**Even in Antarctica You Can't Get Away From The Telephone**

**EDITOR'S NOTE:** Antarctic exploring isn't what it used to be. These days the hardy adventurers relax in comparative luxury. Here's the lowdown on polar high living by an AP correspondent just back from Antarctica.

By JIM TOMLINSON  
NEW YORK (AP) — Imagine having all the comforts you now enjoy—except television and the telephone.

In that case, you're in Antarctica. And you can't count too much on the phone ringing. Scientists and navy construction workers are dug in now at seven U.S. outposts in the south end of the world. Six are science stations built for observations during the International Geophysical Year that starts July 1. The seventh is an base. Eighteen men are encamped at the South Pole station. Others are hundreds of miles away at Little America V, Marie Byrd Land, Weddell Sea, Knox Coast, Cape Hallett and McMurdo Sound.

**Toronto Geologist Is Backing Expedition To French Guiana**

TORONTO (CP) — A Toronto consulting geologist said Monday he has backed an expedition into the unexplored jungles of French Guiana in search of new fortunes in gold, diamonds and other minerals.

R. J. Cook, who makes his home at Blind River, Ont., said the six-man expedition, headed by Toronto taxi driver Bill Smith, is "a very serious expedition to assess the mineral potential" of the small country on the northeast shoulder of South America.

**CONTRACT BRIDGE**

By B. JAV BECKER  
Once this is done, no defense can break the contract. East wins after the ace but cannot afford to return a low diamond because South simply lets it run around to dummy's ten. East presumably will shift to his singleton spade.

Declarer goes up with the ace but from then on can do nothing to defeat the contract. Thus, if another spade is played dummy ruffs the high, a trump is drawn, and the king of clubs provides a berth for South's losing diamond. Or, if the eight of diamonds is returned instead, the same result follows.

**BEDTIME STORIES**

**The Right Tree**

Of first importance well may be Not what but where your home shall be. —Redtail the Hawk.  
Mr. and Mrs. Redtail, biggest of the Hawk family living in the Green Forest, were much upset. They had expected to use the same nest they had had for several years before. It was a big nest in a lonesome part of the Green Forest. It was big because each year they had added to it. They had not hurried back this year from their winter home because they felt there was no need to hurry. They wouldn't have to spend a lot of time building a nest. They planned to just make their old nest comfortable.

**Asbestos Co. Plans Changes**

THEFTFORD MINES, Que. (CP) — A spokesman for the Asbestos Corporation Limited said a readjustment in the company's mining and milling operations will result in the lay-off of approximately 115 men for a period of one year. The company now employs approximately 255 men.

He said the readjustment is connected with a program for relocating mining operations in this town 80 miles south of Quebec City. Production at the corporation's Beaver Mine will be halted June 1 for a one-year period, the spokesman said, while the capacity of the mine's mill is greatly increased.

**ONLY POLAR RESOURCE**

Each man washes his clothes and himself with water obtained by melting snow. So far, water in the form of snow is the Antarctic's only usable resource.
