## THIS PAPER

may be found on his at Geo. F. ROWELL & Co's Newspaper Advertising Bureau (10 Spruce Street, where adve. rates are given) or at the following contracts may be made.

## NEW YORK

## Local and Other Items.

Some of the herbs in Hall's Hair Renewer, that wonderful preparation for restoring the color and thickening the growth of the hair, grow plentifully in New England.

INDUCTION.—Rev. W. B. King was inducted into the rectorship of St. Luke's Parish, Halifax, yesterday at 11 o'clock. The Bishop preached in the morning, and Mr. King gave his introductory sermon at the evening service.

Eminent physicians everywhere recommend Ayer's Cherry Pectoral as the most reliable remedy that can be had for colds, coughs, and all pulmonary disorders. Ask your druggist for Ayer's Almanac; it is the best publication of the kind, and full of information.

BRUIN AGAIN.—A bear was seen Friday last prowling in the woods near John Stewart's farm, at Milton. He has been in that neighborhood for about three weeks, his tracks having been seen on several occasions. It is reported that a party of local sportsmen will set out for Milton to capture bruin to-day.

A FOOLHARDY TRICK.—A Kingston despatch says that a young man hitched a hand-sled to the Kingston and Pembroke Railway train one day last week and was drawn at about forty miles an hour from Wilbur to Levant. The foolhardy young man had a thrilling experience and it will likely be some time before he will repeat the experiment.

THE STAGE.—H. Price Webber, with the Boston Comedy Co., will open in Halifax on the 27th February. Zera Semon is organizing a company for next season. He advertised in the *Clipper* for special artists, and in one week received 275 applications by letter, from which he will pick his company. He promises something fine for next season.

MATRIMONIAL COMPLICATIONS.—An old farmer in Missouri discovered two of his daughters eloping with their lovers. He followed, shot the young men dead and wounded one of his daughters. When he returned home he learned that his other two daughters had eloped. He brought them back without bloodshed, and then his neighbors hung him to a tree.

MOTHERS who have delicate children can see them daily improve and gain in flesh and strength by giving them that perfect food and medicine, *Scott's Emulsion of Cod Liver Oil with Hypophosphites*. Dr. W. A. Hulbert, of Salisbury, Ills., says: "I have used Scott's Emulsion in cases of scrofula and debility. Results most gratifying. My little patients take it with pleasure." Sold by all Druggists; 50c. and \$1.00.

PUTTING THE SHOT.—The P. E. Island champion shot putter, John D. McPherson, says that he will wrestle any man in Canada for big or little money. He also announces his willingness to compete at putting the shot with G. Gray, the amateur champion, and Currie, another big man, at putting the shot for \$250 each in a sweepstakes contest. In case a match is made, Thos. Ryan, of Sault Ste. Marie, Mich., will bet \$1,000 at the mark that McPherson will win.

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. (April 1 '88)

A RICH DISCOVERY.—Mr. James Rourke was in the city last evening, and on his way home from Boston, where he had been having an analysis made of some gold and silver quartz, recently discovered on the property of Wm. Bakoos, at Westport, St. John county. The result of the examination proved that both gold and silver exist in paying quantities in the mine. In a ton of the silver quartz 323 ounces, valued at \$32.50, while in a ton of the other sample, one ounce of gold, valued at \$20.67, was found. Mr. Rourke will proceed at once to form a company for the development of the mine. Some city gentlemen have already asked for stock in the proposed company.—*St. John Telegraph*.

THE CHAMPION MEAN MAN.—The champion mean man has been found in Vermont. A young lady went into a dentist's office a few days ago, and had her teeth examined, the doctor reporting them badly decayed, but, by quite an outlay of money he could put them in good shape. The young lady departed, saying she would report to her husband and call again in a few days. She did so, and on her second call, she was accompanied by her father, the latter telling the dentist to go ahead with the job, and he would pay the bill. Thinking the dentist might wonder why he was paying the bill, the father explained that the husband had said his wife's teeth decayed before he married her, and he was not going to pay for fixing them up, her father ought to do it.

## MARRIED.

At the residence of the bride's brother, Wm. McLean, Cashier of the Merchants' Bank, Charlottetown, on the 24th inst., by the Rev. John Goodwill, William Thompson, J. P., of Albion Mills, Lot 59, to Annie, youngest daughter of the late Angus McLean, of Point Prim.

## DIED.

At his residence, in Souris, King's County, on the 26th inst., at 2.05 a. m., Joseph Doyle, merchant, son of the late Peter Doyle, Fort Augustus, in the 49th year of his age, leaving an amiable and sorrowing wife and two children to mourn the loss of a kind and devoted husband and loving parent. *Requiescat in pace.*

At Lot 48, on the 22nd inst., after a lingering illness, Annie Elizabeth, third daughter of the late Duncan Stewart, in the 23rd year of her age.

