

THE DAILY EXAMINER.

JUNE 21, 1883.

Editorial Notes.

—This choice morsel is clipped from an article in the Toronto Globe on Sir Charles Tupper:—"Whenever the Government were hard pressed he came to their rescue with his loud-mouthed declamation, his superabundance of stereotyped phrases, his great strings of adjectives, his bold assertion, his bitter recrimination, his fierce vituperation."

—The death of the Right Reverend J. W. Colenzo, Bishop of Natal, is announced. Dr. Colenzo has been for many years past in open hostility with the Church of England, his opinions and writings on certain points not being regarded by the Church as orthodox. Notwithstanding this rupture, he retained his position as Bishop of Natal, despite persistent efforts to replace him. He was one of the greatest mathematicians of his age, and his "Colenzo's Algebra," which is now recognized as the best work of its kind yet published and generally accepted all the world over as a standard text-book of instruction—will live for many years as a memorial of his ability.

"Probably the readers of THE EXAMINER are not aware that they are reading, day after day, telegrams which are copied from the Provincial papers and passed off, with an alteration in the dates, for 'Special Despatches to THE EXAMINER.'"—Patriot.

The statement contained in this paragraph is absolutely untrue. THE EXAMINER receives special telegrams every day and gives news to the town twenty-four hours in advance of the Patriot. If this were not so, the Patriot would not be so mad over the little bit of badinage about the telegraphic information which it published concerning Judge Fournier and the three barrels of alcohol. We ask persons who may doubt what we say, to compare the special telegrams published in THE EXAMINER, with the "General Telegraphic News" which appears in the Patriot, or to step round to THE EXAMINER office and see the receipted accounts for telegrams.

—The Patriot's mad attack upon the character of the Hon. Donald Ferguson proves:—

1. That the charges preferred by THE EXAMINER respecting the public conduct of Mr. L. H. Davies cannot be squarely met. Mr. Davies did promise to bring the claim of the Island to a share of the Fishery Award before Parliament. Mr. Davies did not do so. Every one knows it. The item providing for a refund of the fish duties paid by our merchants many years ago to the United States, was withdrawn on account of the illimed and quite unnecessary interference of Mr. Davies. Every one knows it. And so the Patriot rages about Mr. Ferguson!

2. That THE EXAMINER's criticisms were, in the estimation of the Patriot, vigorous and to the point. Mr. Ferguson is well known to be a hard and skilful hitter; that's how it is that THE EXAMINER's articles are imputed to him.

3. That Mr. Ferguson is regarded by the Patriot as the coming man to represent Queen's County in the House of Commons instead of Mr. Davies. Well, if Mr. Ferguson should be honored with the confidence of the people of Queen's County at the next general election, we feel sure that he will not, from his place in Parliament, run down the credit of the Island.

An Age of Dynamite.

Prof. Mezzero, who claims to have taught the Irish dynamiters in England how to make and use nitro-glycerine, delivered a lecture in New York recently before the "Fenians' Defence Association," in which he discussed the future dynamite, and the great work it would perform in defending and protecting the weak and poor against the rich and prosperous, and in raising and benefiting oppressed humanity. The professor declared that he possesses recipes for the manufacture of forty-three different kinds of explosives, every one of which is more powerful than the most powerful gunpowder, and several of them cheaply and easily manufactured; and announces that he will make them known for the benefit of oppressed humanity at the proper moment. He sees the time when dynamite will be the great weapon of protection; when a man who fears an attack of violence of any kind will go around armed with a chunk of dynamite instead of a revolver. If attacked, he has only to draw this dynamite, cast it violently at his enemy who will be at once swept off the face of the globe. If dynamite is going to be the concealed weapon that the professor suggests, one's enemy will not be the only one in danger. A man with his pocket full of the explosive may sit down too suddenly, and, like Mark Twain's nitro-glycerine-soaked boy, be waded straight to heaven; and it will be exceedingly dangerous to clap a friend on the shoulder lest he may be loaded. In fine, if the coming age is to be an age of dynamite, as O'Donovan Rossa and Prof. Mezzero declare, the average man will have to be very guarded and careful in his actions, since a sudden movement, a slip or fall would mean certain death.—Toronto World.

Advices from Sierra Leone state that Chief Gbow has again made a raid upon the British settlement in Sherbro. A British expedition was sent out against him, and succeeded in capturing and burning four of his stockaded towns, including one which was garrisoned by 1,500 warriors. The British sustained no loss of men, owing to the effective use of the battery on board the gunboat Rocket. Gbow fled, and a reward is offered for his capture.

TELEGRAPHIC NEWS.

[SPECIAL DESPATCHES TO THE EXAMINER.]

Closing the Howell Case.

SUMMERSIDE, June 21. The Crown closed its case at eleven o'clock, and Hodgson opened for the prisoner. His defence was that the prisoner and deceased were in a scuffle, when the gun accidentally went off. The gun was not loaded with shot, and had not deceased attacked Howell, no shooting would have occurred. Evidence for defence was then called; and Hodgson is now closing for prisoner in a powerful address. The case will be over this evening. Court House packed.

Bishop Colenzo Dead.

NATAL, June 20. The Right Reverend W. Colenzo, Bishop of Natal, is dead.

A European Massacre Feared.

PARIS, June 21. A hitch having occurred in the negotiations between France and China, it is now feared that if war be declared a general massacre of all Europeans by the Chinese will be the immediate result.

A Royal Bock Yard Burned.

AMSTERDAM, June 21. The Royal Dock Yard caught on fire yesterday and much damage done. Two large war ships were destroyed, as well as many smaller crafts.

