BRITISH ADVANCE.

The Swatts Driven Back, But Not Without British Loss.

LONDON, Aug. 18.—A despatch to the Times from Simla says that at least 3000 tribesmen were engaged in yesterday's battle. The batteries prevented them from making a fight at close quarters, but about 1000 held on for some time. Then as the infantry attack developed they fled, and when the other 2000 saw their line of retreat threatened, they moved rapidly away. Lieut. Greaves of the Lancashire Fusiliers and Lieut. MacLean, adjutant of guides, were killed and Captain Palmer was seriously wounded. Lieut. MacLean met his death while trying to carry away the body of Lieut. Greaves. The despatch adds that the whole border seems to be a state of fanatical unrest. General Blood directed the centre of the attack. Colonel Meiklejohn occupying the heights to the right of the enemy's position. The Swatts were seriously entrenched and maintained a steady fire, but the British column carried the entrenchments with great dash and the enemy fled. It is believed that General Blood will order a further advance to-day (Wednesday). There is no longer any doubt that the Afridis are deeply involved in the rebellion, which as yet is in no wise suppressed. Such is the condition of things now that the slightest check to British arms would be the signal for a general revolt.

LOOKING FOR GOLD.

Expedition Makes a Fruitless Trip to Cocos Island.

The sealing schooner Aurora, which left Victoria, B. C., for Cocos Island treasure seeking early in April, returned without the treasure, but bringing a passenger named Charles Hartford found destitute on the island. He claims to have been landed there by the Costa Rican Government with a concession to seek for the treasure, but to have three-fifths for grubstake. He says he did find the buried wealth, but cannot disclose its whereabouts pending an answer from the Costa Rican Government as to why they did not send him provisions every three months as promised. Captain Hackett, of the Aurora, does not place much confidence in Hartford, but he does feel sure that the treasure is still on the island, and two of the crew, named A. B. Whidden and W. Livingstone, have remained to search for it. Mrs. Brennan, an elderly lady, formerly the wife of a Newfoundland sailor named Keating, was a passenger on the Aurora, and supplied the charts, which took them to a spot evidently dug over already in one of the many fruitless searches.

P. Masureik, of the Transvaal who is on a pleasure trip around the world, has lately been in Toronto. Mr. Masureik is a Government mail contractor and an extensive mine owner. He says that half the riches of South Africa are not known to the world. He was one of the party who captured Dr. Jameson at the time of his surrender, which took place a few miles from Mr. Masureik's residence. All the trouble there is believed to be over now and the agricultural sections of the country are rapidly filling up. Mr. Masureik says that the soil is very rich, and he has seen nothing in England or America that is not grown in South Africa. The fruit there, he says, grows much larger and is of a more luscious nature than the fruit of America. Mr. Masureik leaves today for the East and will take the St. Lawrence trip to Montreal and thence goes to the Old Country.

One Source of Pain and Suffering Under Human Control.

The remedy known as South American Kidney Cure never fails to give relief in six hours in all derangements of the kidneys or bladder. Bright's disease, diabetes, inflammation or aceration of the kidneys, renalgia, convulsion, hemorrhage and catarrh of the kidneys, inflammation of the bladder, etc. It purifies and regulates the urine, removes sediment in urine and prevents scalding. It is worth a thousand times its cost for prostatic troubles in the old, such as enlargement, inflammation and ulceration of the prostate gland. Sold by Dr. S. W. Dodd and Geo. E. Hughes.

LONDON, Aug. 18.—The British admiral has ordered the trial by court martial of two of the prisoners on board the British battleship Royal Sovereign, which was about to sail for three years' service with the Mediterranean squadron, so that the whole trouble on board that ship growing out of complaint by seamen, may be sifted.

THE GREAT COAL STRIKE.

WHEELING, W. V., August 18.—The strikers show material gains in all sections of West Virginia today. In the Wheeling district there is not a miner working, while on the Ohio side of the river, the last man, except those who are to furnish coal for water and electric light plants, will be out tonight. In the Fairmont district the strike leaders did not succeed in closing the Montana mine entirely, but they made decided gains.

In the old frontier days hundreds of pioneers were tortured and burned at the stake by cruel Indians. The tortures endured by these martyrs must have been something horrible. There are thousands of men to-day who are being tortured slowly to death at the stake of disease. Their bodies cry out but in a language that only the sufferers themselves can hear. When a man is suffering in this way his body cries out with an aching head, a sluggish body, muscles that are lax and lazy, a brain that is dull, a stomach that disdains food and nerves that will not rest. A wise man will heed these warnings and will resort to the right remedy before it is too late. Dr. Pierce's Golden Medical Discovery makes the appetite keen and hearty. It invigorates the liver. It promotes the natural processes of secretion and excretion. It makes the digestion and assimilation perfect. It purifies the blood and fills it with the life-giving elements of the food. It tears down old and worn-out tissues and replaces them with the firm, muscular tissues of health. It is the great blood-maker and flesh-builder. It is the best nerve tonic. It cures 98 per cent. of all cases of consumption, weak lungs, bronchitis, lingering coughs and kindred ailments. Found at all medicine stores. Accept no substitute that may be represented as "just as good." The "just as good" kind doesn't effect cures like the following:

"Twenty-five years ago eight different doctors told me that I would live but a short time, that I had consumption and must die," writes Geo. E. Coepe, Esq., of Myers Valley, Pennsylvania. "I finally commenced taking Dr. Pierce's Golden Medical Discovery and am still in the land and among the living."

