The Markets

There has been a drop in potatoes, the result of heavy supplies in the United States' markets. Hebrons, Early Rose and Garnets are still selling here at 25 cents per bushel, but other varieties are down to 20 cents. There seems to be a scarcity of potatoes all round, and it is likely that later in the season, or next spring there will be another rise. A good many potatoes have been sent to Montreal, and the schooner Marie Vigilante is now loading potatoes at the Railway Wharf, Alberton, for the Montreal market. Latest advices state that the price there is 52 cents for a bag of 90 lbs.,—a bushel and a half. That would be at the rate of 35 cents per bushel. Taking cost of freight and bags and handling, as well as depreciation, into consideration, there will not, at this rate, be much left for the shipper, who purchases them at 20 cents. We understand that a large shipper here is prepared to send a steamer load to Montreal if he can obtain 40 cents per bushel for them laid down in that market. Private advices state that people there are compelled to pay for potatoes, by retail, as much as 25 cents per peck; and it is not unlikely that prices in Montreal and other towns of the larger Provinces will advance considerably.

The price of oats in this city remains at 34 cents per bushel for white and black, with no change to note in the markets abroad. For hay the price continues to be \$10 to \$11 per ton.

The price of pork ranges from four to six cents as to quality. In Montreal the price of Canadian short cut per lb. is \$16.50 to \$17.00, and of Western mess from \$14.50 to \$15.50. In Chicago, October pork is quoted at \$11.50.

—Since Lord Rosebery took charge of the Foreign Office there has been no abatement of a vigorous African policy. The essential departure from Lord Salisbury's methods is that what Lord Salisbury did through chartered companies Lord Rosebery proposes to do through and in behalf of the Imperial Government. Uganda will not be abandoned. So much is certain. But it is also certain that the reign of the British East Africa Company in Uganda will come to an end. Uganda will be occupied by British troops for Great Britain.

—The Boston Herald explains the position of the United States with regard to the seizure by Russia of sealing vessels in Behring Sea. The Herald says:—
"Of course the Russian claim to extraordinary jurisdiction in Behring Sea rests upon the same grounds as the pretensions from the alleged right which Russia transferred to us at the time of our purchase of Alaska. The Herald has more than once indicated its entire disbelief in the soundness of these pretensions, and in anticipation of the finding of the international tribunal has never hesitated to condemn the action of our state department in resting what could easily be made a good and equitable case upon such an archaic and worm-eaten fountain. It hardly need be stated that if we did not have a seal controversy of our own the seizure of authorities and the barbaric treatment which the crews of these vessels have had to endure, would arouse the indignation of our people, and if it were granted by the English instead of the Russians would be used to fan up a feeling that would demand a declaration of war if reparation were not instantly made. But this fine show of spirit has to be suppressed, first, because if the claims we are making upon a certain part of Behring Sea are to have any force and effect, the Russian cruisers are fully justified in seizing these American sealing vessels, while curiously enough, it is very much easier when American citizens are maltreated to evoke sentiments of hostility if the persecutors are English officials than is the case when the barbarity is practiced by representatives of the Russian government. This, too, although the latter is the greatest and most intense despotism that exists upon the face of the earth."

Crisp and Casual.

Ten days per annum is the average amount of sickness in human life.

The sunflower bears 4,000 seeds, the poppy 32,000 and the tobacco plant 70,330.

If London streets were put end to end they would reach from the city to St. Petersburg.

A German geologist estimates that the Dead Sea will be one mass of solid salt within less than 500 years.

Professor Huxley says that an oyster is a far more complicated piece of machinery than the finest Swiss watch.

A dog market is held every Sunday in Paris, where it is possible to buy anything from a black and tan to a huge mastiff.

Mme. Carnot, wife of the French President, smokes cigarettes after her meals, but only a mild and sweet scented variety.

Oscar Wilde is said to be deep in the development of a new flower, a golden veined tulip, which he declares to be "a triumph of classic horticulture."

Clothing—Our immense stock of fall and winter clothing is so large that we have not the time to count the number of garments, but we can assure the public that nowhere in P. E. Island can a finer or more extensive stock be seen. Our prices are really and truly the lowest yet reached. Try us and be convinced at J. B. Macdonald's Great Clothing Store, 132 Queen St. 027 61

New silver plated ware now being opened at W. W. Colwill's.