Irish Sea Fisheries Encouraged.

LONDON, June 21. The House of Commons passed the second reading of a Bill which provides a grant of two hundred and fifty thousand pounds, £250,000, collected from the Irish Church funds, to promote and encourage the sea fisheries of Ireland.

Telegraph Notes.

An official report states that the revolt of the Albanian tribes has been suppressed and the Albanians are asking for amnesty.

It is stated in Montreal that a new English Steamboat Company has been organized to take up the trade between Canada and Brazil.

Phipps, the Philadelphia almshouse forger, has been refused a new trial. His sentence has been deferred until the 30th inst., to give him time to arrange his affairs.

The action to recover £800 sterling from the Seminary in Montreal, brought by the Caughnawaga Indians, was dismissed by the Supreme Court of Canada, on the ground that the Minister of the Interior must intervene.

Numerous Hollanders residing in the Prussian district of Viersen, on the Dutch frontier, who have recently reached military age, have been notified that they must become Prussian subjects or leave the country within six weeks.

A fire broke out in a wood store at Lyons, France, on the 19th inst., and despite the strenuous efforts to extinguish or prevent the spread of the flames, the fire now covers two acres. Forty railway cars have been burned. Train service between Lyons and Geneva is interfered with.

The Queen of Spain passed through Paris on Wednesday, the 13th inst., on her way to meet her mother at Franzensbad. Madrid is rife with rumors of a great court scandal, to the effect that having ascertained the relationship of the King with a lady of the royal circle, the Queen fled with her children, and will never return.

In the Italian Chamber of Deputies, in a debate on the tariff question, Signor Gigliardo declared that the fear of America competing with the Italian grain trade had little ground. Cereals from America, he said, were always dearer than Italian cereals, and it was absurd to impose an import duty on foreign productions.

An encounter took place at Morrope, Peru, on the 30th ult., between 200 prefectural troops and 300 Monteneros, a large number of whom were unarmed. The fight lasted five hours. The prefectural troops were victorious. The Monteneros lost two officers and twenty-five men. On the prefectural side there were fourteen killed, including Major Correa. The Monteneros are being pursued.

Temp's says that 3,500 French troops and 1,000 Annamite auxiliaries, besides landing parties from the French squadron, will arrive in Tonquin within a fortnight. The Malagasy envoys had an interview with Prime Minister Ferry yesterday, before the news of the capture of Tamatave had been received. It is thought that all further negotiations will now be left in the hands of Admiral Pierre and the French agent in Madagascar.

Sir Stafford Northcote, Conservative leader in the Commons, called attention to John Bright's speech at Birmingham, last Thursday, and declared that Mr. Bright's statement on that occasion, that the Conservatives are in alliance with the Irish rebels in thwarting the House from doing work, was unfounded, and he moved that the utterances of Mr. Bright be declared a breach of privilege. Mr. Bright replied and said if the Irish members of Parliament would disavow connection with the disloyal societies in America and declare their loyalty to the crown, he would withdraw the word "rebel," and apologize for having used it. Sir Stafford Northcote's motion that the utterances of Bright be declared a breach of privilege, was rejected by a vote of 151 to 117—almost entirely a party division. The Parnellites voted with the Conservatives in favor of the motion.

Weather Bulletin.

Probabilities for the next 24 hours for the Maritime Provinces.

TORONTO, June 21—10 a. m.

Moderate to fresh southeast to southwest winds; cloudy to fair weather with local showers, not much change in temperature.

BRANTFORD MOWERS, REAPERS & BINDERS.

THE undersigned is now prepared to supply Farmers with any of the above-mentioned Machines. After thirteen years experience in the Machine business, he is convinced that the Brantford Machines are the most perfect ever offered to the farmers of this Island. Thousands of testimonials from Farmers who have used the Brantford Machines could be given; but the following, from the highest authority in the Dominion, will be sufficient to convince the intelligent Farmers that the Brantford is a first-class Machine:—

ONTARIO AGRICULTURAL COLLEGE, GUELPH, 8th January, 1883.

Messrs. A. Harris, Son & Co. (Limited), Brantford, Ontario.

GENTLEMEN.—It affords us particular pleasure to testify regarding your BRANTFORD REAPER, which we have had in use for two years. During the last eight years we have had some ten other reapers on trial, and it is our experience, after a thorough handling, that none of them equals the Brantford in ease of management, quality of work, strength, and particularly taking up lying grain and keeping in repair. This testimony was given unsolicited by you.

(Signed), W. BROWN, Farm Superintendent.  
(Signed), P. J. WOOD, Farm Foreman.

D. MACKENZIE, Scott's Warehouse, Kent Street.

Ch'town, June 20, 1883.

GET THE BEST!

THOSE IN WANT OF SPECTACLES

SHOULD

CALL AT E. W. TAYLOR'S,

SOUTH SIDE QUEEN SQUARE, CITY.

HAVING had many years experience in fitting and adjusting Glasses, both in England and this country, he is confident there are not many having a deficiency of vision, who, by trying his Glasses, will not find themselves considerably benefited, as many residents of both city and country can testify.

Some persons are already using Glasses to strong for them, thereby injuring the eye. Others are trying the eye too much by not using Spectacles when they really need them.

For Long or Short Sight or Weak Sight,

WE KEEP A SELECTION OF

SPECTACLES AND EYE-GLASSES,

—IN—

Gold, Steel and Unrivalled Celuloid Frames, made by one of the best Optical Manufacturers in the world.

E. W. TAYLOR, WATCHMAKER & OPTICIAN, CHARLOTTETOWN.
