

The Daily Examiner AUGUST 27, 1885.

Doctor Mackieson.

Another venerable form, familiar to Charlottetown, is laid low. Dr. Mackieson passed away, without pain, at 8 o'clock this morning.

John Mackieson, Surgeon, M. D., was born at Campsie, in Stirlingshire, Scotland, on the 16th of October 1795; and he graduated at Glasgow University in the year 1815.

On the 11th of February, 1830, Dr. Mackieson was united in matrimony to Matilda Brecken, youngest daughter of the late Honorable Ralph Brecken, who was at one time Speaker of the House of Assembly of this Island.

The Caroline Islands.

SPAIN AND GERMANY are now at daggers drawn about the Caroline Islands, and if Spain were only stronger the world might see a great war about them.

Would not our Y. M. C. A. do well to invite Principal Grant to deliver his new lectures on "Imperial Federation" and "What shall we do with Riel" in Charlottetown?

The Baptist Convention.

SUMMARY OF THE YEAR'S WORK—THE CONVENTION SCHEME.

The report of the Home Mission Board of the Baptists of the Maritime Provinces, was presented to the Convention, at Amherst, on the 25th inst.

In presenting your seventh annual report, your Home Mission Board are thankful that the one word which indicates the history of the year is "advancement."

After the Rev. Isaiah Wallace had been laid aside by sickness your board appointed the Rev. A. H. Hayward, Rockland, N. B. He was in the employ of the board till July. He labored in New Brunswick and did much to strengthen weak churches.

Rev. Mr. Wallace was afterwards re-appointed, and is now doing good work.

In April the Rev. D. G. McDonald was appointed general missionary, and has done much valuable work, chiefly in P. E. Island.

SUPPLY OF PASTORS.

Efforts to increase the supply of ministers for our churches and mission fields have been continued throughout the year. Five ministers from England have been settled in the provinces, viz: Rova W. R. Waters, at Economy, N. S.; David Price, at Paradise, N. S.; J. Mills, at Groat Village, N. S.; T. Potter, at Lower Granville, N. S.; and John Lewis, at Port Elgin, N. B.

STUDENT MISSIONARIES.

Fifteen of these were employed by the board during the summer vacation of 1884. Some of these were on fields that were self-sustaining and the amount needed to supplement all their salaries was but \$486.98.

SELF SUPPORT.

Three more mission fields have become self-supporting, viz: Digby, Oshorne and Walton. In all these places the work is advancing steadily.

LEGACIES.

The following bequests have been received during the year—

Table with 2 columns: Name and Amount. Includes Benish Morse, Berwick (\$25 00), Louisa Smith, St. Mary's Bay (30 00), Daniel Wood, Middleton (50 00), Annie Langley, Paradise (16 00), C. R. Billtown (balance) (100 00).

The one discouraging feature of the year is the lack of means to sustain and extend the operations of the board, and it is hoped that the convention may devise some means for more efficiently working our convention scheme in the churches.

SUMMARY.

The 59 brethren who have been in the employ of the board have supplied 146 churches, occupied 233 stations, performed 1,825 weeks of labor, preached 4,101 sermons, attended 3,122 other meetings, used 10,099 religious tracts, distributed 28,542 pages of tracts, baptized 311, and received by letter and experience 116. Two churches have been organized and two reconstituted. The total appropriation for this work has been \$4,646.00.

FINANCIAL STATEMENT OF THE HOME MISSION FUND.

Table with 2 columns: Description and Amount. Includes Income from last year (\$6 52), Special collection at convention (212 64), From churches and individuals (3,108 42), Nova Scotia (1,013 84), New Brunswick (190 00), P. E. I. (200 00), Legacies (200 67), Rents (16 00), Interest from invested funds (24 00), Balance from years book (4 12).

Table with 2 columns: Description and Amount. Includes Total (\$4,796 21), Expenditure—Due missionaries last year (258 33), Salaries and grants present year (4,646 00), 1-3 cost of year book (202 20), Other expenses (94 70), Deficit (505 02).

The Secretary announced that the work he had been carrying on for some years in addition to his pastoral duties was more than his strength would warrant, and he was compelled to ask relief. The matter was laid over until the committee on the convention scheme should report.

THE CONVENTION SCHEME.

