Found a Manufacturer Overloaded!

Bought Part of His Stock at a Sacrifice.
Prices are Still Tumbling and Purchasers will Reap the Benefit Thereof!

REID BROS. have purchased a large Invoice of Fine Saxony All-wool Tweeds from a Manufacturer's agent, whose name we are not permitted to mention, at a great sacrifice to the mills, and we intend giving our patrons the advantage of this purchase. These goods have never in the history of P. E. Island been retailed at less than \$1.40 to \$1.75 a yard, and we now can offer them at 50c a yard, or will make up suits from them to order, with linings worth \$1.10 a yard and other trimmings to match, at the popular price of \$16.00 worth just \$22.50 all over this country. Will produce letters from some of the best men in town and country who must satisfy the most fastidious that our cutter, Mr. Bruce, and his helps, are equal to the times, and his garments are always neat, strong, perfect-fitting and full-fashioned.
Experience has taught us that many persons have been driven away in disgust from houses who are continually advertising goods at extraordinary prices, which they are unable to produce when called for, and to meet this difficulty we ask intending purchasers to call and examine our stock and we are confident that one inspection will satisfy the most skeptical that we never advertise a humbug.
30 Men's Suits, heavy black worsted goods, winter weights, only \$6.50 a suit.
50 do do fine quality, \$8.50, worth \$12.
20 do do Scotch Tweeds, fine quality, \$9, worth \$11.

A MARVELOUS STORY

TOLD IN TWO LETTERS.
FROM THE SON: "28 Cedar St. New York, Oct. 25, 1882.
"Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the enclosed letter will tell you what a marvelous effect
Ayer's Sarsaparilla
has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.
Yours truly,
W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of **Ayer's Sarsaparilla.**

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an irascible and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the Sarsaparilla in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, **AYER'S SARSAPARILLA.** Glover, Vt., Oct. 21, 1882.
Yours gratefully,
HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blisters, Sores, Bolls, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.

A Province Without a Grievance.

(Winnipeg Manitoban)
The Victoria Colonist congratulates His Excellency the Governor-General, on his arrival in that city upon the fact that he has passed through the Province by a new and hitherto untraveled route, and has reached the end of his journey without having met a man with a grievance. This is a very different state of things from that once prevailing in the Pacific Province, and Lord Lansdowne meets with a different reception from that accorded to his predecessor. Lord Dufferin had a hard time of it. He found, as the Colonist states, the Province on the verge of insurrection. The people's petitions for a fulfillment of the terms under which British Columbia entered the Union had been disregarded; a solemn treaty known as the 'Caranvon Terms' had been ignored, and popular sentiment was excited to a degree that imperiled the existence of the Confederation. A rebel arch, under which Lord Dufferin declined to pass, bore the legend: 'Caranvon Terms or Separation,' and deputations that waited upon the distinguished visitor went there in a sullen condition of mind and came away unsatisfied and disloyal. Five years later Lord Lorne visited the province, but notwithstanding that the Canadian Pacific was then well under way, there were still grievances arising partly from the Island railway matter and the dispute respecting the railway lands. Now British Columbians as a people are without a grievance, and the Colonist is able to exclaim what a wonderful thing to see planted on the shores of the Pacific a people so contented, happy and prosperous that they have no complaint to make or a wrong they want redressed.
Lord Lansdowne's visit has certainly been under most favorable auspices. He is the first Governor-General whose privilege it has been to witness the practical completion of the Canadian Pacific Railway, to make the journey from Ottawa to Victoria entirely on Canadian soil, and to receive the cordial welcome of a people who now, for the first time, feel that in spirit, as well as in name, they form part of the great Canadian confederation.

A Schoolmaster Fined.

(Chicago Mail.)
The "codgers" who have infested the neighborhood of the Hayes school were immensely pleased to-day when Justice White fined Principal H. Alden Merriman for striking Eddie Daveney, one of his pupils, a 9-year old lad.
Willie Paterson, 14 years of age, said that he was in the room when Mr. Merriman struck Eddie. He had been sweeping out with George Daveney. He and George were in one window and Eddie in another. He saw Eddie fall down on the platform. He heard Mr. Merriman ask Eddie after he struck him if he had not called him some names. The witness had heard a boy on the other side of the street call names after Mr. Merriman, but not Eddie. George Daveney, a brother 15 years of age, gave similar testimony, and said he ran home to his father and told him. Daveney also testified.
Mr. Merriman, in defence, acknowledged slapping the boy, but claimed he had done nothing more than was justified in doing to maintain discipline in the school. He had witnesses to prove that Eddie Daveney was the boy who called him names, and both Eddie and his brother were troublesome boys. He had had to suspend the elder brother, and the father had given him a written permission to chastise him.
Justice White said that the regulations of the school board did not permit corporal punishment, and even though the names had been called, which he did not think it was proven they had been, by the boy Eddie, suspension would have been the proper thing. He thought an assault had been committed, and would fine Mr. Merriman, \$3.

The Voyage of the Alert.

