

LOCAL AND OTHER ITEMS.

LEADING FUR STORE.—Best Bros. The Olyette arrived here about four o'clock this afternoon.

S. O. E. B. S.—Regular meeting of Lodge Eion to-night. All who can, please attend.

DESERVE PUNISHMENT.—Some of the sports about town made last night hideous for residents of the North End.

PRICE ON CHURCH.—At Utica, New York, cheese are reported half a cent higher and strong. Prices range 7 1/2 to 8 1/2 cents per pound.

EXCURSION.—Mr. E. H. Duchemin entertained about twenty of the residents of Langley Beach to short excursion in his steam launch last evening. It was much enjoyed.

LADIES, clean your kid gloves with Josephine Glove Cleaner. It is not a liquid, leaves no odor, and can be used while the gloves are on the hand. For sale only at A. W. Reddin's drugstore.

FOR HALIFAX.—The Eastnet left for Halifax about 11.30 last night. She had a general cargo and two passengers, a son of Mr. Angus McDonald, who goes to the Blind Institution in Halifax, and a lady.

REV. DR. LUCAS will deliver another address on the temperance question this evening at 8 o'clock in the Philharmonic Hall. All should hear him, as this is likely to be his last meeting for the present. His hearers were delighted last evening in Zion Church. Silver collection at the door.

PRINCE OF WALES COLLEGE.—The thirty sixth session of the Prince of Wales College and Normal School opens on Tuesday, 3rd September at 10 a. m. N. B. All students, except the holders of Scholarships, must pay the admission fee to Mr. Arthur Newbery, the Assistant Principal Treasurer, before enrollment. By way of

TONIGHT'S EXCURSION.—Besides the numerous other attractions at the Artillery Band excursion to-night, there will be several instrumental duets, vocal solos, comic songs, etc. A fine day and everything favorable for a very pleasant sail. Secure your tickets early and avoid the rush at the boat. Tickets, Gents, 35c; Ladies, 25 cents.

FALL STEAMERS.—By reference to another column it will be seen that a first class steamer will sail from Liverpool for this port about the 10th October next, and will carry freight at through rates to all points on P. E. I. Railway also to Pictou and Shediac. Importers should note the date of sailing and place their orders at once. For particulars see advt. or apply to Peake Bros & Co., agents at this port.

POLICE COURT.—Three Scott Act cases occupied the court to-day, and convictions obtained in each. John Carroll, King St. for a second offence was fined \$100 and costs, or two months imprisonment; for a sale of beer sworn to be intoxicating. Angus Darrach, Richmond St., for selling intoxicating beer was fined \$100 and costs, or a like imprisonment. P. P. Gillis for a third offence was given two months imprisonment.

DR. LUCAS' LECTURES.—Dr. Lucas lectured last night to a large audience of our Charlottetown people, who were as usual highly entertained and instructed by the forcible words of our visitor from the west. The Doctor lectures to-night in the Philharmonic Hall on "Those Grasshoppers." As this is one of his very best lectures and probably the last to which they will have the opportunity of listening from the worthy Doctor, there will doubtless be a large number present. The Hon. Mr. Laird will preside. Silver collection at the door.

CHARGED WITH ARSON.—Archibald Buchanan, an old grey-haired man belonging to Pinetree, was arraigned before H. James Palmer, Stipendiary Magistrate, today, charged with setting fire to the dwelling house of Neil McKinnon, of the same place, on the night of Aug. 16, inst. Three witnesses have already been examined, Neil McKinnon and his wife had a brother of the prisoner. Buchanan, from the evidence of his brother, takes bad turns, and at times is violently insane, and sees imaginable things. Before the fire he threatened to burn out the prosecutor and his own brother. The court was still in session this afternoon. Mr. H. C. McDonald appeared for the prisoner.

PERSONAL.—John Yeo, Esq., M. P., is in the city. Wm. Jenkin and wife, of Summerside, are registered at the Revere. W. F. Tate, for Johnson's Anodyne Liniment, is at the Queen. Miss Gertrude Arbuckle has gone to Montreal to enter upon her duties at Westmont Academy.

H. J. Hinkly, of Dufferin, is at the Revere. He is here in the interest of D. M. Ferry & Son, Seedsmen, Detroit. At the Queen to-day were registered W. T. Hagan, City; Miss C. B. Orrick, New York; and A. C. McGowan, of St. Paul, Minn.