Onward and Sunward.

Others shall sing the song,
Others shall right the wrong.
Finish what I begin,
And I fail or win.

What matter I or they,
Mine or another's day,
So the right word is said,
And life the sweeter made.

Hail, to the coming singers!
Hail, to the brave light-bringers!
Forward I reach and share
All that they sing and dare.

I feel the earth move sunward,
I join the great march onward,
And take by faith, while living,
My frehold of thanksgiving.

WHITTIER.

The Dairy Boom

A large and influential audience consisting chiefly of farmers of Narrows Creek and the adjoining districts, together with a delegation from Dundas, assembled in the schoolhouse of the above-named district, on the evening of the 19th inst., for the purpose of obtaining information and discussing details concerning the erection of a cheese factory in that vicinity.

After the opening of the meeting by the Rev. J. C. McL. M. Mr. Hugh A. McPhee was elected chairman and the undersigned secretary.

Mr. T. J. Dillon, superintendent of the experimental dairy station at New Perth, being called upon, arose and in a very energetic manner expressed his views concerning the erection of a cheese factory in that locality, stating that we here are just as well adapted for this industry as the people of Ontario. He suggested that a committee be appointed to canvass the district and ascertain as near as possible the number of cows therein capable of supplying milk.

After giving information regarding the construction, cost and organization of a factory, he proceeded to point out the different varieties of food most suitable to produce a large flow of milk, viz: peas, oats and vetches as early, and corn which can be grown here to the utmost perfection as late feed. Having given many other practical suggestions, he brought his highly appreciable lecture to a close.

He was succeeded by Mr. Shaw, who in his usual Ciceronian style spoke at very great length upon the subject. He denounced that prevailing opinion that farming is a drudgery and pointed out the means by which it can be made a pleasant and profitable occupation. He next referred to the decline in prices obtained for our present industries, and to our changed condition, not forgetting a severe rebuke to that merciless and detestable potato bug. He, like his predecessor, strongly urged the abandonment of the present system of farming, and recommended stock raising and the manufacture of cheese and butter. He very minutely described the kind and cultivation of food most suitable for the purpose. Having insisted that all prejudices be trampled under foot—and any existed—and that the people unite in the erection of a cheese factory for the common good, he brought his interesting discourse to an end.

In accordance with a suggestion made by Mr. Dillon, a committee consisting of Messrs. Chrysothom McCormack, John McDonald, Roderick Campbell, Jas. Bruce and Hugh A. McPhee, was appointed to canvass the respective districts in which they reside.

A hearty vote of thanks to Messrs. Shaw and Dillon for their kindness in addressing the meeting, and to Mr. McPhee for the able manner in which it was conducted, the meeting adjourned to meet at the same place on the 3rd Tuesday in November.

EMANUEL O. McDONALD,
Secretary.

Grand River, Oct. 20.

One of the queerest eccentricities lately exhibited by the German Emperor is his reported refusal to allow Herr Brandt, the German Minister to Peking, to marry an American lady, Miss Hart. The wife of the German Ambassador in St. Petersburg, Herr Von Schweinitz, is an American, as are several other consorts of German officials here in rank. More especially the Countess Walderssee, one of the greatest beauties at the Court of Berlin, and an aunt by marriage of the Kaiser himself, was born in America. The relations of the Emperor with the American colony in his capital are very cordial, and it is said that Mr. Poultney Bigelow and his wife are now special favorites at Court. The inference is, therefore, that Herr Brandt was refused permission to marry, not because his intended bride was an American, but because his imperial master wished the German Ambassador in China to remain a bachelor. But Herr Brandt, like any man of spirit, preferred a good wife to his diplomatic post and promptly sent in his resignation.

The Zanzibares of the interior have no great reason to like the Germans, whom they regard as intruders on territory to which they have no claim. The German colonization of East Africa began, indeed, with a quarrel with Zanzibar, which had previously been an excellent friend with England. While the Sultan's authority was paramount over the empire, there was practically unquestioned right of way through any part of it. Of course the good Sultan of those times is gone, but had the old order continued his successors would doubtless have followed in his footsteps. It is not, of course, to be implied that, whenever a savage tribe assails a German expedition in Zanzibar territory the Germans are in the wrong, but the antipathy to them was none the less based on their lack of consideration some years ago for native rights. What is worse others are the victims of the prejudice against them.