Rev. Moses Harvey, writing to the Montreal Gazette on the voyage of the Alert and the results of her observations says: "Last winter had been mild in the straits and bay, and last summer unusually cold. Last year was an unexceptional bad year for ice, being the third bad season of the kind. The summer of 1874, and also of 1885, were very cold. A curious fact was brought to light regarding the variation of the seasons, in reference to ice. Captain Nipkin, an agent for a New England firm, who spent the last seven years near North Bluff, informed the observer at that station that in two of those years the ice had cleared out of the straits permanently by the 10th of April, and was not seen again. The observers found that the ice in straits was always moving—rarely stationary—and that in February there was much open water. A most singular and unexpected result was established by their observations namely that at Resolution Island the ice comes into the straits and moves westward along the north shore, not out of the straits as was formerly supposed; but it is not known where it goes to. There is a current of comparatively warm water running east, out of the straits, on the south side. Thus a problem presents itself as to the movements of the ice which has yet to be solved. The observations taken at the different stations—tidal, magnetic and meteorological—will prove to be of great value.

An Old Vessel.

There is now loading at Quebec a vessel called the Eliza, which has seen a century and a half of active service. She might have been one of the fleet of 100 ships which bore the Massachusetts soldiers to the siege of Louisbourg, and tradition has it that in the lawless days of the long ocean warfare between France and England, she scoured seas as a privateer. She was stoutly built, and is still a staunch and handsome craft.

At a recent wedding in London—that of the Rev. Lord Victor Seymour and Miss Cator—the bride was attended by her seven sisters and two brothers, a most unusual retinue.
An elephant from India, said to be almost as large as the late lamented Jumbo, is to be sent to the London "Zoo," so as to arrive there about the holiday times.

Praying for Clemency

A PETITION TO THE GOVERNMENT FROM LOUIS RIEL AND HIS COMRADES.
An Ottawa despatch of the 29th inst., says: "The Government has received a petition signed by Louis Riel and twenty-four half-breed prisoners. The petition sets forth that the Metis were early colonizers of the country; that in time their lands were invaded by speculators and office-seekers who traded upon them; that they called on their missionaries to aid them, and sent them to Ottawa with petition after petition to the government, but that the only answer was an increase of garrisons; that, aroused by threats and the action of Crezier, they rose in arms, preferring death to dishonor; they were beaten in fight and then their homes were pillaged and consumed and terrible outrages committed on them. 'However,' continues the petition, 'the Government has given us one consolation by consenting to grant to the rest of our compatriots that which they had up till then persistently refused. Our blood, our liberty, paid for the acknowledgement of our rights. In the midst of our trouble we learn with happiness that the Government has settled 2,500 claims, representing a value of nearly \$400,000.' The petition then proceeds to pray for clemency, saying that the settlement of their claims shows that the rebellion was justifiable. The petition concludes: 'We are poor children of the prairie, obscure, unknown, without influence, without education; but our conscience persuades us that it is not justice to crush the fallen and to tolerate with impunity criminals who have tortured us, ended our sufferings with the blows of their guns, pillaged our farms, demolished our houses, and despoiled and outraged our women and children. This spectacle should revolt all just minds in Canada.'

The Grand Trunk Company.

THE RECEIPTS AND EXPENDITURE.
At the general annual meeting of the Grand Trunk Railway Company, the accounts submitted for the half year ending June 30, 1885, showed the gross receipts to be \$1,423,857, against \$1,612,348 in 1884. The working expenses were 76.60 per cent of the total receipts, against 73.06 in 1884, leaving the net receipts of \$333,120 against \$434,318, last year. The total net revenue balance is \$357,991, which is \$48,307 short of the sum necessary for paying the preference interest and charges, including the interest on debentures stock, the rents of leased lines, interest on bonds and interest on subsidiary lines. The working expenses showed a decrease of \$87,293 as compared with 1884, notwithstanding that in the last mentioned year there was also a decrease of \$144,188 as compared with 1882. In his address on moving the adoption of the report, Sir Henry Tyler attributed the decrease in the net receipts to the extremely low rates, brought about by suicidal and unnecessary competition. Arrangements had already, he said, been made and orders issued with a view to raising rates, and affecting an amicable division of the traffic. He spoke also of the probability of friendly arrangements with the Canadian Pacific Railway being soon consummated. The report was adopted by a unanimous vote.

To our Readers

We cannot too strongly urge upon our readers the necessity of subscribing for a family, weekly newspaper of the first class—such, for instance, as *The Independent*, of New York. We were obliged to select one publication for habitual and careful reading to the exclusion of all others, we should choose unhesitatingly *The Independent*. It is a newspaper, magazine and review, all in one. It is a religious, a literary, an educational, a story, an art, a scientific, an agricultural, a financial, and a political paper combined. It has 32 folio pages and 22 departments. No matter what a person's religion, politics or profession may be, no matter what the age, sex, employment or condition may be, *The Independent* will prove a help, an instructor, an educator. Our readers can do no less than to send a postal for a free specimen copy, or for thirty cents the paper will be sent a month, enabling one to judge of its merits more critically. Its yearly subscription is \$3.00, or two years for \$5.00. Address, *The Independent*, 251 Broadway, New York City.

NEW DEPARTURE IN FISHING.

A Gloucester, Mass., despatch of the 26th, says: The British schooner A. B. Parker, of Tuskent, Nova Scotia, arrived to-day from Georges Bank with 30,000 pounds of codfish. This is a new departure in provincial fishing, and the first provincial vessel ever to arrive at this port with fish from Georges or to engage in that branch of the fisheries. Although they have to pay a tariff of a half cent per pound it does not appear to put an embargo on the British vessels coming here to market their fish, and other vessels are likely to engage in the Georges fishery from provincial ports.