The Postmaster at Charlottetown would be pleased to see Edwin Younker, Henry Boston or John Henry Molyneux, or any of their relatives. Principal Grant of Queen's University, is in Winnipeg. He declares his intention of making a thorough study of the Manitoba schools while there.

Mr. Isaac Oxenham leaves to-morrow morning for Montreal, having accepted a good position on the teaching staff of the Montreal Business College, one of the best establishments of the kind in Canada. We wish Mr. Oxenham success and prosperity in his new position, and are sure he will be a credit abroad to his Island home.

GENERAL TELEGRAPHIC NEWS.—LONDON, August 26.—The navy estimates, which were prepared by the late Liberal government and adopted by the present ministry, have just been issued. They have been subjected to slight alterations, but in the main they are the same as originally formulated. The number of men provided for is 88,350, which is an increase of 4,450 over the estimates of last year. Besides the expenditures under provisions of the naval department it is proposed to lay out \$3,933,642 on construction of ships, and £730,000 on armaments.

OAKLAND, Cal., August 26.—With the approval of General Booth, George S. Montgomery, a millionaire member of the Salvation Army, is organizing an expedition to invade Japan. The party will sail in about a month under the command of a native Japanese lieutenant, who was converted by the Army in this city.

NEWS NOTES.—At Anichat a few days ago a 16-year-old boy named Alexander Donnette was drowned while swimming. The body has been recovered. Sir Donald Smith has never drawn his sessional indemnity or mileage as a member of Parliament. Mr. McMullen always draws his, and so does Mr. Mulock. Some gentlemen talk indignantly, but do not practice it, others practice it, but do not talk.

The Russians have made a singular discovery in Central Asia. In Turkestan, on the right bank of the Amou Daria, is a chain of rocky hills near the Bokharan towns of Karki, and a number of large caves, which upon examination were found to lead to an underground city, built apparently long before the Christian era.

THE ROADWAY TO THE PARK.

Lieut. Governor Howland's Letter—A Case to be Stated Before the Court. An emergency meeting of the City Council was held last night to consider a letter from Lieutenant-Governor Howland concerning the proposed roadway to the park. Mayor Dawson presided. Councillors Fennell and McCarron were the only absentees.

After Mayor Dawson had explained the object of the meeting the following letter from Lieutenant-Governor Howland was read:—

Government House, Prince Edward Island, August 27th, 1895. W. E. Dawson, Esq., Mayor of Charlottetown.

Your Worship, To-day, Mr. Dalziel, City Surveyor, with a force of men, proceeded to remove the fence in front of Government House, I asked him for this authority when he presented a letter of which the following is a copy:—

"Charles Dalziel, Esq., City Surveyor. "Sir,—We hereby in-trust you to move the fence on the Government shore front along the proposed roadway to the line staked off by Mr. Cundall, Land Surveyor. (Sgd.) "GEO. E. HIGGS, "BOYSCAMP HAZARD, "FRANCIS P. MCCARRON, "HENRY C. DOUSE, "THOMAS Z. TAYLOR. "Charlottetown, 27th August, 1895."

I at once served the following notice on him:—

"Charles Dalziel, Esq., City Surveyor. "Sir,—I hereby notify you that I forbid you removing the fence in front of Government House farm to the line staked off by Mr. H. J. Cundall, Land Surveyor, until the corporation shall have proved their right in a court of law. "I have the honor to be, "Sir, "Yours obedient servant, "GEO. W. HOWLAND, "Lieutenant-Governor."

"I may say as Mayor" remarked His Worship "that this whole affair is done in my presence. I knew nothing about it." Councillor Hazard, after remarking upon the Mayor's absence from the meeting at which the Committee were authorized to proceed with the park roadway, went on to state that he had been informed by the Mayor that the City had a right to the one hundred feet of land claimed, and said they would be recanting their duty as representatives of the citizens, yet must assert their rights. He submitted and read a number of letters bearing upon the matter that had passed between the Recorder acting for the Committee and the Lieutenant-Governor and the Attorney-General on the other part. He regretted the opposition now being given the park roadway movement by the Lieutenant-Governor, who was at first kindly disposed towards it and had given the Committee much valuable assistance. However, they had a duty to perform which they must not shirk. They must go ahead with the work this year. The Statute of Limitation may apply to the Act granting the land to the city next year and they may lose all. The Attorney-General had suggested the advisability of stating a case before the judges, which, he understood, could be done within a week. It rested with the Council whether they would take up with respect to the suggestion. The decision would settle the matter one way or the other. He hoped, however, to see the roadway started in a few weeks.