Don't suffer from constipation. Keep the body clean inside as well as outside. Dr. Pierce's Pleasant Pellets cure constipation and biliousness. They never gripe. All good dealers have them.

Mrs. Parkin, Binbrook, says: "I had sciatica so badly I could not put my feet to the floor; pains were intense. Great relief from one bottle—4 bottles completely cured." Mr. J. S. Bates, Grandford, writes: "The best remedy in the world for acute rheumatism. Have tried it and know." Sold by Dr. S. W. Dodd and Geo. E. Hughes.

NOBLES KEEP HER POOR.

Spain Has Many Pensioners and Suffers Also From Absenteeism.

With such a sun and such a soil, why should Spain be poor? Her land is rich with minerals. Her climate is all that vegetation requires to be fruitful. This is mostly true of Italy and Ireland, too, and the cause of the poverty of these three countries is the same. The land is the property of a few nobles, whose only care as landlords is to extract from it enough money to enable them to maintain their rank and live at ease at the court. The tenants know that all they put into the soil only goes to enrich their landlords, and so, taking example from them, they lead a careless life, save nothing and make no effort to increase the productiveness of their land.

But it is not to these facts that the insolvency of Spain is due. The people pay enough taxes to keep the national finances in a sound condition were it not that a large proportion of the money finds its way into the pockets of parasites, creatures of the ministry. There are thousands of needless pensioners, who keep the treasury low.

Here is an instance of the way the people's money is spent in pensions. It appeared in the Madrid newspapers, apropos of the marriage of the pensioner, now an old man. Many years ago, when Queen Isabella was on the throne, this nobleman occupied for one hour only the office of minister of the interior. He had been elected to the cortes, and his father was a friend of the leader of the opposition, who had at that moment just been intrusted with the formation of a ministry. In this task the new premier encountered difficulty. Few deputies would consent to serve. At last, however, he succeeded in filling all the posts but one, the ministry of the interior. Three hours before the newly appointed ministers were to wait upon the queen the young hidalgo called on the new prime minister and presented a letter of introduction from his father, and then without hesitation the premier asked the new deputy, "Will you be minister of the interior?"

The young nobleman started in astonishment, evidently doubting the questioner's sanity. But he was reassured, and before he left the house he had accepted the office. The hidalgo had just time to drive to a tailor's and obtain a ready made court dress in which to be presented to the queen, and then, within an hour, he entered the cortes a cabinet minister. His appointment was immediately condemned by a vote of the cortes, and within an hour he resigned his seat in the cortes, and has never since taken any part in political affairs. But an ex-cabinet minister in Spain is entitled to a pension of 36,000 pesetas a year, and this pension the minister of an hour has drawn regularly ever since.—New York Press.

MORAVIAN VIEW OF DEATH.

A Beautiful and Impressive Custom of the Moravians.

Clifford Howard contributes to The Ladies' Home Journal an interesting article upon the Moravians of Bethlehem, Pa., and their religious customs: "Upon the death of one of the congregation," he writes, "the event is announced, not by the monotonous, mournful tolling of the bell, but by the deep breathing, melodious music of trombones, played in the open belfry steeple of the church by the trombone choir, and as the deep, sweet notes of the familiar hymn are borne to the people below they reverently drop their work to listen. 'Hark!' they whisper, 'the horns are blowing. Some one has gone home! 'Gone home!'—perhaps nothing more beautifully exemplifies the perfect, unquestioning faith of these devout people than that expressive utterance, the sincerity of which is ever demonstrated by the lack of mourning at the passing away of a member of the household, however dearly beloved. So true and heartfelt is the Moravian belief that death is but the entrance to a brighter, happier home. The trombones are also used at the touching funeral services held at the grave, and amid their sad yet inspiring strains the departed one is laid to his eternal rest. On all occasions, whether of death or joy, the trombones lend their sweet solemnity in fitting breath. From the steeple they herald the festival day of each of the choirs, and in all open air services their melodious tones are ever present."

Work by Artificial Light.

Many persons experience great fatigue in working and reading by artificial light. Some attention has been given to this subject, especially in view of reading and study, and the type, paper and illumination most favorable to comfort and health. White light is recommended for all artificial illumination. One should never read at a lower degree of light than ordinary daylight. Very low intensities cause eye strain and weakness, which may result in exceedingly severe and even dangerous mental and physical conditions. It is now an established fact that epilepsy is sometimes caused by eye strain. There are also many other maladies that are primarily caused and greatly aggravated by bad light while using the eyes. Some authorities recommend white paper. Others, notably experienced journalists, insist that straw colored paper and black ink are less taxing to the eyes than white paper.—New York Ledger.
