HOT WATER.

Best of All.
Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households.

"I have suffered for years from a bronchial trouble that, whenever I take cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in returns of my old complaint."—Ernest A. Hepler, Inspector of Public Roads, Parish Terrebonne, La.

"I consider Ayer's Cherry Pectoral a most important remedy.

NEW STEEL BOILER.
No joints to leak; no sections to clean. A large area of heating surface exposed, and less fuel consumed, than by any other boiler in the market. A guarantee for a term of years given with every service.

Also—Our new UPRIGHT RADIATOR, it occupies less space, and is more effective and less expensive than any other in the market.

We keep constantly in stock a large supply of Pipe, all sizes, Black, Galvanized and Lead. Also, Steam Fittings of every description, in Brass and Iron; Rubber Hose and Fittings for same, for washing windows, carriages, and for sprinkling lawns.

A first class Plumber kept constantly employed, who is prepared to give estimates for fitting Dwellings with Hot and Cold Water, Bath Tubs, Wash Basins and Closets, in the latest and most improved manner. References given if required. Telephone connection.

Best of All.

For Home Use.
I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults."—Mrs. E. G. Edgerly, Council Bluffs, Iowa.

"Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and before I had finished one bottle, found relief. I continued to take this medicine until a cure was effected. I believe that Ayer's Cherry Pectoral saved my life."—Samuel Griggs, Waukegan, Ill.

"Six years ago I contracted a severe cold, which settled on my lungs, and soon developed all the alarming symptoms of Consumption. I had a cough, night sweats, bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever."—Rodney Johnson, Springfield, Ill.

Ayer's Cherry Pectoral,

PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists. Price \$1; six bottles, \$5.

A CONFAB.

"GOOD MORNING, Farmer John. How is the travelling to-day?"
"Very bad; nearly ruining my horse's feet. They are always very sore after going home from town."

"What do you think is the matter with them?"
"I think they call it greased heel, or scatches, and some say it can't be cured."

"Oh, that's nothing. You get the MAGIC HEALER SALVE, and you can soon cure them. Did you not see the testimonials from Davies, Finlayson, Duff and Hooper in the papers a few weeks ago?"
"Why, no; I don't get any papers now, so I didn't see them."

"My dear fellow, you go to any of the drug stores and ask for the Magic Healer Salve, and I'll guarantee that if you wash your horse's feet at night, and rub the Salve well into the sores, they will be thoroughly cured in a week."

"Well, on your recommendation I'll give it a trial; and if it does what you say, money will be no object. Good day, and thank you for the information."

Meeting of Grand Division.

The meeting of Grand Division held at North Wiltshire on the 19th April was a very successful one. About 120 persons were in attendance, representing 24 divisions, located in Charlottetown, Little York, Winslow Road, New Glasgow, Hunter River, Hazel Grove, Springfield, Long River, Stanley, Margate, Kensington, North Bedouin, Alberton, Freeport, Kingston, Long Creek, Cornwall, Riverdale, North Wiltshire. In the absence of Rev. W. P. Archibald, G. W. P., on account of the severe illness of Mrs. Archibald, Edwin Proctor, Esq., G. W. A., presided. A number of new members were initiated, and during the forenoon session the reports of grand officers were read, verbal reports from subordinate divisions made and the following committees appointed:

On State of the Order—R. M. Barratt, John R. Edwards, C. B. Warren.
On Finance—J. W. Waldman, David Arbing, A. D. Fraser.
On Grand Scribe's Report—Silas F. Hodgson, Simon W. Crabbe, N. Peardon.
On Public Meetings—Jas. McKinnon, Wm. Burns, Wm. Campbell.
On Obituary—R. M. Barratt, Jas. Carruthers, Alex. Horne.

The Grand Scribe reported the order in a good healthy state, and the past quarter a successful one, four new divisions having been organized and four dormant ones re-organized.

The Grand Treasurer reported the amount on hand \$310.

During the afternoon sitting the several committees presented their reports, which, after being properly disposed of, considerable time was occupied discussing the present attitude of the politicians towards the temperance question, and the desirability of organizing a new or prohibition party. The discussion was interesting and at times quite animated, many of the oldest, ablest and most advanced thinkers and workers taking part.

The Most Worthy Patriarch, Rev. J. Alder Temple, having signified his intention of visiting the Province during the summer, the following were appointed a Reception Committee:—Simon W. Crabbe, Geo. W. Wakeford, Alexander Horne, Jesse S. Burns, James Carruthers, D. Stewart.

In the evening a public meeting was held in the Methodist Church, which was, notwithstanding the bad state of the roads, filled to overflowing with an intelligent and very attentive audience.

Alex. Horne, Esq., occupied the chair, and the speakers were John R. Edwards, who gave an address of welcome, S. F. Hodgson, who responded on behalf of the Grand Division, Nathaniel Peardon, John M. Campbell, Rev. J. A. Gordon, R. M. Barratt and James Carruthers. Readings were given by C. B. Warren and David Small, songs by Prof. John Ross, recitations by Miss Bryenton, solo by A. B. Dickieson, and music by members of the Order. The speakers seemed to have lost none of their old-time popularity. The readings were remarkably good, and the songs of Prof. Ross brought down the house every time. The recitation of Miss Bryenton was very appropriate, and particularly well rendered, and the music was well received. Taken altogether, the meeting was a grand success. The members of the Grand Division, one and all, speak in terms of highest praise of the kindness and hospitality of the people of North Wiltshire.