The Mayor referred to the large quantity of correspondence that had just been received and expressed his surprise that none of it had been submitted at the last two meetings of Council.

Councillor Tanton pointed out that there was no delay in the property claimed by the city, and expressed the opinion that if any deed existed it is in the possession of those who are opposing the park roadway movement. Everything seemed to be done in the interest of a few. Even the correspondence did not pass through the hands of the Mayor or City Clerk as it should. He thought that in the interest of the City a decision of the court or a clear title should be obtained before anything is attempted in the matter of the roadway. He pointed out that some acts of the Legislature were passed conditional upon certain conditions being carried out, and it was therefore possible that the act of 1876, granting the land to the city—such an act could be found—had died a natural death. The Statute of Limitation may have already applied.

Councillor Hughes said that the city would have the roadway in spite of the opposition of the Lieutenant-Governor and Councillor Tanton. To-day he understood the Attorney-General had made an offer of sixty feet of land to the city. There was no doubt in the minds of legal men— eminent legal men—greater authorities than Councillor Tanton, that the city has a right to the land claimed. This right should be asserted. The Council has authorized the committee to go ahead with the work, if they have done what they could. Most of the correspondence read had accumulated during the past few days—since the last meeting of Council. He did not approve of going into litigation over the matter, but he would be glad to see the roadway going ahead, if they decide against us, then the matter will have to drop. If they decide otherwise, let the work go on.

Councillor Doose thought something should be done about the roadway. He was surprised at the course now being pursued by the Lieutenant-Governor. He was at first very interested, and said he was glad to see the roadway going ahead, and that he believed the city was entitled to the land. He could not understand why he was opposing it now. The roadway would be a great benefit and give employment to many people. He was

favorable to submitting the case to the courts to find out exactly how the matter stands.

Councillor Hughes, in reply to the Mayor, said he had received no legal opinion concerning the roadway except from the Recorder. It outside counsel had been engaged.

Councillor Taylor thought that the Mayor, with Councillor Hazard and the Recorder, should take steps to have the roadway matter brought before the judges of the Supreme Court for their decision.

Councillor Hazard, in reply to a remark of the Mayor regarding the Act of 1876, said it could be found in the Royal Gazette of that year, which was on file in Mr. Newbery's office. Any member of the Board could find it.

The following resolution, moved by Councillor Hazard and seconded by Councillor Hughes, was then put to a vote and unanimously adopted:—

Resolved, that the Recorder be authorized to make a special case with the Attorney-General, to be argued before the Supreme Court with as little delay as possible, for the purpose of settling the question as to the rights of the city to the Park roadway under the act of 1876 and subsequent acts. Adjourned sine die.

RICHMOND STREET SEWER AGAIN.

The Health Officer's Second Letter and What Came Of It. A special meeting of the Board of Health was held last evening to consider a letter from the Health Officer concerning the sewer or box drain on Richmond Street West, opened, and there was a full attendance of members, excepting Messrs. McCarron and Fennell.

The chairman explained the object for which the meeting was called. It related to the resolution passed at the last meeting of the Board, instructing the sanitary officer to have all drains connecting with the sewer on Richmond Street West closed up. Acting on this resolution, the drain on the upper part of the street had been closed. Yesterday the Health Officer and Mr. Campbell called upon him, and the Health Officer made certain explanations regarding the sewer, which, at his request, he had put in writing for the consideration of the Board. Pending the action of the Board in respect to the matter, he had taken it upon himself to order a stay of proceedings.

The Health Officer read the letter of the Health Officer, as follows:—

W. E. Dawson, Esq., Mayor, Chairman Board of Health. "Six.—At the urgent request of Mr. Campbell I yesterday made a particular examination of the drains leading from the premises owned by him at the west end of Richmond Street and emptying into the street drain. There are two iron pipe drains, some 15 or 20 feet apart, having this outlet.

Referring now to my letter of July 6th, inst., in which I recommended you to order that all the underground drains from private dwellings emptying into this street drain be closed, I have now to say that in so far as these drains from Mr. Campbell's premises are concerned, the sanitary requirements which I presented to myself in my mind when making that recommendation, may be met otherwise than by the closing of them, and without the sacrifice of any general principle involved.

