The Telephone Company —OF— P. E. ISLAND.

PARTIES using the Telephones would find talking much more satisfactory if they would observe the following rules:—

1st. Speak with the mouth about four inches from the transmitter.

2nd. Speak in a moderate tone of voice, not too loud, and distinctly.

3rd. Place the telephone so as to cover the ear, just as if you wished to shut out all other sounds. Do not press too hard on the ear.

It is possible to talk and be heard when standing back two or three feet from the transmitter, if you shout loud enough, but it is not a pleasant mode of conversation, is entirely unnecessary, and is a useless waste of wind and lungs, besides being very annoying to all within range of your voice.

SAVED!

The testimonial below refers to a patient who was pronounced incurable by leading physicians in England:

From Rev. Dr. Hill.

M. F. Eagar, Esq. HALIFAX, N. S.

Dear Sir,—I feel that it is due to you that I should say publicly what I have said privately very many times, namely, that I firmly believe your PHOSPHOLEINE was the means of restoring a near relative of mine to ordinary health. The patient was apparently in the last stages of Consumption, but with the concurrence of skilled physicians your PHOSPHOLEINE was tried, and, I am happy to say, with results that I certainly did not anticipate. My friend is to-day in the enjoyment of excellent health.

Believe me, yours very truly,
GEORGE W. HILL, D. C. L.

PARNELL,

SIRED BY	DAM
Abdallah Messenger, 4859, Sire of Bijou, 2.25 1-4. Grandsire of Telephone, 2.25.	Dolly, by a son of Saladin. Grand dam by Saladin, he by Bay Middleton.

—THE PROPERTY OF—

P. P. GILLIS, CHARLOTTETOWN, P. E. I.

—(x)—

PARNELL is a rich dark bay in color, with black points. He stands 16 hands high, and weighs 1150 pounds. He is a magnificently built and perfectly proportioned animal, having a finely shaped head and neck, the throat being clearly cut; the chest is broad and deep, giving grand lung power; the shoulders slope well back; the barrel is well rounded and springly ribbed, with strong loins and coupling; the quarters are shapely and heavily muscled; his bone is firm and clean, and his legs and feet all that can be desired. He is a splendidly gaited animal, having a free, open, natural trotting action that is greatly admired by all who have seen him moving in harness. He is good tempered and level headed, and very intelligent looking.

At the Provincial Exhibition, 1892, he showed his license to trot. Being started three lengths behind, and he pole horse, he drove the winner home in 2.40½, which is equal to 2.35 had he got fair play. Parnell has to his credit some of the best looking colts on the Island, and before the snow flies next fall he will have some of the fastest.

In Parnell's veins is mingled the blood of performers and producers—the blood of Black Hawk, of Abdallah 1., of Justin Morgan, of Sambo, of Saladin, and of many others that are renowned in the equine history of the United States and of Prince Edward Island. In style, action, speed, courage, energy, pluck and intelligence he is worthy of his breeding, and breeders can make no mistake in stinting their best mares to this handsome Stallion. If you want speed you must breed for it, and in Parnell you have it. If you want fine carriage horses you must breed for them, and in Parnell you have concentrated the strains that have produced hundreds of our best roadsters His inheritance is such as to justify expectations of the best results.

Parnell will stand at the owner's stables during the season of 1892 at the service fee of $15 00 for a foal. As I expect Parnell to trot below 2.30 this fall, I cannot allow the usual return privileges. Mares from a distance will be kept free of charge for two days.