What a Mistake!

One half of all the people in this country have been or are now afflicted with catarrh or bronchitis. No doubt many of them have tried every blood purifier they have seen, with the erroneous idea that catarrh is a constitutional disease of the blood. Why, a greater mistake was never made! Stop for a moment and ask any reputable physician what common catarrh is, or bronchitis (which is a catarrh in the bronchial tubes), and what causes it, and the answer can only be this: "It is an irritation or inflammation of the mucous membrane of the nose and throat, caused by neglected colds, damp, piercing, irritable winds, foreign matter in the air, which is poisonous to some persons and not to others; just as the bites of a certain insect is a poisoned torture to some and no unpleasant affect to others." The reason for this is found in the different structure of the outer skin and its counterpart which lines all the inner organs of our bodies. Some people have calloused hands and chillsblains and others are never so afflicted because of the peculiar structure of the skin of different individuals. It is not blood purifiers you want, but good, wholesome food, the plainest the better, then "keep your feet dry and warm, your head cool, and bowels open," and use an external application (Johnson's Anodyne Liniment is the best we know) to allay the inflammation, cleanse the surface, heal the sores, and your catarrh will disappear like magic; we do not say never to return, because you may cure a severe cold and in three months catch another equally bad; so with catarrh and bronchial troubles, exposure may bring it on again. We learned more about treating catarrh from a wrapper around a bottle of Johnson's Anodyne Liniment than we ever knew. Certainly this good old medicine deserves to be called "A universal family remedy." It will pay you to send to J. S. Johnson & Co., Boston, Mass., for a pamphlet, free, just to learn how to use the liniment economically. A teaspoonful properly used will do more good than a half bottle as some people use it. This liniment is made from the formula of an old family physician.

About Horses.

The Percheron Horse Association recently shipped two cars of fine young horses from Cheyenne, consigned to New York City. The animals are said to have had the characteristics of Wyoming range-bred horses—exceptionally good lung power, fine muscles and faultless feet and legs. Not one of the thirty six youngsters could be called inferior in any respect.

Jimmy Goldsmith, who will divide the honors this season with Budd Doble, in the matter of having a big stable of first-class horses, has adopted a new form of campaign, and the first principles that he enunciates in connection with it, is that under no circumstances will he ever train his horses over a half-mile track, his idea being that in the case of animals that are to go to the big meetings and perform exclusively on mile tracks, such a preliminary education is a detriment. This is why Goldsmith went to the Fashion farm, at Trenton, N. J., not long ago, and he took with him more than a score of trotters.

Struck by Lightning.

The Canning, N. S., Gazette says: Last Monday afternoon we were again visited by a thunder storm, but of very brief duration. A very small house a mile below Canning owned by Mrs. Barron was struck and almost wrecked. Mrs. Barron and her daughter had just arrived home, the house being shut up. They had been in the house but a few minutes, and Mrs. Barron was just lighting a fire when the lightning struck the chimney bursting it from top to bottom, burst out the windows, in some cases taking out the whole sash and burst out the end of the house. The house was but a very small one, 30x20, and from ground to top of chimney was not over 20 feet high. The occupants were considerably shaken. Mrs. Barron's shoe was torn completely from her foot, and her daughter's face was burnt by the lightning as it passed out of the window by her. The only wonder to those who have seen the house is that it was possible that any one could have been in it and escaped alive.

Oxford and Cambridge.

In the course of his address at the last convocation, Principal Grant, of Queen's University, said:

"This time last year I was in Oxford, where I had the pleasure of addressing the students of Mansfield College, and of seeing, under the guidance of Principal Fairbairn, the warden, and some of the men of the University. Its heads and graduates, I may say, never speak of it as 'this great University,' and when a stranger ventures on a compliment they laughingly disclaim it or seriously acknowledge their shortcomings. At this distance, however, I can venture to tell you that there can be only one Oxford and one Cambridge. We may have in Canada what will suit most of our young men better. No doubt of that. But we cannot have these. When I visit countries like the expanding States to the south, or the cities under the Southern Cross, whose growth has been still more rapid, and graduates point out to me some new and stately college hall or richly endowed University, I always say to myself, 'There is no reason why we may not have as good as that in Canada, and we shall have it, too, as our country grows older.' But a different feeling comes over one as he walks through the gardens of Magdalen, or hears the thunders of the Sheldonian, or worships in King's College chapel, Wordsworth's ode mingling with the music of the 'scanty band of white-robed scholars.' You cannot duplicate the Bodleian. You cannot give an order for the memories of a thousand years. The precious possessions of the British Empire are stored there. They are there for us. They are our cradle, our birthright, our heirlooms. They are not to be bought or stolen. Barnum could buy Jumbo, but not these, and as for stealing, the world has pronounced righteous judgment on the carrying away to London of the Elgin marbles and Napoleon's pillage of museums, as it has on the looting of the Emperor of China's summer palace."

