TORONTO

TORONTO (CP)—Base metals registered a small index gain on the stock market Wednesday. Western oils ended with a loss of nearly a point and golds were a shade lower.

For most of the session trading was dull and price changes in all sections moved in a narrow range. Profit-taking continued in some of the groups which made strong gains last week.

Mines and western oils moved in a 10 to 15-cent range among lower-priced stocks and in a ½-point range in senior lists.

Index changes: Golds off .22 to 77.09; base metals up .19 to 152.46; western oils off .91 to 127.38.

Estimates Greater Tourist Traffic Increase This Year

An increase of 20 per cent in the number of tourists to bring the total number of visitors last year to 150,000 was reported by the Tourist and Information Bureau in its annual report tabled this week in the Legislature.

The car ferry service at Borden ferried 139,548 vehicles for the year, an increase of 11,466 over 1956. At the same time the Northumberland Ferry service at Wood Islands had an increase of 1,678 autos. The bureau estimates that with the new Lord Selkirk on the latter run and changes to the SS Prince Edward Island to permit carrying 30 more cars there will be a still greater increase this year.

The report states there is a noticeable improvement in restaurant standards and more operators are featuring seafood dishes. It also states the Accommodation listing has 254 places an increase of 20 over last year.

The Bureau reports receiving, at the peak period, over 400 inquiries per day from prospective visitors and last year in reply sent out 75,000 mailing pieces telling the advantages of the province.

A new information bureau is to be built this year at Aulac, N.B. It will be modern in design and attractively landscaped. The bureau at Wood Islands has been completely renovated and this year will remain open from the first of May to December 20 when the last sailing on the Caribou run will be made.

Library Files In Greater Use

Though there was a decrease in the number of books borrowed last year there was a considerable increase in the use of the files of the Public Library, it is stated in the annual report tabled in the Legislature.

It was noted that particularly in the summer months much use of the facilities was made by professional men, researchers, historians and scholars. Inadequacy of growing space, a major concern for some years, is also remarked.

Thes circulation statistics show there were 500 fewer borrowings in the adult fiction class and 1,000 less in adult non-fiction. Juvenile fiction dropped sharply by 30 percent. This is attributed in the report to the effect of television in the homes. However, there is reported a growing interest in government and international affairs and works of the all time fiction greats are in steady demand.

Among new books obtained particular mention is made of the value of the Encyclopedia Canadiana, a comprehensive reference work on Canada with contributions from outstanding Canadian scholars. The report states the work is certain to be welcomed by librarians, scholars and laymen.

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

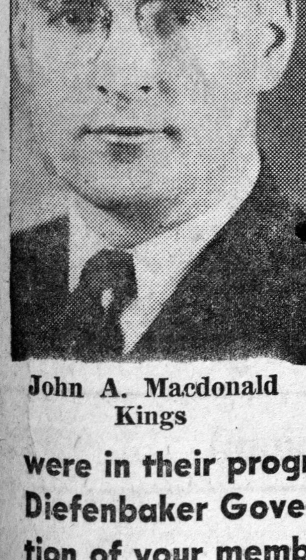
THOMAS J. KICKHAM,
Liberal Candidate,
King's County.

DESPERATION PLUS!



John A. Macdonald
Kings

Although the truth hurts we thank our Liberal friends for drawing more attention to just part of the exceptional public works program obtained by our splendid representative, John A. Macdonald, in their ad "What About This?" As most people know, and the former Liberal member should, public works projects are planned in the fall, passed by the government and tenders are called in the spring. NOT ONE of these projects were in the Blue Books on Public Works to be carried out by the Liberal government because NONE of them were in their program. ALL of them are the result of the Diefenbaker Government Program and the able representation of your member for the last eight months. The Liberal candidate is challenged to produce ANY PROOF for such irresponsible and far-fetched statements! After such a sorry record is it any wonder the Liberals would like to try to take credit for the outstanding assistance given our people which they denied to us.

Do you want a return to opposition to the Borden Causeway, declining public services in our country, absentee and ineffectual representation in King's? If you want honest, sincere, hardworking and creditable representation in every respect you are urged to
