

Liberal-Conservative COMMITTEE ROOMS. MARKET HOUSE

Local and Other Items.

Crossing both ways at the Capes to-day.

BOOK CANVASSER.—A proper person can obtain a good position by applying at the Diamond Bookstore.

THERMOMETER READINGS.—At 9 o'clock last night 12 above zero; coldest during night, 6 below; 9 this morning, 3 below.

NOT TRUE.—THE EXAMINER is requested to state that there is no truth in the report in circulation relative to the loss of the steamer Simon Dumois.

ST. JAMES' CHURCH CONCERT.—As important changes are being made in the programme for the concert on Tuesday evening next, it is found impossible to announce it in to-day's issue. Look out for it on Monday.

JOINTLY RESPONSIBLE.—The coroner's jury, sitting upon the case of a woman who was recently killed in St. John street, Quebec, by a piece of falling ice, have brought in a verdict, holding the city, the owner of the building from which the ice fell, and its occupants jointly responsible.

TYPHOID FEVER.—The Dietetic Gazette says: Regarding the non-medical treatment of typhoid fever it is stated that Dr. I. C. Wilson, one of the ablest students of fever in the United States, together with Drs. Trau and Wolff, at the German hospital in Philadelphia, treated hydropathically (with cold water) 64 cases of this fatal disease without a death and not a single drop of medicine.

IN AID OF THE POOR.—A concert under the auspices of St. Vincent de Paul Sewing Circle will be held in the Lyceum, on Wednesday evening next, 18th inst. An excellent programme of vocal and instrumental music to be rendered by our best performers, is being prepared. Proceeds go towards the relief of the poor. Admission 15 cents; reserved seats 25 cents.

IN THE WRONG SHOP.—Last Saturday night, says a San Francisco despatch, a man entered David Ring's grocery store, and presenting two pistols told Ring to throw up his hands. Instead of complying, Ring grabbed a heavy scale weight and fell the robber to the floor with it. Then he took the pistols away and beat the robber over the head, fracturing his skull.

SUICIDE.—Last week, says a despatch, the chief of police of Galway, Ireland, killed himself by shooting with a revolver, owing to the fact that he was charged with having been concerned in stirring up the recent rows between the soldiers and police, in which a number of persons were injured. It is a coincidence of some interest that the chief who preceded him ended his life by deliberately taking a dose of poison.

ANOTHER CENTENARIAN GONE.—Fredericton Gazette: An old lady, Mrs. C. C. C. died last night at her daughter's (Mrs. Higgins) residence, at Maysville, lived at the advanced age of 101 years and two months. Up to a week ago she often went out for wood, and she could do housework almost as well as in her younger days. She was born in Ireland, but spent most of her life in St. John, coming to Maysville about three years ago.

UNRESTRICTED RECIPROCITY.—St. John Sun: On his recent homeward journey from New York to St. John, Attorney General Longley of Nova Scotia, remarked to a fellow passenger in the Pullman, "The ultimate destiny of Canada is annexation to the United States." When J. W. discovered that the gentleman to whom he had made the remark was a staunch conservative and loyal citizen, he became as dumb as an oyster. Longley will now take the stump on this side of the line for unrestricted reciprocity.

FOR THE POOR.—Br. Baynes has for some time past been giving his services free to deserving poor people; but, understanding that there are many sick who are unaware of this, and prefer to suffer rather than apply as paupers to the Hospitals, he has consented to allow us to announce publicly that he will give his professional services free to all those in a reduced circumstances, irrespective of creed, upon presentation of a letter or card from any of the clergy of Charlottetown or the Island, and Mr. George E. Hughes, of the Apothecaries' Hall, has generously consented to make up the Doctor's prescriptions at cost price.

WILL HE DIE ON THE SEVENTH?—Over in Victoria, says the Seattle Post Intelligencer, they have a citizen who sports the euphonious name of Simon Duck. About himself he is responsible for the following statement, and his veracity has not been impeached: He is the 7th son of a 7th son. In 1867 he left London on the 7th of the 7th month. On the 7th of the next month, at 7 in the morning, he arrived in this country. He ran for Parliament in British Columbia and was beaten by a majority of 7; ran again and was elected by 7 votes. As before remarked Simon Duck's veracity never has been impeached. It will not be necessary to repeat this 7 times.

SKATING.—The United States' speed skating championships were contested at Newburgh, N. Y., on Saturday morning last. Several thousand people witnessed the races. The distances were, quarter-mile, one mile, five miles and ten miles. Jos Doughue, of Newburgh, again proved himself worthy of the title of champion of the world by winning first place in every event. Doughue lowered the world's records for five and ten miles, the new figures being 15 min 36.25 secs and 35 min 54.5 secs, respectively. There were no Canadian competitors.

HAD HIM ON A STRING.—Mrs. Conrad Wagner, of Pittsburg, Pa., walked into the police station at that place a few nights ago leading her liege lord with a rope around his neck. Wagner will be sent to the workhouse. He has repeatedly beaten his wife. He thrashed her on the evening of his arrest, and then fell into a drunken sleep. Mrs. Wagner thereupon took down the washing-machine, bound her husband hand and foot, seized a club and beat him until he begged for mercy. Slipping a rope around his neck and releasing his legs the good woman then marched her lord and master off to the lockup.

SPECIAL DESPATCHES TO THE EXAMINER.