Dr. Sawyer, on behalf of the committee appointed to consider the convention scheme, submitted the following report:

Your committee appointed to report on the plan adopted by the convention for raising funds for its several objects submit the following:

That in their opinion the plan will be sufficient to meet the wants of the various boards if it be properly urged upon the attention of the churches, but they also are of the opinion that in order to bring it into successful operation it is necessary that the business connected with it should be placed in the hands of one man, who should be employed exclusively in working out the scheme.

They also recommend that the secretaries of the several boards be constituted a committee of advice with whom the financial agent may confer whenever it may seem to him necessary, and that in case the agent should be temporarily unable to attend to his duties, or if for any cause the office should become vacant, this committee should have authority to appoint a successor, such appointment to hold no longer than the time of the next meeting of the convention.

The committee recommend that the financial agent should have authority to call for a special contribution for any board, if, after conference with the committee of advice, he should decide contributions necessary. They recommend that the agent's salary be \$1000 and expenses.

Dr. Parker moved its adoption. Dr. Sawyer explained and supported the resolution in a very convincing address. He

believed that if this matter were properly brought before the churches, the contributions would be raised in a few years to \$40,000 or \$50,000 a year. After considerable discussion the resolution was laid over to another session.

The Chignecto Marine Railway Traffic Prospects.

(St. John Telegraph.)

Assuming, as the engineers say we safely may, that the proposed ship railway across the Chignecto isthmus can at a fair cost be constructed and make a practicable highway for vessels with their cargoes, what are the chances for a remunerative traffic?

In the first place there are the products of the forests, especially small lumber, produced along the north shore of New Brunswick, Nova Scotia, the Bay Chaleurs and Gaspe Basin. These products would naturally seek a market in the United States, the West Indies, and South American countries.

The products of the sea and the fisheries of the Gulf of St. Lawrence, seeking the United States and the West Indies, are set down at a moderate estimate of 60,000 tons. The product of mines and quarries, coal from Pictou and freestone, plaster and grindstones to St. John, United States and West India ports is calculated at 50,000 tons.

The estimate for the return traffic is 295,000 tons in the aggregate. Among the items are tropical and semi-tropical products, such as sugar, molasses, cotton, coffee, hides, tallow, etc., from South America, the West Indies and Southern States, going to Quebec, Montreal and Lake ports; bituminous coal from Nova Scotia; anthracite from Pennsylvania; freestone, granite (red and grey), iron, marble, grindstones and ores, plaster, merchandise, manufactures and supplies; and the fishing fleets with bait, supplies and cargoes or seeking cargoes, steamers, tugs and small craft.

So long ago as 1825, Mr. Francis Hall, C. E., who was sent out from England to survey the Isthmus for the proposed canal, estimated the traffic at twenty vessels per diem. The great development of shipping, fishing and general trade in the sixty years since Mr. Hall's estimate was made, leads to the conclusion that Mr. Ketcham's estimate of the traffic for the ship railway is not over stated.

East Durham.

(Halifax Herald)

A majority of nearly 400 in a constituency about half as large as Halifax is more than could have been expected. It has been said that East Durham is "a Tory constituency." But it is not, except in the sense that Halifax, Colchester, or Hants are Liberal-Conservative constituencies.

There is no new Franchise in East Durham. There has been no gerrymander there. The Grit candidate was the Secretary of the Ontario Reform Association, and therefore should have the confidence of the party. He is an old campaigner and is always on hand in doubtful contests.

The people can scarcely be called unenlightened. Blake's constituency is at the other end of the same county. The county is one of the finest in Ontario and the people are intelligent and independent. They know something of the Government's methods in the Northwest for many of them had followed Colonel Williams to the front. They were the Midlanders who fought at Batoche. Moreover they received much instruction on the eve of the contest. The Toronto Globe is published not very far away, and it was filled with advice to the Durham people. Port Hope, the largest town, was for weeks well supplied with Grit speeches, as was every place else in the riding. Cartwright spoke at Port Hope and Paterson made a great speech at Millbrook. In both places Grit majorities were turned to Grit minorities, as will be seen by despatches.

It is now pretty well understood to be a dangerous practice to attempt to palm off worthless imitation of the "Myrtle Navy" tobacco for the genuine article. In former years that practice was the cause of much annoyance, and Messrs. Tuckett & Son were compelled to resort to the law courts to put a stop to it. Though they have not met with any cases of the kind lately, it is always a safe precaution for the purchaser to see that the trade mark T & B in bronze letters is stamped upon each plug, no plug ever leaves the factory without it, and to appropriate the trade mark is a punishable offence.
