

Copy of a Letter from Anthony Smith, Esq Halifax, Nova Scotia, dated the 25th August, 185

To Professor Holloway,

Sir,—I desire to add my testimony to the value of your Pills, in cases of dropsy. For nine months I suffered the greatest torture with this distressing complaint; was tapped three times, and finally given up by the doctors; having become in appearance as a skeleton, and with no more strength in me than a child just born. It was then, that I thought of trying your Pills, and immediately sent for a quantity, and commenced using them. The result I can scarcely credit even now, although true it is. After using them for four weeks, I felt much better, and by persevering with them, at the expiration of two months, I was completely cured. I have since enjoyed the best of health. I am, Sir,

Yours sincerely
(Signed) ANTHONY SMITH.

ASTONISHING CURE OF GENERAL DEBILIEY AND LIVER COMPLAINT ! !

Copy of a Letter from William Reeves, of Charlottetown, Prince Edward Island, dated 17th Nov. 1854.

To Professor Holloway,

Sir,—I am happy to say, that your Pills have restored me to health after suffering for nine years from the most intense general debility and langour, my liver and bowels were also much deranged for the whole of that time. I tried many medicines, but they were of no good to me, until I had recourse to your Pills, by taking which, and following the printed directions for seven weeks I was cured, after every other means failed to the astonishment of my neighbours, acquaintances, and friends. I am, therefore feel grateful to you for this astonishing restoration to health, and will recommend your Pills to all sufferers, feeling it my duty to do so.

I remain, Sir, your humble servant,
(Signed) WILLIAM REEVES.