THE CAMPAIGN.

AGAINST UNRESTRICTED RECIPROCITY.

ST. JOHN, Feb. 14.

The Liberal revolt against Unrestricted Reciprocity continues.

Last night Silas Alward, M. P. P., a life-long Liberal, took the platform in this city side by side with Hon. Mr. Foster.

A choir of thirty voices sang "Our Own Canadian Home," the immense audience cheering and at the close singing, "God Save the Queen."

Dr. Stockton, M. P. P., and other prominent Liberals will take the stump next week on the Government side, and will speak against Unrestricted Reciprocity.

The iron manufacturers of St. John are also taking a strong stand against the Liberal policy. They say that Unrestricted Reciprocity will stamp them out.

The dry goods men are taking the same line.

Things certainly look blue for the Unrestricted Reciprocity alias Annexation party in New Brunswick.

Another Whitechapel Murder

Was it "Jack the Ripper."

LONDON, Feb. 14.

It is believed that "Jack the Ripper" has been at work again. The dead body of a dissolute young woman was found in the Whitechapel district yesterday morning. The sight presented was a ghastly one. The throat was cut from ear to ear, and the head was only attached to the body by a small piece of skin. The body was quite warm when found, and the ground near by bears evidence of a terrible struggle. A person suspected of being the murderer has been arrested.

SCOTT ACT REVOKED.

An Order-in-Council Passed

Repealing the Act in Charlottetown.

OTTAWA, Feb. 14.

An Order-in-Council, declaring the Scott Act repealed in Charlottetown, has been passed.

Laurier's Manifesto.

Reciprocity Issue Evaded.

THE GRITS DISAPPOINTED

MONTREAL, Feb. 14.

Hon. Mr. Laurier has issued a manifesto in reply to that of Sir John. He evades the Reciprocity issue altogether. The manifesto is a great disappointment to the grits.

Loss of Life and Property.

PANAMA, Feb. 14.

As a result of the bursting of a dyke yesterday, Cordova was flooded, entailing a loss of property amounting to three millions of dollars. Nearly two hundred persons were drowned.

Admiral Porter Dead.

WASHINGTON, Feb. 14.

Admiral Porter died here yesterday. He served in the rebellion with great honor.

A despatch says that Sir John Macdonald's manifesto to the people of Canada, which is published by THE EXAMINER today, is regarded as a feeling and patriotic document, coming from one who for nearly half a century has been in the public service and during all that period has been actuated with a true desire of promoting the best interests of the country.

The Monetary Times—a commercial journal independent in politics—says: "Unlimited reciprocity changes the issue; and the sins of our tariff must remain unavenged that another question may be tried. A great advantage is exchanged for something that may or may not, for fighting purposes, prove an equivalent." For free trade with one nation, the chance of freer trade with all countries is laid aside. This is a most important consideration.

Thoughts on reading "poetry" in Thursday night's Patriot, signed "Free Trader":

One time I thought, when lonesome Jacob's songs On them's religious and on Ireland's wrongs Fitted all the isle with sanctity and rum, There was for us a golden age to come. I thought that Poesy had settled down Amid the groves that girded Southport Town. But now, alas! poor Jacob's silent shell Is quite forgot by him who waked it well. And lo! here comes the Patriot's raving bard, For truth, for sense, for rhyme, without regard, And manag'd language crawls thro' many a line Of gabbling nonsense and of gritty whine. At noble Donald (may his fame be sung Till envy dies by its own venom stung) This pigmy throws his tiny lance of hate, But finds, alas! that he has thrown too late. With ancient libels his wee shaft is tipped, That were when new quite strong and sharp to sight; But truth has rusted them till now they're stripped Of all their use in battle 'gainst the right

Preparing For War.

Berlin dispatches state that the German authorities are pushing forward military preparations with a rapidity and earnestness unexampled in many years. Two hundred artisans have been added to the number employed in the powder works at Spandau, and the works are run day and night in the production of smokeless powder. As the French army is abundantly supplied with the smokeless powder the Germans would be at a decided disadvantage in the event of war, and for this reason the military authorities of the empire are hurrying forward the manufacture.

The Kaiser has ordered a denial of the story that he expressed apprehension as to the effect of the powder upon the courage of his troops, but by a strange contradiction of conduct he is at the same time trying to find what subordinate heard and betrayed the confidence.

Do the People Like to be Gulled?

IF NOT, HOW IS IT THEY WILL PATRONIZE WORD COMPETITIONS? Why do they buy Shoddy for Cloth? Why do they send, in answer to a foreign newspaper advertisement, for a SOLID GOLD PLATED CASE WATCH, with WALTHAM style movement, when they can get the GENUINE article at a less price than is often paid for the imitation.

Watches have been brought to us by the hundred from parties who have bought as above, and which no respectable Watchmaker could repair and guarantee. Glass for jewels, brass where steel ought to be, and iron for steel. They will go when carried. \$5.00 to \$25.00 is often paid for a Watch that is not literally worth more than the price of old metal.

Now there is no need or excuse to keep up such a trade, for the cheapest Watches made by the large American Watch Companies—the Waltham, the Elgin, the Rockford, the Hampden, the Columbus, and even the despised Waterbury—are far away ahead of the best of these imitation articles, and can be had in those days of perfected machinery at prices far below their actual value.