Local and Other Items.

ISLAND REVENUE.—The Island Revenue receipts at Halifax last month were \$20,237.

NEW HALL.—The St. Mary's Young Men's Temperance Society, of Halifax, are to build a handsome new hall in that city.

No greater triumph in medicine or chemistry has been recorded than Hall's Hair Renewer to revivify and restore gray hair to the color of youth.

ISLAND HORSES.—Mr. Arthur Milligan is in St. John with a lot of P. E. I. horses, which are being fed at Campbell & Fleming's stable, Union Street.—St. John Tel.

WATERWORKS.—Wolfeville, N. S., has voted to adopt the act to authorize the establishment of a water service. The act was carried by 56 majority.

ANOTHER LIBEL SUIT.—Montreal advises state that Judge Dugas has entered an action against Lemonde newspaper for defaming his character while he was on the Megantic expedition hunting up the outlaw Morrison.

DIED FROM HIS INJURIES.—The 14-year-old son of Michael Malone, Upper Wood's Harbor, N. S., died a week ago from the effects of an axe-wound in the foot, inflicted by himself while chopping wood some weeks ago.

SUCH IS LIFE.—Morrison, the Megantic outlaw, is doing well in prison, at Sherbrooke, Que. He eats hearty and sleeps well. The ladies have taken a great interest in his case, and some of them have begun to present him with bouquets.

In the use of Ayer's Sarsaparilla, you need have no fear of arsenical poison, this medicine being entirely free from all dangerous drugs. Its powerful effects are due to the skillful combination of the best ingredients, and hence no ill results ever follow its use.

A RIGHT MOVE.—The Halifax people have decided to spend \$2,500 for advertising their carnival in the Canadian and United States papers, etc. It is proposed to send a man through the provinces to distribute advertising matter and put up posters.

The superior merits of Ayer's Cherry Pectoral as an anodyne expectorant is due to a skillful combination of the most powerful ingredients. Nothing like it has ever been attempted in pharmacy, and its success in the cure of pulmonary complaints is unparalleled.

A BIG STRIKE.—A general strike of building trades has been inaugurated at Pittsburg for an average advance of 25 cents per day and union workmen. Nearly all the carpenters, joiners, brick-layers, hod-carriers and stone-masons in Pittsburg and Allegheny city are idle. The strike works about 5,000 men.

HOW IT WORKS.—Prohibition, apparently, is about as great a success in Maine as it is in Kansas. The New York Herald recently published a lengthy letter from Bangor showing up the situation there, over which such head-lines as the following were placed:—"Worse than Portland." "Bangor Flooded with Rum and the Citizens Proud of it." "Nearly two hundred Saloons in the Prohibition City protected by the police and patronized by everybody."

A PROBABLE WRECK.—According to a Liverpool, N. S., despatch to the Halifax Chronicle, "a quantity of wreckage had been coming ashore since Sunday at West-head. The material that has been found consists of a bulkhead board, dory, oars and fixtures, vegetables, etc. These would indicate that a fishing vessel has been stranded near this place during the fog of the last few days."

NEWFOUNDLAND NEWS.—An exchange says: The Aurora arrived at St. John's, Nfld., on April 22nd with the weight of 18,000 seals. She spoke the Wolf with 3,000 seals. During the voyage a Scotchman of the Aurora's crew died suddenly, and was taken to St. John's for burial. Vessels arriving at Placentia report finding fish scarce. Twenty banking vessels were there on the 22nd ult., seeking bait. James Parrall, of St. Mary's, while trawling in a dory belonging to the Telephone, fell overboard and was drowned. Twenty cases and one death of diphtheria are reported from Placentia.

THE RING.—At Woburn, Mass., on Friday night there was an exciting sparring match between Jack C. McGee, (well known in Charlottetown) and the Woburn favorite, Tom McCarthy. It was their first experience together in the ring, says a despatch. McGee was slightly shorter than his antagonist, but with more flesh, and shoulders of prodigious size. McCarthy had some advantage in reach. Cautious sparring opened the first round. McCarthy got in the most effective work. McGee's blows were powerful when they reached their mark. In the second round McGee received stinging blows on the head and neck, which sent him spinning round, but he recovered quite easily, and used his left to good advantage. Both got to work at once in the third round, and exchanged hard blows. Twice did McGee go to the floor, as it was supposed, to get away. The last time McCarthy followed it up, and the referee gave McGee the fight on a foul, to the disgust of the spectators.

Personal.

Most Rev. Andrew Higgins, D. D., Bishop of the Catholic diocese of Kerry, Ireland, is dead.

It is stated that a marriage between the Crown Prince of Italy to the Princess Clementine, third daughter of the King of the Belgians, will soon be arranged.

It is reported that at the time of General Boulanger's flight from Paris, six boxes weighing 500 pounds filled with gold and silver plate and jewels arrived in Brussels for him.

Just received, a large lot of cast iron kitchen sinks, which will be sold cheap at A. Herman & Son's. ap30 3i
