And he set out to describe all that was known of the disaster from popular report, and then went on to relate the circumstances of their picking up the solitary survivor in the whale-boat and the means by which they had arrived at his identity.

Strang listened to the recital without interruption, and when the doctor had finished he sat for some moments without saying anything.

Then he leaned back in his chair and surveyed Thurlow thoughtfully.

This Is The New Medium-Priced Car

For Folks Who Want a Lot of Car for Their Money

The New Packard CLIPPER

If you've reached the point where you want more car... a larger car, a smarter car, a finer car... here it is!

MAYBE you're saying: "Wait a minute! I've got to keep it around thirty-five hundred dollars. Why isn't a dressed-up, low-priced car about what I want?"

We're glad you said "about what you want" because you'd soon discover that a low-priced car dressed up like a "big car" is still a lighter, smaller car by a good deal than a Packard CLIPPER.

And besides, a Clipper gives you the choice of adding power steering, power braking or power shifting . . . all three, if you want them. These are real big-car features really needed for today's tough, teeming traffic.

"Is this Clipper really big?"

Well, check the dimensions: 122-inch wheelbase, 213-inch over-all length. Big as it is, it's still perfectly parkable in tight places. And on the highway, it's a big-car riding dream!

You ask, "Has it got a good engine?"

Did you know that you can own a Packard CLIPPER 4-Door Sedan (Illustrated above) FOR \$3441.00* F.O.B. WINDSOR, ONT.

*Optional equipment and white sidewall tires extra.

Yes, sir!—the most famous engine in automotive history—a Packard engine. Has it got big-car feel on the road? Why not try a ride for yourself—with you at the wheel, and over a road of your own choosing.

So, if you've reached the point where you want more car . . . be sure to see and drive the new Packard CLIPPER and compare it with other medium-priced cars. The Packard dealer nearest you is listed below—see him soon!

In addition to the Clipper, PACKARD is building today a car so beautiful and fine that it is applauded everywhere as "Canada's new choice in fine cars."