Dearest sister, thou hast left us, And here thy loss we deeply feel; But it is God who hast bereft us, He can all our sorrows heal.

## The Fire This Morning.

SHORTLY before three o'clock this morning, watchman Merchant, while going his rounds, made the alarming discovery that the Cameron Block was on fire. He at once gave the alarm. In five minutes or less from the first clang of the bell a stream of water was pouring into the premises. But it was exceedingly difficult to "locate" the seat of the fire. Smoke was issuing from every window in the large building. So dense and hot was it that the firemen could not enter the building for the purpose of discovering the burning part. The Chief Engineer, however, soon came to the conclusion that the fire had emanated from the restaurant known as "The Bijou." The door at the back of the restaurant was broken open, as well as a window in the front, and four heavy streams were as quickly as possible turned upon that compartment of the building, flooding the place in a very short time. As soon as the entrance could be effected, it was found that the fire had started in a clothes closet in the restaurant, directly under the stairway. From this closet the fire upward and along the ceiling, through the beams into the jaws of Mr. E. W. Taylor adjoining.

Chief Engineer Large and the pipemen fought their way through the blinding smoke into the immediate vicinity of the fire, and by their strenuous exertions succeeded in getting the flames under control. By five o'clock the fire was completely extinguished, and the firemen left for their homes.

The damage to the building by fire is in the region of the closet in which the fire started, and along the walls through into Taylor's store.

All the stock and furniture in the confectionery and restaurant is much damaged by water and fire, and everything about the premises is topsy turvy in consequence.

The closet in the restaurant, and in which the fire started, contained, in addition to the clothing therein, about \$40 in cash, which Mrs. McDonald had placed there on Saturday evening, and which she overlooked removing when leaving the store.

The heat of the fire while making its way through Taylor's store cracked a large plate-glass mirror, which had to be afterwards removed in order to allow the hose to play on the burning wall behind. Some of the jewelry, etc., in the show cases and drawers was damaged by the fire, and nearly everything in the store was more or less injured by smoke. The store was also flooded with water.

The cellar of Reddin's Drug Store was flooded with water, and some of the cigars, etc., therein were damaged. A good deal of the goods in the store were also somewhat smoked.

Scott's barber shop was also flooded with water and the furniture had to be removed. The stock and fixings in "The Bijou" are insured in one of the companies represented by Mr. Urquhart for \$300. This sum will not, it is estimated, go very far towards covering Mr. Macdonald's loss.

Mr. Taylor has his stock and furniture insured in the Commercial Union and British American Companies, represented by Mr. Urquhart for \$2,000 in each. His loss is therefore more than covered by insurance.

Mr. Reddin is also, we understand, insured.

The origin of the fire is unknown.

The great value of the waterworks in cases of fire was plainly evident. The uselessness of the fire bell as a means of alarming citizens was also painfully apparent. Several of the firemen never heard a sound of the bell, and many of those whose property was in danger did not know anything about the fire till aroused from their slumbers by special messengers. The sooner we have an electric alarm the better for the public in general.

Messrs. Taylor and Macdonald desire to return their sincere thanks to Chief Engineer Large and his firemen for their good work during the progress of the fire.

## Notes and Clippings.

—There are several ways of addressing a woman, according to her several stations in life: "If she is married, without children, praise the husband. If she is a mother, praise the children. If she is fancy free, praise herself."

—The time when all Canadian bank bills will pass current at their face value throughout the Dominion is brought still nearer by the arrangement between the Bank of Toronto, the Bank of British North America and the Union Bank of Halifax, just announced, by which the former's notes will be guaranteed their face value in the Northwest, British Columbia and the Maritime Provinces, and those of the latter throughout Ontario and Quebec.

—The Boston *Traveler's* remarks: England, true to her great history, exacts for her flag every right guaranteed to it by treaty and international law. Believing it to be time to notify Germany that its game to control Samoa is understood, she informs Bismarck distinctly that he must play the game no further. The tone and authority of Britain in this matter cause Americans to regret that their own government seems somewhat behind time in asserting the dignity and rights of the nation.

—The latest gift of the Queen to her people is received as a most gracious and generous act. She has bequeathed nearly the whole of the jubilee gifts received by her last year, to the nation. The collection will continue to be open to public inspection at Windsor, till, at a future time, it is transferred to some public institution, probably the South Kensington Museum. As a memorial of the present reign, and, as a symbol of the attachment of the people to their sovereign, the gifts will be justly treasured by posterity.

STOCK-TAKING.—Remnants of cloth, remnants of dress goods, silks and satins will be cleared out at a great sacrifice at J. B. Macdonald's. dec-24 d w
