Mother's Girl.

Sleeves to the dimpled elbow,
 Fun in the sweet blue eyes,
 To and fro upon errands
 The little maiden hides.

Now, she is washing dishes,
 Now, she is feeding the chicks,
 Now, she is playing with pussy,
 Or teaching Rover tricks.

Wrapped in a big white apron,
 Pinned in a checkered shawl,
 Hanging clothes in the garden,
 Oh, were she only tall!

Hushing the fretful baby,
 Coaxing his hair to curl,
 Stopping around so briskly,
 Because she is mother's girl.

Hunting for eggs in the haymow,
 Fetching old Brindle's calf,
 Riding down to the pasture,
 With many a tingling laugh.

Coming whenever you call her,
 Running wherever you see,
 Mother's girl is a blessing,
 And mother is well content.

Ottawa Letter.

Among the noticeable things about the conducting of the House of Commons, nothing strikes the person who has been used to the ceremonies of the Local Legislature of P. E. Island more than the simplicity with which messages from the Senate are received. As is known to your readers, the reception of a message from the Legislative Council is a most formal proceeding. The Clerk of that body announces his approach with thundering raps, and then the Sergeant-at-Arms seizes his white wand and strikes it heavily on the floor, calling the attention of Mr. Speaker and announcing "a message from the honorable the Legislative Council." Should the House be in committee, a rush is made to report progress, the Speaker seizes his silk hat, and the Clerk comes sailing in with his flowing gown. Then the doors are thrown open and the Clerk of the Legislative Council advances bowing to the bar, where he is met by the Clerk of the House, who most humbly receives the communication from the Local Lords. It is very different at Ottawa. When the Senate has a communication to make the Clerk comes quietly to the door of the House of Commons and signals a page, who informs the Assistant Clerk. Then that official goes to the outside of the bar and takes the message and lays it on the table without comment. This is all the ceremony there is about it, and it really seems to be a very sensible way of doing business. No fuss or flummery about it, and no interruption to the business of the session.

A few days ago Mr. Foster introduced a resolution making provision for payment of two commissioners for the Chicago Exhibition, and setting forth that two members of Parliament might be appointed. This was opposed by the Opposition as contrary to the independence of Parliament Act; and was also opposed by Mr. McCarthy and Mr. Hazen of St. John. After considerable explanation and discussion it was agreed that only actual expenses allowed by the Governor-General in Council should be paid; and the resolution as amended was adopted. Mr. Davies asked if it was true, as reported, that the hon. member for London, Ont. (Mr. Carling) was to be one of the Commissioners. He did not, however, get any satisfaction. The good humor of everyone was restored when Mr. Chaiton moved that the grant should not be paid if the exhibition was open on Sunday. Mr. Charlton may be very sincere in his respect for the Sabbath, but he is making other members almost profane with his constant motions respecting its observance.

The news of the death of Lieut. Gordon, R. N., which took place on Friday morning, 24th ult., will be received with regret by many in P. E. Island, where he made many friends while in command of the SS. Acadia.

The papers in connection with the treaty with France have been published. The dispute between Sir Charles Tupper and the Government of Canada consists in the following, viz: "Re French negotiations, Government cannot accept conditions involved in clauses regarding steamship subvention and reduction duty French looks, but agree to most favored nation treatment" so far as articles named in Treaty are concerned. They agree to other conditions in return for minimum tariff on articles named, as regards France and St. Pierre, Miquelon. This subject to your views as to effect on proposed Spanish negotiations." Signed "BOWELL."

This seems to be the point of the disagreement, as the Government only accepted articles named in the Treaty as those to which the most favored treatment would apply, whereas the Treaty makes no such conditions; but would include all articles in which a treaty might be made with any other country.

What the outcome will be is difficult to determine. The final meeting of the Committee on Agriculture was held on Wednesday morning, and the report of the Committee was passed. It was resolved to print 100,000 copies of the report of the Committee, and also that 150,000 copies each of the Experimental Farm and Dairy Commissioners' reports be printed for distribution.

During the discussion on Monday re the Civil Service Superannuation Bill, the following was brought out, viz: "Of those who were superannuated in 1871, there are to-day eight living of an average age of 84 years, drawing out of the fund \$3,265.72 per year. Of those superannuated in 1872 two are

still living, with averages of 78 years, and drawing \$1,172.52 per year out of the fund. Of those superannuated in 1873 there are thirteen upon the list, with an average age of 74 years, drawing \$1,057.88.

Of those retired in 1875, thirteen are still upon the list, with an average age of 74 years, drawing \$5,442.99 per year.