Therefore, and in view of the very expensive and very excellent system of house drainage by metal pipes now and for some time past in use on these premises, providing for the disposal of such waste waters, and these alone, of the advantage which the proprietor would be deprived by the closing of the drains referred to, I comment on the favorable consideration of your Board the proposal to allow the proprietor to properly construct a 4 or 5 inch iron pipe drain along the course of the street drain, to extend from his premises to the end of the breastwork at the north-west corner of the street, there to discharge its contents, and that the present drain from the premises be properly connected therewith; provided that the construction of the drain be undertaken without delay and that it shall be constructed under the supervision and to the satisfaction of the city surveyor, and that no excrementitious matter shall be allowed at any time to enter the drain.

Respectfully submitted, ROBERT JOHNSON, Health Officer. Charlottetown, Aug. 28, 1895.

The letter was discussed by Messrs. Hazard, Doose, Taylor, Hughes, Tanton and Laird, and the Health Officer answered a number of questions put to him bearing upon the subject matter of his letter.

Mr. Laird was favorable to granting the privilege asked for, providing the work was properly done and it was not detrimental to the public health.

Mr. Hazard regretted that the Health Officer had not made a closer inspection before sending in his first letter upon which the Board had already taken action.

He, for one, did not see his way clear to make Mr. Campbell a privilege which he would give to others. He thought the Health Officer should examine the other houses connected with the drain, and report concerning them all.

Mr. Doose said he had no objection to Mr. Campbell putting down a pipe to carry off waste water. But it should be so constructed as to carry what came through it, a sufficient distance to admit of its being taken away by the tide. The drain might as well be left as it is at present if this is not done. But if a privilege is to be granted one it should be granted to others desiring it.

Mr. Taylor could see no objection to granting the privilege asked for, providing the work was properly done and the public health was not injured. He thought, however, that similar privileges should be granted others if they wished it.

The chairman pointed out that the whole matter was now in the hands of the Board. Unless they took action the Sanitary Officer would proceed with the work of closing up the drains to-morrow.

The Health Officer said he had no prejudice in the matter. If any other person on that street made a proposal similar to that made by Mr. Campbell he would certainly recommend it to the favorable consideration of the Board. But he could not advise the putting down of wooden drains. Mr. Campbell's proposal was to

put down an iron pipe to carry off the waste water of the house.

Mr. Hughes thought it was wrong to allow sewers to run out on the flats. Sewers emptying in this way were a nuisance, and were said to be responsible for considerable sickness. Until a complete system of sewers was introduced, he would oppose the opening of any new ones. He thought the resolution passed at the last meeting should be carried out. The Sanitary Officer had already closed up the sewers used by some dozen tenants in Mr. Covie's houses.

Mr. Hazard moved the following resolution:—

Resolved, that the Health Officer be requested to make an inspection of all houses and premises on Richmond Street along the line of the drain or sewer now under consideration and to report on same to this Board at the earliest possible date, and that in the meantime the Sanitary Officer be instructed not to take any further action in the matter until further notice from this Board.

Mr. Tanton seconded the motion. He believed the Board should be in possession of all possible information before taking action.

The resolution was unanimously adopted.

The Health Officer said his report would be ready by Monday. Adjourned sine die.

THE WORLD OF SPORT.

The Wheel. Electric light sports including bicycling racing and jumping will be held on the St. John A. A. C. grounds on the evening of Sept. 4th.

The medals for the sports at the Park on Labor Day have arrived. There are sixteen in all—seven gold and nine silver—and the winners will feel proud of them, for they are handsome, beautifully designed and nicely inscribed. They are now on exhibition in the show window of Dodd & Rogers.

Athletic. The Moncton A. A. are busy preparing for the M. P. A. A. sports to be held in Moncton on the 14th of September. It is expected that this year will be one of the most successful in the history of the association. The bicycle track is being put in first class condition. There is likely to be some record breaking in the different events this year.

The annual scull race for the championship of Halifax harbor, on Tuesday, September 10th, was won by Louis Lovitt, who won it the two previous years, was second, and Bernard Riley third.

Supple Up. Everybody who proposes to take part in the Labor Day sports should "supple up" by using Johnson's Muscles Elixir.

It strengthens the muscles, takes out the stiffness and soreness, whether from over-exercise or strain, and leaves them pliable and supple. Large Bottles, 25c. JOHNSON & JOHNSON, Graduates in Pharmacy.

Incassantly Doing One Thing.