For the year 1876, eight are upon the superannuation list, with an average age of 71 years, drawing \$6,163.60 per year.

For 1877 there are 13 upon the list, with an average age of 74 years, drawing \$5,598 per year. Of those for 1878, 19 are still upon the list, with an average of 80 years, drawing \$5,587.94 per year out of the fund. For 1879 there are also 19 upon the list with an average of 74 years, drawing \$8,963.54 per year. Of those superannuated in 1880, 15 are still upon the list, average age 75 years, drawing \$6,193.63 per year. For 1881, 21 are still upon the list, with an average age of 74 years, drawing \$8,116.92. For 1882, there are 23 on the list, average age 73 years, drawing \$11,665.48 yearly.

Year.	No.	Average Age.	Drawing
1883	33	74	\$13,219.50
1884	20	68	9,527.18
1885	16	77	7,669.10
1886	20	73	10,019.78
1887	26	70	18,988.40
1888	29	70	20,976.00
1889	35	69	21,659.00
1890	39	67	12,888.00
1891	39	67	28,278.00
1892	12	68	10,947.00

The total number drawing superannuation is 502, and the total yearly amount they draw is \$255,023. The bill introduced this session is intended to lessen the burden on the country by increasing the abatement exacted from civil servants and granting them in certain cases insurance in case of death.

Mr. Foster in speaking of the matter the other day said: "The bill proposes to form a superannuation number too, into which shall go civil servants appointed after the passage of the act." It is proposed to make the abatement 3 1/2 per cent. on salaries over and 3 per cent. on salaries under \$600. It is proposed to limit the age at which employes can go up on the superannuation list to 45. That is to say, no person who is appointed over 45 years of age shall have the benefit of the fund nor be charged with the abatement.

It is expected that this system will gradually do away with the burden of the superannuation payments, as it is provided that no one can be superannuated until he is 65 years of age. All the expense to the Government will be 2 per cent. interest allowed extra on what is paid in as abatement. It is also provided that no one can be superannuated until he has been ten years in the service. G. F. O.

Literary Notes.

The April number of Donahoe's Magazine is at hand. The contents are, as usual, exceedingly interesting, and the illustrations all that could be desired. The principal features are: Catholic Music for Holy Week and Easter, by Nathan Haskell Dole; A Spring Opening, by Herbert M. Sylvester; The Present Pension System, by Congressman Joseph H. O'Neill; The Catholic Summer School, by George Parsons Lathrop; In American Studios, by Henry Austen; True Solution of the Woman Question, by Mary Elizabeth Blake; Fenianism, by Capt. John M. Tobin; The Peers and the Home Rule Bill, by Thos. C. Quinn; and poetry by Julia Ward Howe, Chas. S. O'Neill, Georgia Allen Peck, Magdalen Rock, Herbert M. Sylvester, J. Gertrude Monard and others. In fiction there is an excellent story of Irish life entitled The Twin Sea-Flowers of Kilkee, by John J. O'Shea, and other matters of interest. The regular departments are also well fitted with bright and interesting contributions. Donahoe's Magazine Company, publishers, 311, Washington Street, Boston.

Why you take Cold and Cough.

Generally caused by exposure to cold, wet feet, sitting in a draught, coming from hot and crowded places, in thin dress, or wearing damp clothes, stockings, or any other cause tending to check suddenly the perspiration. The result produces inflammation of the lining membrane of the lungs or throat, and this causes phlegm or matter, which nature tries to throw off by expectoration. In many cases she is unable to do so without assistance, and this it

SUMMER SPORTS.

ATHLETES SHOULD PREPARE.

Perfect Health is Necessary to Achieve Success.

The time for summer sports is rapidly approaching, and should remind all athletes that they require a certain preparation in order to fit them to take part in the various games now so popular in Canada. Close confinement during the winter season in imperfectly ventilated shops, (houses and dwellings) has weakened the system. Thousands of young men have become nervous, dyspeptic and morose; many are overworked and run down physically, and feel that they are not what they should be.

At this time a word of advice is given in a kindly spirit to all who have aspirations to excel in athletics. The system needs toning and strengthening; every nerve, tissue and muscle needs a food—a strength builder. This strength and life giver is Paine's Celery Compound. If this grand remedy is faithfully used for a few weeks before lacrosse, baseball and bicycle man take the field, a wonderful degree of strength, vigor and vitality is secured for the summer campaign. Members of every well-known athletic association speak loudly in favor of Paine's Celery Compound. Thousands have tried it, and acknowledge its great worth as a recuperator and builder. Try its powers, young man, if you wish to be strong.
